

### MRS. GEER NEW GROUP LEADER

#### Woodburn Women's Club Has Its Final Meeting of This Year

WOODBURN, June 6.—The Woodburn Women's club met at the home of Mrs. C. C. Geer, vice-president, for their election of officers and the final meeting of the season, Wednesday afternoon.

The regular routine of business followed the opening with the club song, "America the Beautiful," and the club collect. The devotions were given by Mrs. Parr, who read the 23rd Psalm followed by the Lords' Prayer in unison. This was followed by the reports of the committees. It was moved that the librarian purchase an interesting children's book for the library to be paid for by the club.

#### Mrs. Norman Honored

The president repeated the invitation by Mr. Foshat to visit his dairy near Hubbard and the club decided to go Monday afternoon. Mrs. J. J. Hall presented a bouquet to Mrs. W. F. Norman in appreciation for the work she had done in her seven years of membership to the club. The officers elected to serve next year were president, Mrs. C. C. Geer; vice-president, Mrs. Bertha Wilson; recording secretary, Jessie Sims; treasurer, Mrs. J. J. Hall.

The program of art was in charge of Miss Carrie Waterbury who gave an interesting talk on china painting. Mrs. Geer displayed an original cartoon of Homer Davenport and a piece of Rookwood pottery and explained about each of them.

The guests included Mesdames Mianie Moore, Ivan Beers, Frank Whitman, C. A. Parr, A. C. Nelson, A. H. Dean, E. G. Allen, J. J. Hall, L. S. Moche, Susan Livesly, Carrie Young, H. L. Gill, W. D. Simmons, V. D. Bain, Eugene Moshberger, Bertha Wilson, W. F. Norman and Henry Hanson, Misses Carrie Waterbury and Mary Scollard. Mrs. Martin Moshberger was an additional guest.

### JAP STEAMER AFIRE THREATENING MANY

TOKYO, June 6.—(AP)—Fire raging aboard the Japanese steamship Ugo Maru, was believed today to threaten the lives of the boat's 700 passengers, most of whom were Russians.

Reports carried in Nichi Nichi Shimbun, confirmed by a foreign dispatch for Vladivostok, said the ship had caught afire between Vladivostok and Kamschatka. Other vessels were said to be rushing to its aid.

The Ugo Maru left Vladivostok on May 23 en route to the fishing banks on the east coast of Kamschatka. On May 28 benzine in the hold was ignited, the blaze finally getting beyond the control of the crew.

The ship was of 3682 tons and though Japanese owned has been chartered by the soviet fishing trust. It carried 700 Russian fisher folks, of whom 380 were women, and a Japanese crew of 43.

It was understood here that the Vladivostok authorities were suppressing the news fearing that it might interfere with recruiting for the fishing fleet.

### CLOSE OF WORKERS STRIKE LIKELY SOON

CHICAGO, June 6.—(AP)—The end of the iron workers' strike which has tied up \$200,000,000 in new construction work since Saturday was believed today to be in sight with the return to work of a number of workers under an agreement reached late last night.

The Union and Chicago Steel Erectors' association reached an agreement whereby bridge and structural steel workers will receive \$13 a day for a year. Previously a meeting of union representatives and those of the iron league, composed of contractors, ended in discord with the union rescinding its compromise demand of \$13 a day and the league its offer of \$12.50.

It later was announced that the joint arbitration board of the Chicago building trades council and the Building Construction Employers' association would meet to consider the controversy and seek an agreement.

### Good Prune Crop Declared Likely

Prospects for a good place for prunes are fairly good according to S. H. Van Trump, county horticulturist, who stated Wednesday that canneries were already offering \$20 a ton for green prunes for canning purposes. Van Trump did not express any optimism about a bumper price for prunes as the output of Oregon and California would probably be 350,000,000 pounds, exceeding by 150,000,000 pounds the consumption of prunes in the United States.

Can you afford to be without The North American Accident Insurance Policy issued to readers of the Oregon Statesman for only \$1.00 per year.

### Blair Case Again Brought Up For Decision by Jury

In the state industrial accident commission legally responsible to Mrs. Alberta Blair, under the workmen's compensation act, for the death of her husband which occurred last year from typhoid fever? This is the question which a jury in circuit court will be forced to answer today when Mrs. Blair's case against the state commission is decided upon.

Blair died from typhoid fever said to have been contracted from drinking Rogue river water while he was working at Gold Hill. His widow asserts that the state accident commission should in some measure compensate her for the loss of her husband since the water was the only kind available to the workmen.

### Family Departs For California

HUBBARD, June 6.—(Special)—E. A. Cromwell and his two sons Clair and Gene started from Hubbard by automobile for Bakersfield, Cal., Tuesday morning. Mr. Cromwell came to Hubbard from Portland more than a year ago and since then has been employed as a mechanic by the Hubbard garage. Clair was a freshman of the local high school and Gene, a pupil in the second grade. Mr. Cromwell expects to make his home in Bakersfield where he has a position as automobile mechanic awaiting him.

### MINORITY PEOPLES AWAIT THEIR FATE

MADRID, June 6.—(AP)—Some fifty million so-called minority peoples in Europe are thinking tonight in terms of Madrid. Tomorrow the council of the league of nations will take up the big problem of the ways and means to assure minority populations that whenever they have grievances, that whenever they feel the country in which they dwell is not according them proper liberty as to race, religion and education, their complaints will receive prompt examination at the hands of the league of nations.

A special committee of the council which exhaustively studied reform proposals submitted by Germany and Canada at the last session in Geneva has been unable to approve a majority of them. Dr. Gustav Stresemann, the German foreign minister, consequently is expected to defend his suggestions warmly in the hope that the council will modify the belief prevalent that the committee would be ready to make concessions on some points, but will strive for acceptance of its main conclusions.

The committee rejected the German proposal that the countries directly interested in minority problems should be allowed membership on the council's committee of three which handled all petitions, even ruling that it should not sit in a consultative capacity.

### DEMOCRATS VIEW FIGHT JUST AHEAD

WASHINGTON, June 6.—(AP)—Calling of a dinner for democrats here next week in honor of Jonett Shouse, newly named assistant of Chairman John J. Raskob of the national committee has developed some signs of discontent in the party ranks in the southland.

Several democratic senators from the south have said they have "other engagements" on the night of the dinner. Mr. Raskob will be one of the speakers at the affair, which has been organized by the Jefferson democratic association of Washington.

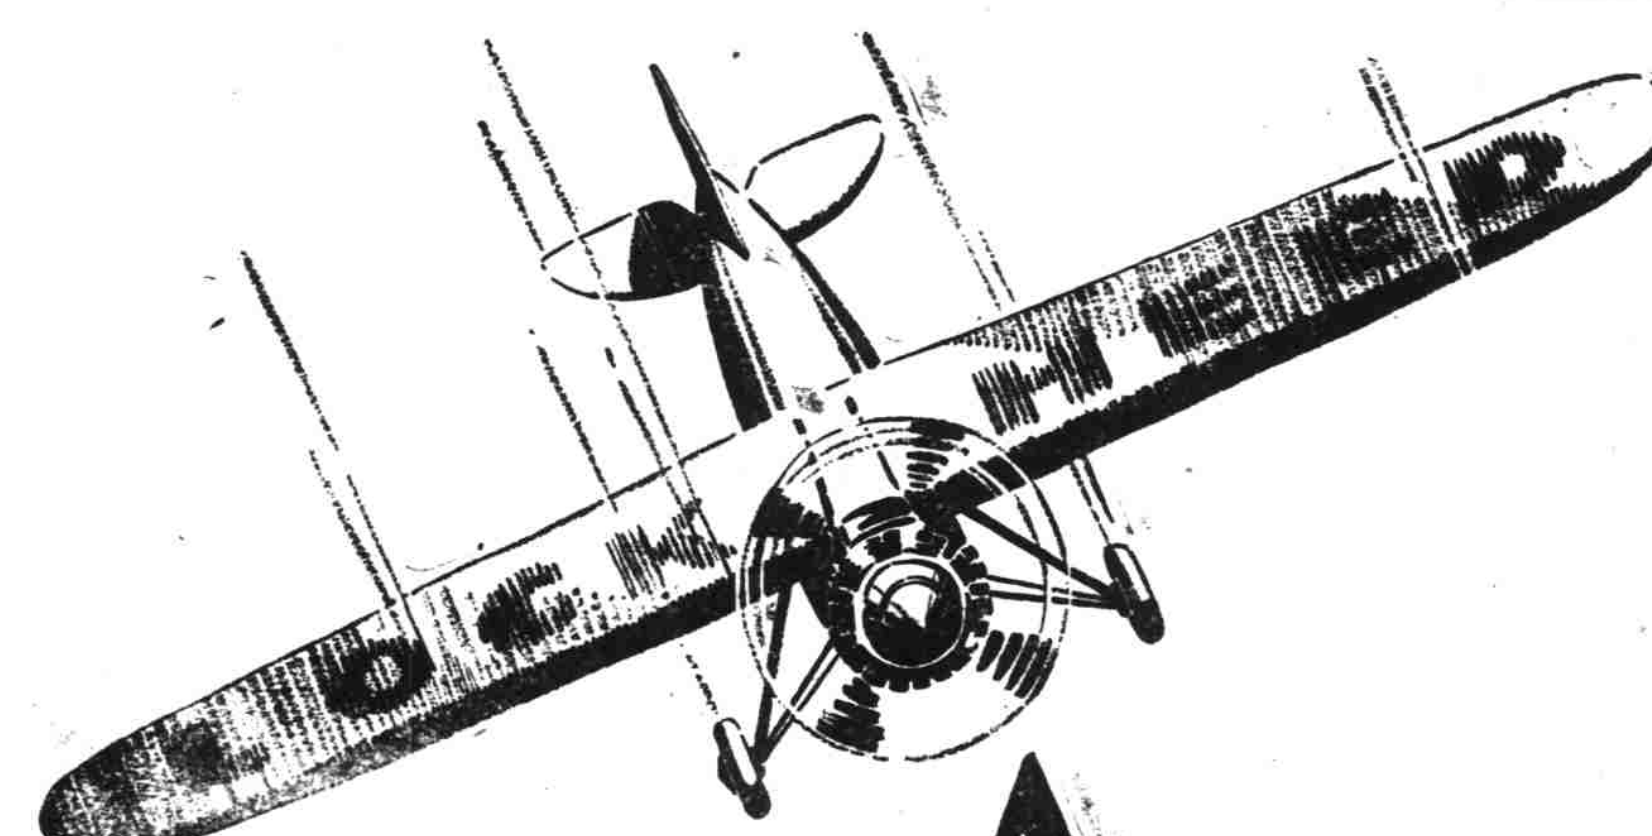

Few of the senators who will be absent at the dinner have given any reason for their absence. Senator Simmons of North Carolina, who resigned as democratic national committeeman for his state after Raskob was made chairman, did describe the dinner, however, as "very inopportune and instead

of bringing about the desired harmony is likely to have the contrary effect." Senator Smith of South Carolina, whose state was in the democratic column again in the presidential election, said he was not going to the dinner and did not care to make a statement about it, "in the interests of party harmony."

### Gardners To Pay Fee Of Only \$3

Word of certain "amateur gardeners" that their means of earning "pin money" had been adversely affected by legislation passed in the 1929 session was dispelled Wednesday by S. H. Van Trump with a statement that only a \$3 license fee would be expected by the state from any gardeners whose plantings did not amount to an acre provided the products sold were flowers and plants and not horticultural products such as trees. Professional growers of flowers and horticultural products are compelled under the law effective June 4 to pay a license fee of \$15.

Now is a good time to plant corn. We have Oregon Yellow Dent, Leaming, Pride Of The North, and several varieties of Sweet Corn. Also, Sudan Grass Seed, Millet Seed, and Buckwheat. **D. A. White & Sons** 251 State St. Salem, Ore.

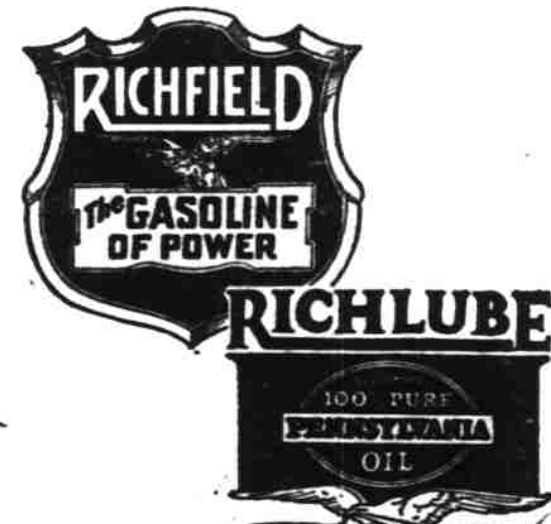

## A new Solo Endurance Record

FLYING a Wright motored, stock Lockheed cabin monoplane, using Richfield Aviation Gasoline and Richlube Motor Oil, Herbert J. Fahy, chief test pilot of the Lockheed Aircraft Company, set a new, solo endurance record without refueling—remaining in the air 36 hours, 56 minutes, 36 seconds.

Fahy took off from Metropolitan Airport at 4:43:05 a.m. Tuesday, May 28, and landed at 5:39:41 p.m. Wednesday—exceeding the record of Martin Jensen by 1 hour and 23 minutes.

Once again Richfield has played an impressive part in an aerial achievement—just as it did in the flight of the Question Mark army plane, in Captain Wilkins' hop over the North Pole, in numerous record breaking transcontinental flights and endurance records.

Use Richfield in your own car for the same reason it is selected by leading pilots and flyers—power, speed, unflinching dependability. And Richlube pure Pennsylvania Motor Oil—it means longer life to your motor.
