

# ALL HOLY LAND SCENE OF WAR

### More Than 30 Jews and 17 Arabs are Killed in Jerusalem

(Continued from Page 1.)  
be sent to Palestine. British military authorities who are indirectly responsible for order in the country under the mandate of the League of Nations have taken active steps to restore quiet.

At Malta a 31,000-ton battleship the Barham, the aircraft carrier Courageous and the cruiser Sussex were stated to be under orders to sail for Jaffa, the port of Jerusalem. British troops are being rushed by airplanes. In Cairo a giant British troop carrying plane taking off for an army camp to pick up 25 soldiers for duty in Palestine crashed, killing three of its crew of seven and badly injuring the other four.

Centering on the ancient remnant of sacred Solomon's temple which is known as the Wailing Wall, sacred shrine to Jews all over the world, trouble started in Jerusalem at noon yesterday. Crowds of armed Arabs attacked the Jews, who formed themselves into defense units.

Rioting spread and soon got beyond control. Hospitals were crowded with the injured. Authorities who proclaimed martial law and barred the populace from the streets after 6 p. m., tonight said the city was comparatively quiet although clashes occurred in the environs.

Twelve were killed and 110 injured in the first phase of the fighting. Armored cars were used by the police in dashes through the streets in unsuccessful efforts to restore calm.

Establishment of martial law carried with it censorship of all news from the disturbed area.

Arab bands attacked the Jewish village of Motza near Jerusalem, this afternoon, killing six persons. Rioting started again in Jerusalem later in the day and three more Arabs were reported killed.

Fifty British soldiers arrived by air from Egypt to reinforce British police and troops. A British battalion was enroute tonight from Egypt to Palestine by rail.

Repeated trouble over the Wailing Wall has occurred in recent years, but nothing on such a scale as the present rioting. The shrine itself is the last remaining fragment of the temple built 3,000 years ago. It is situated close to the Moslem shrine of the Mosque of Omar and around these two symbols of ancient religious deadly rioting rages. At the Wailing Wall Jewish pilgrims gathered three days a week to pray and mourn.

Arabs own the ground upon which the wall is built but they do not deny Jews the right to worship there. A part of the Jewish ritual calls for a screen to separate the sexes. Arabs maintain this blocks the right-of-way and the controversy results in trouble.

# HUGE AIR LINER IS APPROACHING U. S.

(Continued from Page 1.)  
the night, drenched with the rain, the great vessel of the air bore its 19 passengers and crew of 41 safely on toward their goal, the achievement of an epochal flight in the world's history.

Only occasionally did the great craft's veteran commander, Dr. Hugo Eckener, think it necessary to give her position, for she had ploughed the skies at the rate of 57 miles an hour average since she left Japan's soil. At 2 p. m. E. S. T. the Graf Zeppelin's position was given as 44 degrees, 20 minutes north latitude, and 174 degrees, 20 minutes west longitude. She was even then 2,488 miles on her way to Los Angeles, with 2,982 miles to go.

The United States government stretched a welcoming hand over the seas to draw the Graf Zeppelin safely to America's shores. The weather bureau gathered its reports and radioed them to the commander, Dr. Eckener to guide him in dodging adverse winds, and developing storms. All American ships of war were ordered to stand by to aid should the Graf Zeppelin falter in flight.

Commercial shipping was mustered into the service of the dirigible, too, to give reports of position and to be ready for emergency. On the mainland, civic communities prepared to do honor to the visitor, Seattle still hoped to be the first to welcome her, despite the advice of the weather bureau to Eckener to avoid reaching the coast at that northern latitude, because of meteorological disturbances. At Tacoma, preparations were made to use a mooring mast, should emergency speed the dirigible there.

But Los Angeles, confidently awaiting the airship's arrival, went forward with plans to claim the conclusion of the Pacific flight, and later to speed the Graf Zeppelin on to Lakehurst, N. J., the start and finish of her flight around the world.

not to accept further sacrifice by Germany.

The British theory is that the other creditor powers obtained in the Young plan under advantages from which the British suffered, Mr. Snowden wants those powers, probably France and Italy, to put things right by abandoning to British what he claims they took away in the Paris conference of experts.

An immediate consequence of the intervention by the chancellor was postponement until next week of a meeting of the six powers that organized the conference which had been set for this afternoon.

The chancellor suggested that it was useless for them to meet again until the creditor powers had put on paper what they proposed to offer.

# MANY MEN HIRED AT LOCAL OFFICE

Lots of Work Now  
There will be plenty of work for many hundreds of more people from now on, in the canneries, etc., and next week many thousands in the hop yards, when the picking of the late hops will begin.

With the picking of fuggles hops, and the late hops coming on, the streets of Independence were last night about as crowded as those of Salem, which is saying a good deal.

The Woodburn cannery is so busy with evergreen blackberries, and pear canning coming on, that it has a labor problem, in getting enough help for the coming weeks, which will be especially busy with an unusually large and long season on pears, prunes, vegetables and apples. The operation of its big cannery is helping to make Woodburn a lively city.

# MARCO 'IDEAS' HELD COLORFUL

### Love School Found Hilariously Funny But Not Enlightening

By OLIVE M. DOAK  
The Elsinore is again presenting Fanchon and Marco Ideas to Salem theatre goers. Whatever one may say of Fanchon and Marco productions one would never say that they lacked in "ideas." They have been prolific and colorful without fail.

The one which is being presented this weekend is misleading in its name "The Love School" Idea. What one learns about love is nil—go with that idea in mind—what one does get is one laugh after another. Renie Riano, with her antic dancing, foolish gestures, and wise cracks presents very fine comedy that does not drag. Dave Good, dapper Frenchman and master of ceremonies who Renie says makes her think of a Chevrolet with a mustache, keeps the show moving smoothly, and Charles "The" Carpenter, 25, this will require the university to raise about \$200,000 in cash. There are pledges which total this amount, but many of them are deferred payment pledges.
