William Ellis Files Brief In Rate Case Now Before Interstate Commerce Board

William P. Ellis, of Salem, attorney for Western Oregon Traffic association, has filed a brief with the Interstate Commerce commission, in the cases involving the application of the Southern Pacific company for "fourth section relief".

The railroad is seeking to establish rates between California port cities and Portland and Seattle and other Puget Sound cities considerably lower than present rates, and decidedly lower than the rates to intermediate points. The Western Oregon Traffic association which is fighting the rate reductions, is composed of the chambers of commerce in Oregon cities from Ashland to Salem. An examiner for the commission held hearings some months ago. Briefs are now being submitted by the parties at interest, the brief of Mr. Ellis summarizing the case against the granting of the new rate schedule.

The brief of Mr. Ellis is a comprehensive document of 80 pages. He cites the present rate structure and how it operates to the disadvantage of the intermediate cities. Complete statistical tables accompany the brief to make clear the contentions of the counsel. The brief also refers to the evidence taken at the hearings, notably the testimony of residents of Roseburg, Tillamook, Klamath Falls, and Ashland. Throttling of interior development through establishment of the rates contemplated is condemned by many witnesses, and their observations are made part of the brief in the case.

Fact Findings Urged

Mr. Ellis urges the commission to adopt findings of fact as follows:

"1. That the granting of the application of Southern Pacific company would result in undue and unreasonable preference and advantage to the several Pacific coast ports and in undue and unreasonable prejudice and disadvantage to the cities and towns intermediate thereto, and particularly those situated between San Francisco Bay and Portland, Oregon.

"2. That the rates proposed to be applied to and from the cities and towns intermediate to the Pacific coast ports, and particularly the cities and towns located on the lines of Southern Pacific company intermediate to San Francisco Bay and Portland, are inherently unjust and unreasonable, in violation of Section I of the Interstate Commerce act.

Interior Cities Retarded

"3. That commercial, industrial and agricultural development of the several cities and towns located on the lines of Southern Pacific company intermediate to San Francisco Bay and Portland has been seriously retarded and stifled by the existing rate adjustment under which intermediate towns have been required to pay freight rates to and from the ports, which were in some instances as high as 380% of the port to port rate on the same commodity.

"4. That the granting of the application would result in forcing intermediate carriers to abandon or materially restrict their operations and to establish themselves at points adjacent to the ports,

thus preventing a natural and logical development of the intermediate territory.

"5. That the earnings of applicant Southern Pacific company would be best conserved by the establishment of rates designed to foster and encourage commercial, industrial and agricultural development in the inland territory intermediate to the ports, the traffic from which would be in its exclusive control, rather than by a continuance of Fourth Section violations which tend to center development at the ports, where the greater proportion of the tonnage will naturally go to water carriers.

"6. That the applications of Southern Pacific company herein should be denied in their entirety and Southern Pacific company required to establish and maintain at intermediate points between San Francisco Bay and Portland rates no higher than those contemporaneously applied for the longer haul between the ports."

Pratum Sunday School is Active

PRATUM, July 2.—District Supt. T. H. Temple held communion services and preached here Sunday evening.

Ernest Roth and Alma Stauffer both were elected to the two highest offices that the Hayesville Sunday school district can confer on anyone last Sunday afternoon when they were elected president and secretary-treasurer respectively of the Hayesville district at the Hayesville church when the 144th quarterly convention was held at that place.

The Hayesville district organization is the oldest organized Sunday school district in the county and possibly in the state or the whole northwest. It preceded the county organization.

The attendance at the Sunday school picnic and Fourth of July celebration will probably be larger than ever before. People are not only coming from the Hayesville district and the other districts of the county but other counties will be well represented.

Brush College Has Children's Day Program

BRUSH COLLEGE, July 2.—A program of any sort, given entirely by children is always of absorbing interest but the "children's day" program given by the Primary department of the Brush College Sunday school, under the direction of their teacher, Mrs. W. J. Lehman, was a never to be forgotten event.

Bright eyes and radiant faces greeted the large assemblage gathered to enjoy the occasion.

The Sunday school rooms were profusely decorated with samples of lovely blossoms from all of the gardens in the neighborhood.

Fred Ewing, superintendent of the Sunday school, presided at the short session of Sunday school

which preceded the program.

Miss Avis Hicks was pianist for the program which opened with a motion song by two little maids, Maxine Olsen and Antone Krall.

The next number was a play "Story of Old" in which little Ruth Whitney ably took the part of Miriam of Bible times, and a group of four other little children assisted; at the close of the play the primary class sang "Suffer the little children to come unto me," eight young lads sang "We're the boys," their fresh, clear voices blending perfectly with the piano.

A play "Spirit of Love," depicted a young girl, Maxine Olsen, giving away her lovely flowers to her playmates who, could not go to "Children's Day" with her, other parts were taken by Robert Ewing, Martha Good and Hazel Hatch, four girls of the intermediate class gave a charming play "Wild Flowers," the cast including Hilda Crawford, Marguerite Johnson, Ruth Smith and Gertrude Johnson.

A play "We are little mamas," was very pretty with eight tiny girls, each holding a dollie and singing them to sleep, a clever little scene was next staged when two white gates were held open by two members of the primary class, Loyal Whitney and Maxine Olsen, for two members of the cradle roll, Victor Olsen and Gertrude Myer to walk through into the Primary class.

Mrs. Oliver Whitney, teacher of the Cradle roll awarded diplomas to the two tiny tots; the primary department is supporting a missionary and the offering taken was given to them to assist in the work.

Mrs. A. D. Olsen and Mrs. Fred Ewing next contributed their birthday offering and the assembly arose and wished them many happy returns of the day.

Mrs. Lehman then called four of her class forward and with a few fitting remarks commended them to the care of Mrs. A. E. Ewing, teacher of the Junior class.

Vocal number by Alvin Ewing and Loyal Whitney, "Anywhere With Jesus" was sung by the assembly as a closing number.

FACTS about... RIVERSIDES

Study these points! ...they are your protection in knowing the Quality of tires you buy

The Whole Story Is This...

MOST well-known tire manufacturers in America sell at least three different qualities of tires.

So does Montgomery Ward & Co. Most well-known tire manufacturers in America charge three different prices for the three different qualities of tires.

So does Montgomery Ward & Co. Most manufacturers or dealers do not admit that they sell three different qualities of tires.

But Montgomery Ward & Co. does! Our Super Service RIVERSIDE, unconditionally guaranteed for 30,000 miles, is our VERY BEST or Super Quality, and, in our opinion, the finest tire ever built. Compare it with any super quality tire made no matter how high the price.

Our Standard RIVERSIDE, guaranteed for 16,000 miles, is our FIRST QUALITY tire, and is equal in quality of materials, workmanship, appearance and service to other first quality tires made by leading manufacturers. It should never be compared with any "second line" brand — no matter what name the tire bears.

Our WARDWEAR tire, guaranteed for 10,000 miles, is our SECOND QUALITY tire, and equals any other

second quality tire. It sells at an extremely low price and is only to be compared with low-priced "second-line" tires produced by leading manufacturers—regardless of any claims to the contrary.

Montgomery Ward & Co. believes in "calling a spade a spade" and letting the purchaser know exactly what we are selling him. It is distinctly against our policy to create the impression that our WARDWEAR quality is to be compared with first quality tires of leading manufacturers.

Common sense should tell you that when any company produces three different articles to sell at three different prices, there must be a difference in the quality.

All RIVERSIDE and WARDWEAR tires are made by manufacturers who are noted for the excellence of their products. Ward's economical distribution methods create short-cuts and economies which are directly reflected in the prices of our tires and, regardless of whether you purchase RIVERSIDES or WARDWEARS, we guarantee that you will save money as compared with the prices charged by others for the same identical qualities. In addition, at Ward's you pay for Guaranteed Mileage, which in itself is a definite measure of value.
