Gatke Garden Scene Of Unusual Play

The Theta Alpha Phi dramatic society of Willamette university each year heretofore have given a banquet for school closing. This year they celebrated with an innovation which proved very successful. A six o'clock supper was served out in the lovely garden of Prof. and Mrs. Robert Gatke and immediately following this a dramatic production "Figurehead" by Saunders, was enacted in the garden with a shrubbery for background and stage effects. The hero, a fisherman, arrived by way of a boat on the mill creek which borders one side of the garden and made his entrance into the garden of the princess whom he was wooing. The whole production was picturesque and well received by the audience of 48 guests.

5 Lads Arrested For Vandalism in District School

Five young vandals of the Parkersville school district—boys who could not leave property of the school alone but partially destroyed it when the term had closed—will be haled before the county juvenile court here Tuesday afternoon.

The lads got into the school house and broke a number of windows, overturned several desks and wrecked things generally. The sheriff's office was called and Deputy Sam Burkhardt sent to take cognizance of the affair. As a result citations were issued Friday against Anne Schleeter, Andrew and Pias Miller, John A. Diecksch and Joe Schmidt.

Mother of Eight Boys

"I read an ad in the newspaper and I started taking Lydia E. Pinkham's Vegetable Compound and I will recommend this medicine to any woman who is in bad shape like I was. I used to get so tired after a few hours' work that I was even afraid in my own house in the daytime. I didn't care if I lived or died. I have given birth to eight boys and feel strong right after, since I have taken the Compound."

Sunlight "Starvation" Is Described by Health Board In Its Most Recent Talks

More and more sunny days are in the offing, if the weather's regular routine holds good for the summer of 1929. Consequently the late bulletin of the state board of health is particularly timely, dealing as it does with sunlight starvation. The bulletin follows:

The sun has been shining since the beginning of the world, yet there are people, in this advanced age who do not appreciate the value of the sun and the sun's rays.

Many diseases are due to a lack of sufficient hours spent in the sun. Sunlight is a necessity of life. Green plants removed from sunlight soon fade and lose their vitality. People who are confined in dark places away from daylight become pale and tend to lose their normal healthy vigor. Such persons have a pasty skin, are apt to be tired and listless and are an easy prey to germ infections, especially those of the lungs, nose and throat. The tendency to avoid the sun's benefits by remaining in-doors is all too general, especially during the cold weather period.

West Energy Available
Sunlight is only a small part of a vast sea of energy waves which are constantly pouring through space. Only a narrow band of the waves emanating from the sun is interpreted by the human eye as light. White light or daylight, is made up of component rays which represent the seven primary colors of the spectrum. Below the visible light lies the region of the invisible ultraviolet rays which possess important physiological properties.

The ultraviolet light of sunshine increases the germicidal power of the blood and increases the resistance to infection. The prevention and cure of rickets are important effects of sunlight. The ultraviolet light causes the absorption of certain mineral salts which are concerned in the building of the teeth and bones. It increases the hemoglobin or red coloring matter of the blood and acts as a general tonic.

Cautioned About Tanning
These short rays produce redness and subsequent tanning of

Hop Crop To Be Very Good This Year, Predicted

An exceptionally good hop crop is expected in the Salem district this season according to a report made Friday by E. E. Needham, who is closely in touch with growers in this section. Growing weather this spring has been very favorable to a large yield this fall. While few if any contracts are being made now, said Needham, the price outlook for hops is poor, prices being quoted at 14 and 15c a pound.

Delicious flavor for vegetable foods

Any woman interested in appetite appeal can use it

COOKING history was made recently when four famous cooking experts met in a kitchen high up in a New York skyscraper. The question before the house was what could be done to make vegetable dishes as delicious as they could be. The result of the experiments, which were carried on for several days, was the far-reaching new discovery of an old secret. The best way to cook vegetables is in a small amount of water, and with the addition of sugar. In every case vegetables so prepared received the unanimous vote of the experts.

For luncheon or dinner cook 6 medium carrots with a level tablespoon of sugar in the least boiling water possible. Slice, reheat and let simmer 10 minutes in 2 teaspoons of butter, pinch of salt, and 1 level tablespoon of sugar.

For delicious stewed tomatoes, peel, slice and stew 6 ripe ones, then add a lump of butter, 3 teaspoons of salt, 2 level tablespoons of sugar, and 1 tablespoon of bread crumbs. Cook 10 minutes longer and serve.

Just try sugar with vegetables in your own kitchen and notice how much better it makes these healthful foods. Try a dash of sugar with lima beans, string beans, corn, peas, parsnips, squash, onions and tomatoes. It makes children and adults like them. Most foods are more delicious and nourishing with sugar.
