

News of the Week Throughout the Salem Territory

With the schools closing, visitors from out of the state and June weddings, the social life of the surrounding communities has been very active this week.

At this season many of the clubs suspend activities until fall and the final spring meeting is always an occasion for a special meeting, often a picnic. The many community clubs have been very active during the winter and elaborate plans are already under way for next year's work. The community club has become a real power in many districts, particularly in Marion county, and much of local benefit has grown out of the work of these organizations.

As each school closes for the year plans are being made for next year's work. Pupils who have made unusual records in either scholarship or attendance are rewarded and each youngster is inspired to win one of the awards next year, even though he may not have been so fortunate this year.

Although this is a very busy season on the farms every one finds just a bit of time to spare for visiting or play.
