

DETROIT NEXT MEETING CITY

Doctors Elect Washington Man President at Portland Convention

PORTLAND, Ore., July 12.—(AP)—Dr. William Gerry Morgan, of Washington, D. C., was unanimously named president-elect of the American Medical Association here Thursday afternoon. His name was placed in nomination by Dr. H. C. MacAtee, of the national capital, and was seconded by half a dozen shouts from all parts of the gathering. Dr. Olin West, the association secretary, cast an unanimous vote for Dr. Morgan, who two years ago lost in a contest for the same office to Dr. William S. Thayer, of Baltimore, the retiring president.

Detroit, Michigan, was selected for the next meeting place of the association after three previous ballots had been taken. Memphis, Atlantic City and Philadelphia were the other contenders. Speeches demanded of New President

Election of officers by the house of delegates was interrupted soon after Dr. Morgan's selection by insistent demands that he mount the platform and say a few words. In responding Dr. Morgan expressed appreciation of the honor accorded him, and then declared that the outcry against the alleged high cost of medical care, which had been voiced in and out of the gathering, came not so much from persons in moderate means, who paid their bills, but from the "idle rich." He added that:

"Certainly it may be said that the individual fees received by physicians cannot account for the complaints against us. It may be that the true difficulty lies in the elaborate and expensive diagnostic procedures which the public has come to demand, as well as the luxurious nursing provisions which have come to be regarded as essential. It was not the average patient of modern circumstances who first insisted upon these reforms."

Portland Man Is Made Vice-President

Dr. Ernest A. Sommer, of Portland, who had been general chairman in charge of the congress here, was elected vice-president, without opposition. Dr. Olin West, of Chicago, was continued as secretary of the association, no opposing candidate being named. He Kykendall of Eugene, Ore. Dr. was nominated by the William F. C. Ward of Grand Rapids, Michigan, was re-elected speaker of the house of delegates, the governing body of the association; and Dr. Wm. Austin A. Hayden, Chicago, was re-named treasurer.

Dr. A. E. Bulson, Indianapolis, was elected vice-speaker of the house of delegates. Dr. D. Chester Brown, Danbury, Conn., was re-elected to the board of trustees. In addition to the election, Dr. L. M. Harris, new president, announced these appointments:

Dr. L. H. McKimble, Colorado Springs, consular of the scientific assembly; Dr. J. B. Herrick, Chicago, member of the judicial council (re-appointed); Dr. M. W. Ireland, U. S. A., council on medical education and hospitals (re-appointed).

As an aftermath to a declaration some days ago by Dr. Clarence True Wilson, of the Methodist church board of temperance and public morals, that Dr. Morgan, the newly named president-elect, had been defeated as a "dry" at the Baltimore meeting by "wet supporters" of Dr. Thayer, Dr. Morgan tonight issued this statement:

"While many physicians will not prescribe alcohol, I believe that if they desire so to do, they should have the right to do it."

Outside of the election, today's

seasons were taken up largely with section meetings. New officers and guests at a reception tonight.

Hen Has No Toenails or Wings, Said

OMAHA, Neb., July 12.—(AP)—The modern trend toward increased production has hit the egg industry. With it has come a new type chicken—without wings or toenails.

R. T. Renwald, Omaha poultry fancier, announced today that after five years experimentation he has succeeded in producing a brood of such chickens. The Normal hen, said Dr. Renwald, are bothered each year with the moulting of their wing feathers; during this period, egg production falls off. The new type hen, having no wings, can keep right on laying the year round, producing on the average Dr. Renwald hopes, 300 eggs per year.

In addition, the new chicken will be easier to keep in a yard since she can't fly or scratch. An 18 inch fence will do.

NEW PRAYER BOOK MAY BE UTILIZED

LONDON, July 12.—(AP)—The convocations of Canterbury and York today approved by large majorities the resolution of the Archbishop of Canterbury permitting the use of the Church of England revised prayer book where congregations give their consent through their councils. The vote in the upper house of the convocation of Canterbury was 23 to 4 and in the lower house 96 to 54. The upper house of the convocation of New York approved the resolution without opposition, though one bishop abstained from voting. The lower house also approved the resolution.

This decision, although fully expected, has brought about an anomalous position where the state church virtually has flouted the decision of parliament, which rejected the revised prayer book. The actual situation is that the bishops having asked parliament consent to use the prayer book last year and having been refused, now proceed to use it without paying attention to the parliamentary refusal.

Mrs. Fulkerson Preparing 1929 County Report

Preparation of the annual report required by law of every county school superintendent in the state is under way in the office of Mrs. Mary Fulkerson, superintendent for Marion county. Completion of the report will await the audit of the reports of all the district clerks in the school districts of the county, an audit which started here more than a week ago. Mrs. Fulkerson will complete her report in August.

FIVE KILLED IN WRECKED TRAIN

Passenger's Injuries Said to be Fatal; Blaze Follows Collision

CORNING, N. Y., July 12.—(AP)—Trapped in blazing wreckage, four Erie trainmen and a tramp stealing a ride were burned to death and a passenger was probably fatally injured today in a collision three miles east of here between the Cleveland-New York express and a westbound freight train.

The man reported dying in Corning hospital was said to have been a passenger in the only coach to leave the rails. According to F. F. Peters, of Hornell, a member of the freight train crew, who was riding in the locomotive, he looked out of the cab to the rear and saw the first car in the freight start to leave the tracks.

"It was a tank car loaded with gasoline," said Peters, "and I was horrified to see the express rushing toward us on the other track. I jumped off but not in time to flag the passenger train, which struck the tank car at a fifty mile an hour speed and toppled over on its side."

Ignited by coals from the derailed locomotive, the gasoline drenched wreckage blazed fiercely and gave the twenty men, women and children in the first passenger coach barely time to break open the jammed doors and escape. The locomotive, baggage car and two mail cars were the only cars in the express to leave the track. The engineer and fireman were burned to death in the cab and the two mail clerks could not be extricated before the flames reached the wreckage of their cars.

Early arrivals on the scene found the dying tramp under a tree, where he had dragged himself with fatal burns on his body. He expired a few minutes later while smoking a cigarette, his only request.

LABISH RESIDENT VISITS CALIFORNIA

LAKE LABISH, July 11.—Miss Pauline Fulton, of Lake Labish, is spending a few weeks in California. Miss Fulton has made her home here for several years with her relatives, the L. K. Page family. Miss Fulton will be the guest of the Forest Fulton's during her stay in California.

William Ector, well known Marion county boy, and ex-service man, is the guest of relatives in Charleston, South Carolina. A fine crop of hay, is being rapidly taken care of here, and the fields of fall-sown grain are turning a golden yellow with ripeness.
