

UPTON CLOSE AT MONMOUTH

Noted Traveler Guest of Normal and Entertains Students and Faculty

Dr. Frederick Washington Hall who is also known as Upton Close, spoke to the Oregon Normal School students and faculty at a convocation Tuesday.

As an author and traveler of renown who has spent many years as a student of the Chinese language and customs, Dr. Hall is an able and versatile lecturer, and brought a message of interest on education in the west, looking toward the Orient.

A deep interest in things and peoples of the far east, induced Dr. Hall to inaugurate an annual student travel excursion for Americans who wish to tour the Orient under advantageous conditions, and at a modest cost. The excursion, which he will direct in person this summer, is a three months' trip on a Japanese boat chartered and managed by Dr. Hall. American cookery will prevail aboard, and the entire outlay for transportation per individual ranges from \$375 to \$475. A few first class cabin passengers will be accommodated at \$1000 each. One hundred twenty-three persons are signed up for this summer's cruise, and it is planned to offer the opportunity again next year.

While in Monmouth, Dr. Hall and his wife were guests of Dean Jessica Todd and her assistants at the dormitory, where they delightfully entertained a number of students and faculty members Tuesday evening with a program of Chinese music and poetry. Mrs. Hall sang a number of songs adapted from the Chinese and Indian, and was accompanied at the piano by Dr. Hall. In presenting some Chinese poems, he explained that a Chinese symbol often includes thought content for an entire paragraph in English, and gave some interesting exemplifications.

MONMOUTH TO HAVE NEW CITY BUILDING

MONMOUTH, June 20.—At an adjourned meeting of the council Monday night, bids were called for this item of fire equipment, one standard fire alarm pump, Lyle Bartholomew of Salem, architect for the proposed city hall and fire department building, was authorized to proceed with plans for the building to be located on property belonging to the city fronting on Main, and at present occupied by the Monmouth Lumber company's yards.

A communication from officials of the Southern Pacific company relating to the proposed purchase by the city, of lots adjacent to the city park as a possible city hall site, stated that authorities of the Portland Southern Pacific office would forward the offer made by this city to the board of directors of the company in New York. As this transaction would require about 90 days for consummation, and another 90 days to complete the technical details involved in such a purchase, it was considered impractical.

HUBBARD BAND TO PLAY AT MOLALLA

HUBBARD, June 20.—Dr. A. F. Lespinaise of Hubbard has completed his year's work as band director for the Oregon City schools and has been re-hired for the coming year. He will have charge of the bands of both the grade and high schools.

The Hubbard community band of which the Doctor has charge, has been outfitted with dark blue sport coats which were worn for the first time when the band played at Portland at the Rose festival. White skirts and trousers completed the outfit.

Three new members, Miss Anita Bevens, Bernard Cole and Ralph Hulbert, all experienced musicians, have been added to the band and will play at the Molalla Buckaroo, July 2, 3, and 4, for which the band has been engaged.

Bethel Selects Teaching Staff

BETHEL, June 20.—A Bethel school meeting was held Monday afternoon. It was decided to paint the gymnasium inside and out and to calamine the inside of the school building. They also decided to gravel the roads around the buildings.

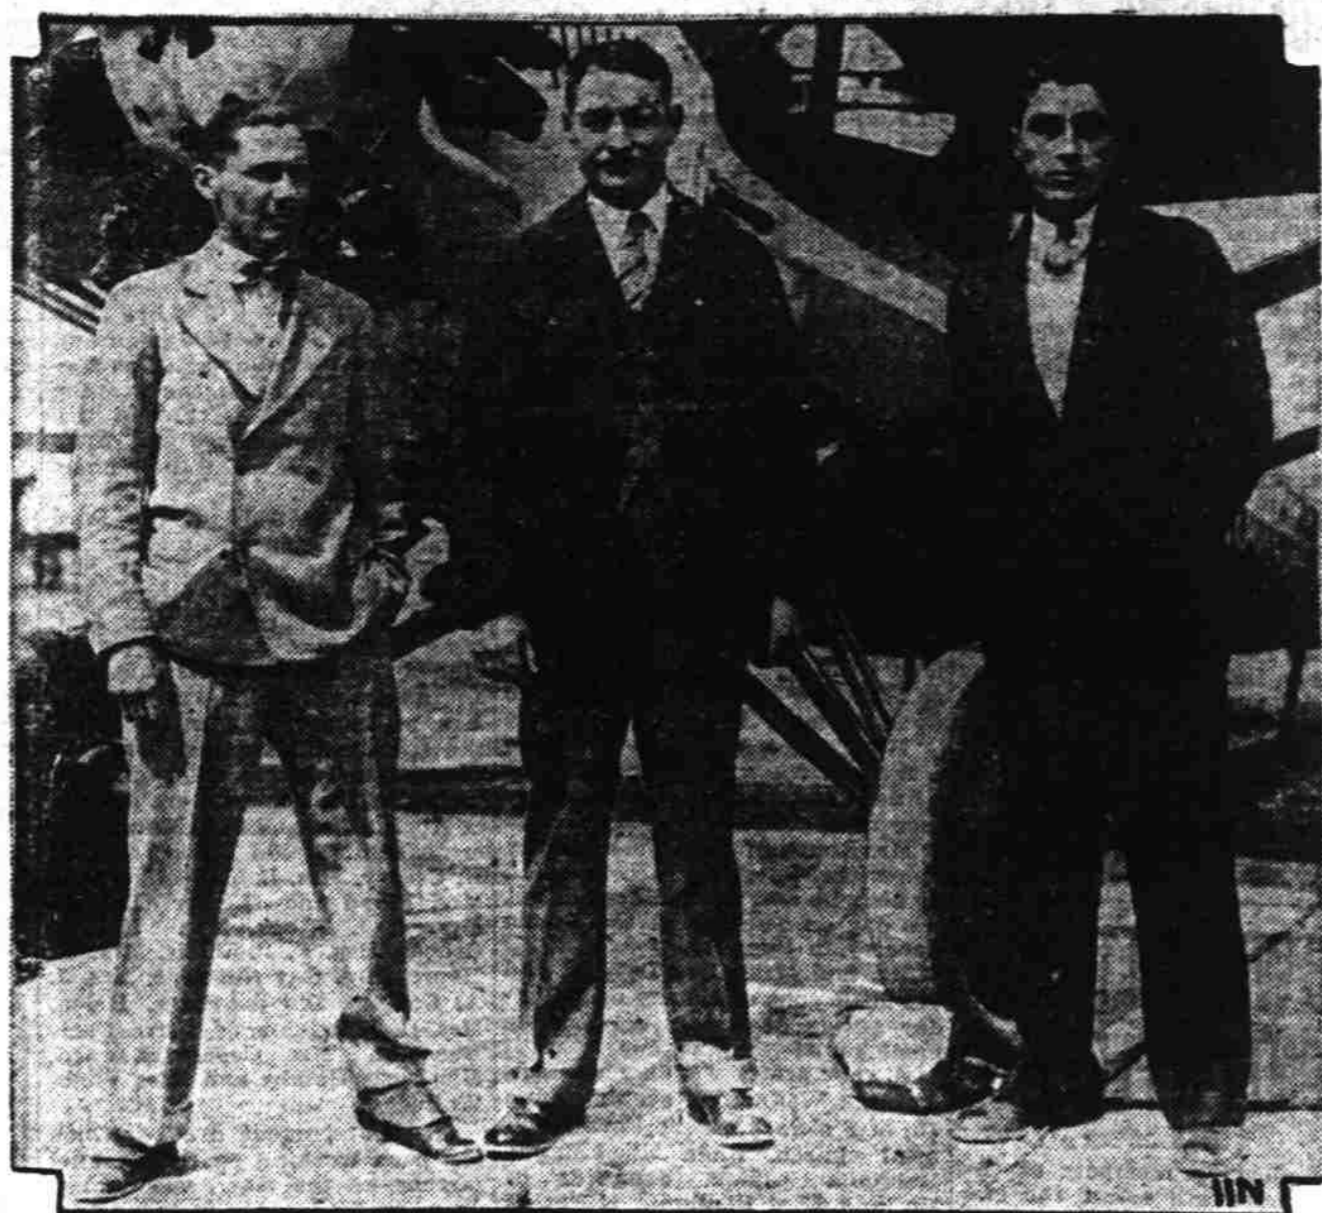

August Rhode was elected the new director. The teachers are Mrs. Stutz, principal, Mrs. Joe Baker intermediate grades, Mrs. Stutz, primary grades. The assistant high school teacher has not been selected as yet.

Amity Has New Tourist Cabins

AMITY, June 20.—The five tourist cabins that have recently been completed by R. R. Massey are a valuable addition to Amity. These cabins are modern in every respect and are completely furnished. The larger ones have sitting room, with fireplace and folding bed, cosy bed room, kitchenette, with built-in cupboards and sink. Each cabin has hot and cold water, electric lights, shower bath and toilet.

Plan 300-Hour Endurance Flight

Elaborate arrangements are being made at San Francisco, Cal., for the longest refueling endurance flight yet attempted. Colonel Harry Abbott, James Warner, of Southern Cross fame, and Sandy De Benza, left to right, are the fliers who expect to spend the longest time in the air that has ever been accomplished by man to date. They will try to keep their plane, the "San Franciscan," aloft for more than 300 hours.

WEST SALEM CLUB PLANS FOR PICNIC

WEST SALEM, June 20.—The regular monthly meeting of the West Salem Community club was held on Monday evening.

A program of old time music and readings was given by the Sedar family of Salem. A report was given of the minstrel show and the strawberry festival and carnival with total receipts of both amounting to about \$370. It was voted to hold a picnic on Saturday of this week, beginning at 4 o'clock, on the school grounds, at which time a horse-shoe tournament, races and general athletic sports will be held. A prize will be given the winner in each contest. These races were to have taken place on the Saturday program at the festival, but owing to the bad weather they had to be postponed.

A lot has been purchased by the club and they contemplate the erection of a new community club house in the near future. The regular meetings will be resumed in the fall, this being the last meeting of the summer.

Silverton Garden Contest Prizes Are Announced

SILVERTON, June 20.—The following prizes and awards for winning entries in the big Silverton Garden contest have been announced: First class: 1st prize, \$30.00 and award of merit; second prize, \$25.00; 3rd, \$20.00; 4th and 5th \$10.00 each; 6th, \$5; 7th, \$5, in trade; 8th, 1/2 doz. electric light globes.

trade; 9th, auto tube. Third class: 1st, 25 rock plants; 2nd, golden cypress; 3rd, potted fern; 4th, shrubbery and tulips; 5th flower basket.

SILVERTON YOUTH DIES IN PORTLAND

SILVERTON, June 20.—Orval Hendrickson, age 26, formerly of Silverton, passed away at the Portland hospital Wednesday.

Mr. Hendrickson had been suffering from kidney trouble for some time and lived but two hours after an operation. He is survived by his father, M. S. Hendrickson, formerly of Silverton, but now of Kelso, three brothers and one sister. One brother, Ed Hendrickson, and the sister, Mrs. Bertie Houck are residents of Silverton. Mr. Hendrickson spent nine years of his life in Silverton but has lived in Portland for the past three years.

SILVERTON CO. HAS TWO FIRES

Sparks Cause Blaze Which Destroys Old Silverton Lumber Mill

SILVERTON, June 20.—Two fires occurred in the property of the old Silverton Lumber company, one at 5 p. m. on Wednesday and the other at 2 a. m. on Thursday.

It is thought that both were caused from sparks from a passing locomotive. Although the store room and round house were practically destroyed very little serious damage was suffered.

The mill has not been in operation since 1925. In December 1928 the machinery was sold to the Oregon Machinery company of Eugene, who have been dismantling the mill since that time. All of the fire fighting equipment has been removed but the local volunteer fire company, assisted by the fire fighters from Mt. Angel kept the blaze under control and prevented damage to the property of the Silver Falls Mills close by.

The buildings are still owned by the Silverton Lumber company, of which H. B. Latham is local manager. Although the mill has been closed for several years the company still maintains a Silverton office.

SOUTHERN MILLS IN PARTIAL OPERATION

WARE SHOALS, S. C., June 20.—(AP)—The Ware Shoals mills, idle for more than two weeks, following a walkout of employees when two men were discharged, operated today with a partial force while two units of National Guard and 13 special police and state constables stood by to prevent possible violence.

Beyond hooting and jeering by strikers as workers who refused to join them marched into the mill this morning the day passed quietly. Mill officials said 700 operatives returned to work. The plant employs about 1,700 workers in both day and night shifts combined.

GERMAN INTEREST IN PEACE IS GREAT

BERLIN, June 20.—(AP)—The evening newspapers today were filled with New York and London comment on the address made by Ambassador Dawes last night, but offer little of their own.

The Diplomatische Politische Korrespondenz which reflects official views, says that the conclusion is warranted that with both the Anglo-Saxon powers there will be no more decisive action on naval reductions and therefore toward disarmament is there but that no full understanding has yet been reached on the time and methods to induce the other naval powers to cooperate. It says also that despite the good will of the leading men on both sides, difficulties in the way can only be overcome by further and more thorough discussions.

Although Germany is relatively less interested in this part of the disarmament question, it will have any progress on the lines of the latest American and British utterances.

MAN SENDS BULLET THROUGH OWN BRAIN

PORTLAND, Ore., June 20.—(AP)—Ed Kolman, 62, formerly of Wenatchee, Wash., and St. Mary, Idaho, walked into Washington park today, sat down on a bench in a secluded corner and fired a bullet into his brain. He was dead when a park attendant

reached his side. Kolman managed a hotel at St. Mary, Idaho for several years, and it was believed he was at one time a probate judge there. Later he was in business at Wenatchee, coming to Portland last year. He had been ill for several months.

OFFICERS AND RUM RUNNERS IN BATTLE

WINDSOR, Ont., June 20.—(AP)—Rum runners of the East Windsor section today fought a running revolver battle with a United States customs patrol cutter on the Detroit river and escaped into Canadian waters.

Walker S. Petty, acting collector of customs at Detroit, said the rum runners deliberately opened fire when the rum craft was near the foot of Joseph Campau avenue, Detroit.

Revolver shots struck the customs patrol cutter and penetrated its prow. The customs men returned the fire and the rum runners retreated, maintaining a heavy fire, Petty said, even after they had crossed the international line. The United States boat abandoned the pursuit at the line.

U. S. MAY PROPOSE NAVAL 'YARDSTICK'

WASHINGTON, June 20.—(AP)—The apparently international approval of the sentiments expressed in London by Ambassador Dawes found additional reflection in official circles today, but the subsequent intimations from abroad that the next disarmament move was expected here lacked responses of any sort.

So far as the immediate plans of the United States are concerned, the next development will be the deposit by one of the powers interested in the preparatory disarmament commission of a formula based on the so-called "yardstick" theory proposed at the last session by Ambassador Gibson.

After several other nations have filed their formulas, the United States will deposit it with the league preparatory commission the formula which is now being prepared by American naval experts. Under the "yardstick" method, certain factors in naval strength such as tonnage, armaments, age and speed each would be accorded proportional importance—and the nations' navies would be evaluated by that one measurement system.

Everything for Summer Comfort

Courteous Service

You do not have to be reminded of Ward's courteous service to its customers. You feel you are welcome here from the very moment you enter the store. Here you find friendly, accommodating salespeople—interested in serving you in the best way possible. Ward's is proud of them.

Cool and Smart
