John Phillips Donation Land Claim Found Place Of Interesting History

Mrs. Callin Phillips

Salem's history and historic shrines have been suggested as one of her seven wonders. In this connection one is reminded of the many farms in the vicinity that were taken up as donation land claims and have been handed down through generations with all the love associated with an ancestral estate in the old country.

One of these is the John Phillips donation land claim in at Zena which was the first place taken up in the Spring Valley district. The history of the farm and of the Phillips family is one of the many that makes Oregon history one of the most interesting in the United States.

Taken by Turners The land of the Phillips claim was originally taken up by a white man named Turner. When his Indian wife died he sold his right to the land to John Phillips in 1847.

Phillips had been a cabinet maker in England and when he came to Oregon in 1845 he was asked to complete the work in the Catholic church being built at St. Paul. Joe Watt had taken the contract for the work but was unable to finish it. Phillips had the tools brought with him from England and was able to do the work.

His wife, Elizabeth Hibbard Phillips, made all the candles for use in the church. A mold making 12 candles at a time was used. Two children of the family came west. Sarah Ann and John E. were born in St. Louis before the family came west. The next child Elizabeth Jane was born on the farm here.

The other children who were born here were George W. Mary, Charles, Martha Church, Amelia, Samuel, Hannah and Francis Cornelia. Two of these survive, Hannah, now Mrs. H. Barker, who lives on the same place and Mrs. J. C. Klueckner of Portland.

240 Acres in Farm The farm now consists of 240 acres and is farmed by S. H. Barker and his son, Roy E. Barker. Mrs. S. H. Barker was born in
