Heavier Auto Second Best In Collision

ZENA, July 15.—(Special)—The big car sometimes gets the worst of it, even in a head-on collision. John Walling of Lincoln, driving a "fifiver," had to turn out suddenly to dodge a car which had stopped without warning on the Marion-Polk county bridge; as he did so, a heavy car came from the opposite direction. This machine, driven by Bob Anthony of Salem, collided with Walling's, with the result that the engine and radiator were driven back off their bases. Walling's car escaped serious damage.

WHITE HOUSE PET IS TEAM'S MASCOT

WASHINGTON, July 15.—(AP)—Continuation of his high school mascot career seems to be assured for Billy Possum, the White House pet.

President Hoover has gone on record to that effect. The opossum strayed onto the White House grounds several months ago, was captured and housed in the pen which was the home of Rebecca, the raccoon pet of Mr. and Mrs. Calvin Coolidge.

At the same time the Haytville high school baseball team lost its opossum mascot and called at the White House to see if Billy was the same animal.

Finding it was not, the boys asked permission to take Billy back to Hyattsville to fill the place of their own vanished pet. Permission was given and the team has a successful season.

Billy Possum later returned to the White House and the boys of the high school, wrote President Hoover a letter thanking him for lending them the opossum, and expressing the hope that it would bring Mr. Hoover "a full measure of good luck," and that with the president's permission the high school might again be honored by Billy Possum's "effective leadership" in our athletic program next fall.

"I am glad to have your formal report on the efficiency of Billy Possum—it will be incorporated into his service record. Precautions will be taken to maintain his health and spirits for the further needs of the Prince George's county high school teams."

Call Money Flurry Causes Much Profit Taking on Wall Street

NEW YORK, July 15.—(AP)—Another flurry in call money coming at a time when more stable credit conditions had been widely expected, prompted heavy profit taking in the industrials and utilities in today's stock market, but the bull movement in rails was pushed onward with unabated enthusiasm.

American Telephone & Telegraph Convertible 4 1/2s again were under accumulation, getting up to a new peak at 172 3/4 and closing at 171 3/4 for a net gain 2 1/4 on a turnover of \$1,883,000 par value. International Telephone Convertible 4 1/2s yielded 2 1/2 to profit-takers. A new peak was scaled by Remington 5 1/2s at 97 1/4 on an advance of 1 1/2. Chairman James H. Rand, Jr., announced the company was going to retire its second preferred stock. Sinking fund requirements on the bonds for three years, he said, were in the treasury.

In the foreign list the 5s of Krueger & Toll, which controls the Swedish match trust, crossed 100 for the first time this year, but closed at 99 5/8 for a fractional gain.

A spectacular rise in wheat futures, carrying prices more than 7 cents, a bushel over the low prices of last year, was an important development of the day, and helped to steady the market before the close. Several favorable second quarter earnings statements appeared, including Chesapeake Corp., By Products Coke, S. S. Kresge, and Independent Oil and Gas.

The Associated Press price index of 20 leading rails was elevated about 3 points further into record high territory. Such issues as New York Central, Atchafon, Atlantic Coast Line, Delaware and Hudson, Union Pacific and Reading sold up to 5 to 8 points to new peaks. Chesapeake and Ohio led the advance with a gain of more than 113 points, selling at the unprecedented figure of 275 1/2. Pennsylvania sold at 97 1/2, the highest on record, and New Haven reached a new top at 115. Allegheny Corp. stocks again touched record prices in response to the company's first earnings statement, covering the period from organization Feb. 15 to June 30.

There were a few strong spots among the industrials and specialties, International Business Machines selling up nearly 13 points to a record price, and Underwood sold up to a new peak of 115. American International, Fleischmann, By Products Coke, General Asphalt, Continental Insurance and Hathieson Alkali also recorded new peaks.

And then there arrived a cablegram from Major Kubala, addressed to the Polish committee in New York in which it was announced that Idzikowski was critically injured, but was not dead. A notation of time on the cablegram was taken by the committee to be the time the cable was sent from the Azores, an assumption leading to the belief that it had been despatched hours after news reports had said Major Idzikowski was dead and buried.

HOPE RISES BUT QUICKLY FADES FOR POLISH OCEAN FLYER; AIRPLANE CRASHES

NEW YORK, July 15.—(AP)—Brief hope came today that Major Ludwik Idzikowski, Polish ocean flyer, had not been killed in the crash of his plane in the Azores, but that hope was quickly dashed except in the hearts of a few staunch supporters who refused to accept the overwhelming evidence.

News dispatches had told of the crash of the plane Marshal Pilsudski with the death of Idzikowski, and the escape with injuries of his companion, Maor Casimir Kubala. The flag on the Polish consulate was lowered to half staff.

HOPE RISES BUT QUICKLY FADES FOR POLISH OCEAN FLYER; AIRPLANE CRASHES

MONTGOMERY, Ala., July 15.—(AP)—City authorities tonight were making a final check up in an endeavor to demand definitely whether any of the 75 employees of two Montgomery mercantile establishments which suddenly collapsed shortly after noon today, or any laborers working in an excavation adjoining the structures, might yet be pinned under the debris and wreckage.

With employees of the city engineering department still working desperately at nightfall to clear away the tangled masonry and timbers, leaders of the rescue work stated that so far as they knew, only three persons were injured. They were George De-gruchy, manager of the Plitt department store, and two of his negro employees. The latter were not expected to live.

Collapsing with little warning, the two upper stories of the three story Plitt building crumbled over into the excavation on one side and onto the roof of a one-story shoe store, on the other. Employees of the stores made their way through the falling materials after a first crash had trapped some of them in the rear of the buildings and on the second floor of the department store.

Police, firemen and pedestrians manager to free practically every employee before a second crash occurred. Fire Chief Chester Ingram and seven firemen were trapped on the second floor of the department building and escaped injury by flattening themselves against a portion of the rear wall of the building.
