FINAL COURT IS DAZZLING FETE

Dawes Appears Again With Dress Suit; Queen in Gorgeous Garb

LONDON, June 27—(AP)—The final royal court of the season was held tonight in a blaze of crimson and golden splendor at Buckingham palace. Once again there were American young women to make the bow to Queen Mary and again the new American ambassador, General Charles G. Dawes, appeared in simple American evening dress in preference to the silk breeches of court etiquette.

It had been explained today at the office of the lord chamberlain that the ambassador had obtained special dispensation to wear trousers, although his staff for the most part followed the regulation costume. At least one London paper argued that in doing this he appeared at court in the uniform of his rank as an American ambassador and in such dress as he would wear in coming before his own people.

American Girls Received Eight American women were received. They were the Misses Annie E. Nourse, of Boston, Mary E. Riddle of Tennessee, Elizabeth Stuart of Cambridge, Mass., and Medames Ernest Dorbritz of Philadelphia, Walter Morritt of South Carolina, Francis Neilson, of Chicago, John B. Seymour of Georgia and Andrew Wheeler of Philadelphia.

Her majesty wore a Russian-shaped coronet, ablaze with diamonds, while on her breast flashed the great Kohinoor. The blue ribbon of the Order of the Garter was her only decoration. The Duke of York took the place of his elder brother tonight in escorting his mother from the drawing room to the ballroom. Behind the queen and grouped around the single golden throne stood the duke and Prince George, both in naval uniforms. Princess Mary, Hsacout Lascalle, the Princess Marie Louise.

More than one thousand persons were guests of her majesty tonight. The band of the Welsh guards played during the presentations.

Hoover Wants to Protect Consumer, Producer Both In Action on Sugar Tariff

By D. HAROLD OLIVER Associated Press Staff Writer WASHINGTON, June 27.

(AP)—President Hoover favors a sugar tariff that will protect both the producers and consumers, although he has not expressed himself as advocating any particular form of duty.

This statement, the first official pronouncement giving the president's views on the tariff since the subject was taken up by congress six months ago, was issued at the White House late today after testimony had been given before a senate finance subcommittee that the chief executive was "much interested in protection for the domestic sugar industry."

Smoot Waits Sliding Scale It followed also a declaration by Senator Smoot, republican, Utah, chairman of the finance committee, that he was considering a sliding scale sugar tariff plan as a possible substitute for the flat increased rate of 2.40 cents a pound on Cuban raw sugar as provided in the house bill. The present rate is 1.76 cents.

The president has had sliding scales of sugar duties submitted him by members of the committee. The White House statement said: "The object of these was to protect the consumers as well as the producers."

"He has not expressed himself on them, but of course would be glad to see any arrangement which would effect the dual purpose."

The finance committee chairman, who enlivened the sugar hearing with frequent heated objections to testimony during the day and injected another surprise by declaring for limitation of free importation of Philippine sugar, disclosed he was considering the sliding scale plan after Stephen H. Love, president of the United States Beet Sugar association, had testified that he had read a published report that Smoot would propose such a plan.

Domestic Food Advocated Love had been advocating the increase in the house bill of sixty four hundredths of a cent in the present duty of 1.76 cents on Cuban raw sugar and the proposed sliding scale came up after he had testified that President Hoover had told him within the last three months he was "much interested in protection for the domestic sugar industry."

Love said the president had expressed this sentiment to him in Utah during the last campaign and in Washington since the election. Under questioning, he said he believed the president favored higher duties but he did not know what rates Mr. Hoover advocated. He made it plain he was not speaking for the chief executive.

Scale Plan Proposed Senator Harrison, democrat, Mississippi, injected the scale plan into the discussion by asking the witness what he thought of it. Love said his organization had studied the proposition thoroughly but as it was more or less a theory no one had yet been convinced of its soundness.

He said he did not think Senator Smoot would offer it without consulting the sugar beet interests.

Smoot said he had given only tentative consideration to the plan and would propose it only if an agreement could be reached as to its feasibility.

Under the plan, duties would increase as the price of sugar fell, and drop when the price of sugar rose. Such a proposal was said to have been under consideration by some of President Hoover's advisers at the time the house bill was adopted, but today was the first time it was developed officially that Senator Smoot had interested himself in it.

For the past three milking periods, 1.25 days, she has averaged 10 gallons of milk a day, or as much as 10 cows ordinarily produce. Her name is Beauty Girl Gerben Rebecky, and she is a pure-bred Holstein.

She could be the foster mother of an entire village. Ten gallons of milk would fill 175 bottles, enough for the baby population of quite a village. It would fill the milk bottle on 40 doorknobs, or it would serve a glass of milk to 160 customers in a restaurant.

If the milk were separated, the cream would be enough for the coffee cups of more than 100 patrons. And the surplus could be churned into butter for two slices of toast to go with each cup of coffee. Then the skim milk would feed either 12 calves, 20 pigs or 300 hens.
