# Central Howell Men Join In Fighting Fire in Field

CENTRAL HOWELL, Aug. 20.—While A. E. Kuezi with a crew of men was baling straw Monday from a stack on the R. C. Ramaden place a fire was started from the exhaust of the tractor. Eugene Kuezi was burned quite severely while trying to get the tractor and baler away from the fire, but so suddenly and fiercely the fire burned that it was impossible to move the baling equipment until the fire died down. There was a pile of sacked grain just north of the burning straw and another grain pile beside a second straw stack near the barn. The strong wind from the north-west drove the fire rapidly toward the second straw stack and pile of sacked grain. A small army of men gathered quickly from all directions. Farmers left their work; the crew from the H. L. Lichty threshing machine came; passersby on the main road drove in and all joined in fighting the fire. A team of horses was hurriedly hitched to a plow and a furrow plowed in front of the fire but this did not stop it so a second furrow was made while the men fought with wet sacks running from one sack pile to the other and trying to keep the fire from the buildings. The Silverton fire department was called and arrived in time to relieve the men. The fire burned a wide swath a quarter of a mile long nearly to the main road before it was stopped. No grain was burned although all the baled straw in the pile was destroyed. The tractor was not damaged materially. All of the burned parts of the baler were burned. Mr. Kuezi plans to replace these parts and resume work as soon as possible.

# Gervais Man is Injured by Fall From Hay Rack

GERVAIS, August 20.—A. C. Simmons was severely injured Monday morning while hauling hay to his barn. Mr. Simmons fell to the ground when the load of hay he was riding upon tipped over. His left shoulder was injured, the ligaments that hold the bones in place being torn, and because of his age is going to be a hard injury to hold in place while it is healing. He is getting along as well as can be expected. Father Orth and his two altar boys, Johnnie Mutter and George Hauptman have returned home after spending a week at the beach. Elmer Barrett and daughter Eunice Everett left Friday for their home in Boise, Idaho. Mrs. A. B. Minaker and daughter Carol accompanied them as far as Portland. Dorothy Minaker and Mr. Barrett and daughter Eunice returned Thursday from a two weeks stay at the different Oregon beaches. Mr. and Mrs. C. E. # Silverton Reports Grain Good and Hops and Berry Picking in Full Swing

SILVERTON, Aug. 20.—The end of the grain threshing season is in sight in farming communities surrounding Silverton, and thoughts are beginning to turn toward hop and evergreen picking. The picking of early hops began last week and the Silverton Food Products company opened its doors to evergreens. The wheat crop as reported was exceptionally good this season. The average bushels of wheat an acre seems to be better than 45 in the low lands and between 30 and 35 in the surrounding hills. Oscar Dick perhaps holds the record with an average of 72 bushels of wheat an acre from a 4 1/2 acre field. Edwin and William Hatterberg raised 65 bushels an acre from one of their fields and H. H. Kuezi managed 59 bushels an acre from a 12 acre field. As a whole the oat average seems to be a little lower than in some previous years, fifty and less being the general reports. However, C. J. Stuefel averaged 125 bushels of oats an acre from a seven acre field.

# DORAN TO ENLARGE POULTRY BUSINESS

MOUNTAIN VIEW, August 20.—Andrew Doran is having a fine modern poultry house built. The dimensions are 24x70 feet. Chas. Schwartz and William Hacker of Kingwood are doing the carpenter work. The Dorans have experimented in a moderately small way and have found the chicken business profitable, so wish to enlarge the plant. They now have about 400 fowls and plan to increase their flock to 1100 next year. They will have White Leghorns and Rhode Island reds until they determine whether the former are the heavier egg producers.

# GERVAIS COUNCIL FAVORS CONDUIT

GERVAIS, August 20.—A special meeting of the Gervais city council was called Wednesday night and G. M. Harris, representing the Pacific States Telephone company, appeared before the council and asked permission to construct a conduit along the property line between the city and the Southern Pacific railroad, through the center of town. The telephone company is placing all its connecting lines between populous centers north and south in Oregon under ground as a matter of safety and to reduce the cost of upkeep, and the company is seeking rights-of-way along the highways and through the cities. The city council favored the proposition and Mayor Moisan was instructed to have an ordinance drawn to comply with the wishes of the council, to be presented at the next meeting of the council.

# SMALL FARM PAYS WELL

### Subirrigated Land Profitable; Silverton Active During Summer

SILVERTON, Aug. 20.—John Brombowski is making farming pay to the tune of an average of \$200 an acre. His one sad note is that his "farm" is so small. Mr. Brombowski's small piece of land is located near the Silver Falls Timber company mill and it is subirrigated by the seepage from the mill pond. From this "ranch" he has already harvested three tons of beans and expects to harvest a ton and a half more.

# AMITY DRYER WILL HAVE BUSY SEASON

AMITY, Aug. 20.—The W. R. Osborne dryer here will handle a large crop of fruit and nuts this season according to estimates given out by Mr. Osborne. The estimated amounts to be handled by the plant are: Walnuts 250 tons, filberts 25 tons, and prunes about 700 tons. By these figures the magnitude of the plant can be realized and what a large revenue it also means to the community. Silverton, Aug. 20.—By an error it has been printed that the Silverton wading pool proposed for the city park by Major L. C. Eastman, has not received the approval of the city park commission. The reverse is true, the commission having enthusiastically approved the plan for the pool to be erected at a cost of \$250.

# Work Plentiful In Jefferson
