## STOCK MARKET IN CONFUSION

### Rough and Uneven Going Encouraged Upon Wall Street Thursday

NEW YORK, July 11—(AP)—The stock market again encountered rough and uneven going today and price trends were highly confusing. The bulls once more concentrated their efforts on the utilities. Hitting the Associated Press price index of 20 of this group into virgin high levels, while profit taking and bear pressure depressed many of the important industrials and rails.

Unrelenting firmness in call money at 9 per cent, despite persistent indications of better credit conditions, together with what proved to be unwarranted fears of a new high record total of federal reserve brokers loans, provided a background for further bearish operations, and in a measure unsettled confidence. Also, the feeling persisted that corrective readjustments were still in order, after the sharp advances of recent weeks.

There was practically nothing in the day's industrial news to influence the trend of the market. The renewed buying of utilities appeared to be based on the belief that the technical position of the group had been improved by the selling of the past week. The index of 20 utilities reached new high ground for the first time since June 29 when the culmination of several weeks of sharp advances was reached.

Brooklyn Union gas was sent up 14 points to a record price, and such issues as American Water Works, American Telephone and Light, International Hydro Electric, Columbia Gas, and Philadelphia Co., rose 2 to 3 points to new peak prices.

American Can, American Rolling Mill, Cuyamel Fruit, Granite City Steel, Remington Rand, Youngstown sheet and tube, and Matheron alkali rose about 2 to 7 points to new tops, although all gains were not maintained.

Land Steel products, peaking about 15 points to a record price, reflecting rumors of recapitalization plans and new contracts with automobile manufacturers, and purity bakeries was sent up over 13 points to a new high. A few of the rails were strong, Chesapeake and Ohio mounting about 8 points to a new top at 252, and Allegheny Corp., breaking into new high territory. Others, however, were under pressure, Norfolk and Western and Union Pacific selling off 4 and 5 points at one time, although rallying at the close.

Radio was again depressed, dropping about 2 points to a new low for the movement at 76 1/8. After early heaviness, however, General Electric recovered and closed firm. Case threshing, after selling up 8 points, fell back 16 from the top, and Auburn auto turned a 9 point gain in the morning into a 3 point loss at the close.

Atlantic Refining, which has been steadily advancing of late, fell back 3 points. Late Chalmers, Barringer, adding machine, Dupont, Johns-Manville, Cutler Hammer, and Snider Packing Preferred, lost about 3 to 8 points, the last two in resisting on their recent sharp advances. Coppers generally sagged a couple of points, and motors were soft.

### CAROL'S PLOT FAILS TO EXCITE AMERICA

BUCHAREST, Rumania, July 11—(AP)—Despite the discovery that the exiled Prince Carol was involved in a plot by military conspirators against the present regime and the continuance of arrests for complicity in that plot, official Rumania today went unruffled on its way.

Absolute quiet reigned in the capital and the only indication of apprehension was the fact that Premier Iuliu Maniu sent a messenger to Eled, Jugoslavia, requesting Queen Marie to shorten her visit with her daughter, the queen of Jugoslavia, who recently became the mother of a son.

M. Maniu scored a personal triumph over the political opposition in the chamber of deputies this afternoon when that body voted to receive the administration reform bill. The opposition now is expected to carry out a threat of quitting the chamber when the bill comes up for debate, in that case efforts of the regency to harmonize the government and the opposition will be registered as a failure.

Vinica Brattianu, former premier, told the Associated Press tonight that the Liberal party bloc was not in any way involved in the plot to overthrow the government, despite the part which J. G. Ducea, ex-foreign minister, was reported to have had in it.

### Oil Fume Blast Causes Tragedy

WILMINGTON, Cal., July 11—(AP)—One workman was blown out of the hold of a dredging barge through the hatch and into the water, and three others were seriously injured today in an explosion of oil fumes ignited by an electric torch. The men were operating a derrick aboard the barge in channel-deepening work at the harbor.

## Steps Taken by Health Official to Prevent New Spinal Meningitis Wave

PORTLAND, Ore., July 11—(AP)—Determined to prevent a recurrence of a cerebro-spinal meningitis epidemic such as occurred in 1918, Dr. Hugh S. Cummins, surgeon-general of the United States public health service, is in attendance at the annual meeting of the American Medical Association, today telegraphed to Secretary of the Treasury Mellon regulations which his service has prepared to be a bulwark against invasion of the United States by the disease.

The regulations covering arrivals from the Orient who might bring in the contagion will become effective in a few days, Dr. Cummins says. With Dr. Cummins here is Dr. L. D. Fricks, director of the sixth district of the public health service with headquarters at Seattle, and he will have personal charge of carrying out the regulations at north Pacific ports.

## MYSTERY ILLNESS TAKES SIX LIVES

SAFFORD, Ariz., July 11—(AP)—Deaths of two more persons, making a total of six, from a mysterious malady were reported tonight from a small lumber camp in the Graham mountains, 35 miles from Safford. The latest victims were William Evans, 45, and an 11 year old boy named Powell. Evans' four year old daughter died earlier in the day, while three boys succumbed previously.

The organization will be known as the Western States Aeronautics association, the governor of each state being empowered to appoint one or more representatives to the association, though each state will have but one vote.

John Green, 16, Grover Siebold, 16, and Ralph Kirby, 11, were the first victims of the unsolved illness, the nature of which has baffled every physician available here and in the Graham mountain section.

It was the first organization of its kind in the country and gave rise to predictions on the floor that other sections would follow the lead.

## ELEVEN STATES IN HUGE ORGANIZATION

BOISE, Idaho, July 11—(AP)—An organization of 11 western states was formed here today to work for uniformity in legislation affecting aeronautics, as well as to unite generally in development of the industry.

## 18th Amendment Here to Stay in Texan's Opinion

SEATTLE, July 11—(AP)—The eighteenth amendment is here to stay, United States Senator Morris Sheppard of Texas said here today, adding that any changes in the Volstead act to provide light wines and beer would be unconstitutional in his opinion.

## IT ALWAYS PAYS TO TRADE AT IRISH'S ON THE SQUARE

Each manager and employee of Irish's Cash Stores is trained to be absolutely "ON THE SQUARE" to see that you get one hundred cents value for every dollar in good merchandise at the lowest cash prices, quality considered. You'll like to trade with "OREGON'S OWN CASH STORES."
