Andrew Vincent Honors Salem Art's League Reception

ONE of the outstanding social functions of the spring was the Art's League reception at the home of Mr. and Mrs. C. P. Bishop on Court street Friday night. The affair was planned as a farewell meeting of the year with Andrew Vincent instructor in the school of art in the University of Oregon, and the incoming officers of the next Art's League year as honor guests.

The guest rooms of the Bishop home were converted into an intriguing art gallery with the original canvasses which Mr. Vincent brought for the pleasure of the guests. In addition to the canvasses, flowers added a lovely garden note to the rooms.

Mrs. Clifton Mudd, Dr. Mary Rowland, and Mrs. C. I. Lewis met the guests at the door and introduced to the line which was headed by Mr. and Mrs. C. P. Bishop, Adjutant General and Mrs. George A. White and Andrew Vincent. Mr. Vincent was introduced for an informal discussion of his work, and art in general, by Mrs. Richard Cartwright, newly elected president of the Art's League.

Mr. Vincent's talk on "Art" was a very compact and clear exposition of the fundamentals of painting. In language easily understandable he explained the objects of the artist and the methods he pursued to attain any objects in each composition. Each painting made its claim to artistic eminence as it succeeded in catching and conveying the emotional reaction of the artist to a particular composition. Some schools have put emphasis on form, seeking perfection in design and drawing; while others have relied on color to carry the message of the brush. Color was the medium of the impressionists, but the moderns are going back more to form which the older painters so highly esteemed. Landscapes, decorations and murals are differing types of composition each with its own requirements.
