An Invitation to Automobile Owners, and the Public in General:

We are happy to announce a Four Days Educational Meet in Salem, on Friday, Saturday, Sunday and Monday, June 7, 8 and 9. The public is cordially invited to attend this Meet daytime and evenings at our showrooms, 525 Chemeketa Street, Salem.

By a three-reel motion picture show we are moving Dynamic Detroit to your door, showing you the deep canyons of the financial center of the city; also the magnificent new Art Center, the Italian marble Art Library, the Art Museum, the Natural History Museum where wonders of land and sea are shown back of and under glass and abounding in tropical vegetation, also the Belle Island Aquarium with its display of deep sea fish.

In a tri-motored airplane you may catch a birdseye view of the City, and you will be landed at the objective point, the Hudson-Essex factory where four hundred thousand cars per year are built, or approximately 1900 per day, which is at the rate of three per minute.

During this educational Meet we will show a Phantom Essex Challenger, with a cut-away motor, body, top and chassis, electrically equipped and operated, showing the full details of construction, material, upholstery, hardware, color, etc. In a fashion show on our own floors, of utmost interest to men and women, the motor, color and design of the Essex line will be revealed.

Essex, the Challenger, having successfully challenged all that the motor world has to offer now in this unusual Meet challenges the thinking and appreciation of the public in this striking exhibition.

Detroit, which you will visit in picture, is the motor capital of the world. There 80 per cent of the automobiles of the world are built. In Wayne county, where Detroit is located the March registrations showed Hudson-Essex lacked only one car of equalling the entire registration of eight of its leading competitors, in the same price class. In succeeding months an increased ratio prevailed.

Detroit is MOTOR-WISE. As goes Detroit, so all other sections quickly go. In this Educational Meet we give the public the opportunity of seeing WHY Detroit goes so strongly HUDSON-ESSEX.

Remember the dates, June 7-9 inclusive, day and evening, at Hudson-Essex showrooms, Chemeketa & High streets,
