TOOK ADVICE OF HER MOTHER

Praises Lydia E. Pinkham's Vegetable Compound

Wetmore, Colo.—"When I was married 14 years ago I was in bad health for a couple of years when I tried to do anything I would get tired and worn-out. I have taken Lydia E. Pinkham's Vegetable Compound off and on all these years and have recommended it to hundreds of women.

I have given birth to six children and have taken the Vegetable Compound as a tonic before child birth. It has done me worlds of good. My mother had taken it several times, and she recommended it to me."—Mrs. JOHN BAASSEA, Wetmore, Colorado.

AUSTRALIAN FLYERS HONORED BY RULER

LONDON, July 10.—(AP)—King George tonight sent congratulations to two Australian and two American airmen led by Captain Charles Kingsford Smith, who this afternoon landed the plane "Southern Cross" at Croyden air field after a record breaking 12,000 mile journey from Australia.

The elapsed time of the trip, from the Australian coast to the English coast, was 12 days, 21 hours and 18 minutes. Forty-five minutes more were required for the machine to reach Croyden. The best previous mark for the journey was the 15 days, 1 hour and 7 minutes from the Australian coast to Croyden established by Bert Hinkler in February 1928.

There was wild scene of welcome when the plane touched ground at Croyden. Women raced with men across the airrome to meet the fliers and cheer them to the echo.

TWO KILLED WHEN AIRPLANE TUMBLES

HACKENSACK, N. J., July 10.—(AP)—Major William Strong of Arizona, former war time aviator, and Leo Crozier of Paramus, N. J., were killed tonight in their airplane which fell 1,000 feet to the ground at Rochelle park, near here.

One wing of the plane was seen to collapse and the craft fell like a plummet. Both occupants were dead when taken from the wreckage.

Major Strong was the pilot of the plane and Crozier was part owner. Major Strong had been serving in the army during the Pershing expedition into Mexico and in the World war.

HOT FIGHT LOOMS IN PARLIAMENT, PARIS

PARIS, July 10.—(AP)—The issue between the government of Premier Poincare and the opposition in parliament as to how the debt records with the United States and Great Britain should be ratified, was squarely defined today on the eve of the opening of the momentous debate. The foreign relations committee decided by 15 to 4, with 5 not voting, that reservations must be put into the ratification bill.

M. Poincare will oppose this. He has announced that he would make the life of his government on the issue.

The reservations to which the committee vote applied were declarations that France never should be called upon to pay more in debt settlements than she receives as reparations from Germany.

There also was some talk of another reservation providing for a moratorium whenever the capacity of France to pay is not equal to the installments due under the debt accord.

The prime minister insists that no reservations of any kind must be inserted in the text of the ratification bill. He holds that it is useless to qualify the ratification of settlements which were entered into in good faith by all concerned but he will consent to the passage of separate resolutions expressing any sentiment upon which the chamber may wish to go on record.

Conservative opinion around the lobbies tonight was that the government would muster a small, but sure, majority for unqualified ratification.

to operate an x-ray laboratory exclusively for dental work, it was said.

MACDONALD AGREES TO VOTE NEXT YEAR

LONDON, July 10.—(AP)—Hard after the first vote of confi-

ence had been given the new labor minister by Tuesday's ballot on "safeguarding" tariffs, Stanley Baldwin, prime minister of the recently deposed conservative government, today obtained from Premier Ramsay MacDonald a promise to submit the whole government policy to debate and a confidence vote early next year. Aside from this development the proceedings consisted chiefly of a rather dull debate concerning a rather dull local government affairs.

The conservatives hit at Mr. MacDonald's air-mindedness and criticized him for using army planes in keeping political engagements. They argued that addresses at political meetings did not constitute government business and that the prime minister ought to engage private airplanes for such trips.
