

FRENCH PATROL JEWISH AREAS

Authorities Pursue Arabs to Abandon Plans For Demonstration

BEIRUT, Syria, Aug. 28.—(AP)—French troops are permanently stationed on patrol inside the Jewish quarter here to protect the lives and property of its inhabitants from possible Arab attack, although no further demonstrations have occurred since the orderly Arab procession today.

The parade was only a small one to escort the Moslem leaders to the government house to discuss their plans for a great demonstration similar to the parade of 20,000 Arabs yesterday. French authorities persuaded them to abandon the idea.

The Moslems had previously assured representative Jews that the demonstration was merely intended to protect against the Zion extremists in Palestine.

The French authorities in Syria feel that the questions involved in the Arab-Jewish troubles in Palestine are quite remote from those which made eastern Syria, the Hauran mountains, the Djebel Druzes and gardens of Damascus the scenes of bitter fighting and bloodshed in 1925 and 1926.

It is only since 1927 that barbed wire entanglements, sand bags and stone barricades have been removed from the very streets of Damascus before the gates on the Grand serial. And the French are sparing no effort to prevent being obliged to retreat all the way.

Reports from Palestine said that British troops had the situation well in hand in all urban districts. Quiet continued in the cities.

News from Trans-Jordan and the valley of Esraclon, however, was more disturbing. Travelers brought word of agitation and unrest among the Arabs there.

CONDEMNATION SUIT ENDED AT HOQUIAM

(Continued from Page 1.)

the water provided local consumers was under criticism, petitions were being circulated asking the city council to begin negotiations toward that end, but the petitions have never been presented to the council, and no report has been made of the number of signatures obtained.

Several months ago the council called upon the company to show cause why its franchise should not be revoked, and members of the council's special water committee intimated that in case this was done, the city might proceed with plans to operate its own water system. This tentative program was sidetracked when the company presented evidence that it was planning to improve the quality of water supplied.

HOLY WAR NOW HELD ON WANE

British Forces Begin to Gain Control of Situation in Palestine

(Continued from Page 1.)

In Jerusalem were presented to Prime Minister Ramsay MacDonald by Kasim Huseini, president of the Arab executive in Jerusalem.

Attacks Still Made In Isolated Sections

The Canadian press correspondent in Jerusalem reported that despite official assurances that the situation is under control, there were minglings because isolated colonies still were being attacked and because of unrest in Trans-Jordan, Syria, and Ibn Saud's desert territory.

The actual participants in the recent attacks appear to have been peasants, educated Arabs having little to do with the outbreak.

The Paris newspaper *Oeuvre* states Arab leaders in Palestine have lost control of their people, due to feeling against "Jewish fascist" units.

The Berlin *Tageblatt* reported widespread disorders in Trans-Jordan, but foreign office circles accepted the news with reserve. It is stated no fears are entertained for the safety of German citizens.

JERUSALEM, Aug. 28.—(AP)—The strong hand of the British military today maintained order in Jerusalem and to a large extent in southern Palestine. While there was no serious renewal of the conflict between Arabs and Jews anywhere in the country, conditions in the north were more unsettled.

Both Arabs and Jews are being disarmed.

The British soldiers and marines who were rushed here when the situation became serious were distributed to most of the centers of population where to promote peace they are disarming both Arabs and Jews. Their chief task is running down bands of irregulars in the country districts.

Marco Signs 16 Beauties For Circuit

Every city is known for its various personalities.

Salem has its famous state fair; Portland its great annual Rose Festival.

However, San Francisco has a very exclusive listing.

The reason being that the internationally famous Hirsch-Arnold Ballet School is located in that city. This academy is considered as having the pick of dance instructors of the country, and as a result ambitious girls anxious to take up theatrical or ballet work crave this school.

Fanchon and Marco, who produce their stage "ideas" over the vast Fox chain of theatres, have signed 16 of the famous Hirsch-Arnold girls—all of which are past masters in the art of dance.

They are coming to the Elsinore, for a three-day engagement, commencing Saturday in Fanchon and Marco's "Dance Mood Idea."

CLVELAND, Aug. 28.—(AP)—Presenting the time when the dirigible may become the battleship of the air, armed with fighting planes to guard it from attackers, the first public demonstration of an airplane attaching itself to the dirigible Los Angeles was witnessed by 100,000 persons at the national air races here today.

During the maneuvers, a passenger was transferred from a dirigible to an airplane for the first time in history. The plane remained with the Los Angeles for about 15 minutes, then was released and landed with its passenger on the airport.

The huge navy dirigible was cruising slowly 1,500 feet above the municipal airport when the contact was made by Lieut. A. W. Gorton, of the navy, flying an observation plane.

Three times Lieutenant Gorton attempted to make the contact but failed. The fourth time he placed the hook on the upper wing of his plane, and the dirigible came to a stop.

While Gorton was hanging below the huge Los Angeles, the motor of his plane turning over slowly, a member of the Los Angeles crew, Lieutenant Calvin Bolster of Ravenna, Ohio, came down the ladder through the trap door and got into the plane. After cruising about in view of the great airport crowd, the Los Angeles headed into the wind and Gorton broke the contact. He dived the plane sharply to gain speed and then flew in for a landing in front of the grandstands.

ZEPPELIN WILL END HOP TODAY

Huge Airship Scheduled to Reach Lakehurst Hangar this Morning

(Continued from Page 1.)

And an extra flash across the sky was added, apparently a tribute in honor across the seas fashion from the tactician Eckener to three quarters of a million German descendants in Chicago.

Each time the epoch-making craft snaked across the loop another din arose from crowds in the streets as all eyes centered upon the trim ship, now within a day's sailing time of a new round the world record.

It was the veteran Eckener's second visit to Chicago for he was feted upon the occasion of his visit here following his first trans-Atlantic flight to Lake Hurst.

At Soldier Field today thousands sat in the stands and exhausted every accepted method of making noise as the ship sailed overhead.

Getting her bearings, the dirigible passed over the square again heading southwest toward Municipal airport, 11 miles away, to visit the thousands who had impatiently awaited her arrival.

The Graf appeared over the airport at 11:20 p. m., climbing from an altitude of about 200 feet. Passing directly over the navy dirigible Los Angeles, ordered to mast, the big ship saluted the cheering thousands in the grand stand and passed into the night in a southeast direction, toward Akron. The crowd was estimated at 60,000 persons.

As the ship passed over the square one of the big lights began to blink messages to the ship in continental code. They read: "Welcome to Cleveland, Dr. Eckener," and "The people of Cleveland deeply appreciate the courtesy of your visit to our city, and the privilege of seeing your famous ship."

Crowds on the down town streets cheered wildly as dirigibles sped above them after approaching from the west. The dirigible apparently struck the Ohio shore line of Lake Erie near the city, flying first over Lake-wood. Its route apparently had been directly across the lake from Ontario to Cleveland.

DETROIT, Aug. 28.—(AP)—The world circling Zeppelin was a visitor over the city today, reaching the center of the business district at 9:40 p. m. (EST). The trip from Chicago to Detroit, a distance of 250 miles was made in about four hours or a speed of about 60 miles an hour. She passed over Windsor, Ont., and headed southeasterly toward Cleveland.

IMPOSING ARRAY OF AIR VESSELS SEEN

One of the most interesting events was a demonstration of the auto-gyro airplane by Juan de la Cierva, a Spaniard, its inventor.

De la Cierva took the auto-gyro into air before the grandstand as easily as any other plane.

With its big windmill-like, horizontal propeller revolving on top, de la Cierva ascended high and then turned off the motor. The auto gyro sank to the ground, upright and landed gently and safely.

SEATTLE, Aug. 28.—(AP)—A survey in Oregon and Washington has shown widespread sale of medicated wines and tonics for beverage purposes, William M. Whitney, assistant prohibition administrator for the northwest district reported to national headquarters today. His report was to be part of a nationwide investigation.

He declared the sale of wine tonics, containing from 28 to 40 per cent alcohol, was violation of Oregon, Washington and Alaska statutes. His report failed to carry recommendations.

CHICAGO, Aug. 28.—(AP)—The Graf Zeppelin slid into view of thousands perched atop all the city's vantage points at 4:25 p. m., central standard time, and apparently all was well above the phantom of the skyways.

Variable winds of the cross and head wind type were subsiding as Dr. Eckener nosed the giant transport across the city and headed east toward Cleveland, Lakehurst and a record for circumnavigating the globe.

Majestic in its dogged holding to a straight course which took the huge ship diagonally across Chicago's loop the Graf circled, then headed east once more.

Its complement of passengers and crew were acknowledged of the huge roar which shot upward from the roofs of 100 buildings. The roar increased as the ship headed out over the lake heading for the time slightly southeast. Chicagoans thronged the roofs, streets, fire escapes and windows and exhibited a carnivalesque spirit which filled streets with tape and paper.

Hardly had the din subsided until Dr. Eckener brought his ship about in a gallant gesture of salute to Chicago and her millions.

Throttled down, but still appearing to be racing to the hundreds of thousands in the streets, the power plants of the huge ship continued strumming of their aerial symphony, pushing the craft ever forward in straight, fact like streams across a murky sky.

GERMANS BALK AT NEW PLANS

New Arrangement Declared Unsatisfactory Despite Conferences

(Continued from Page 1.)

ment would be reached in time. Almost all of the leaders of the delegations had made arrangements to leave The Hague today or tomorrow.

Premier Aristide Briand of France and Foreign secretary Arthur Henderson of Great Britain planned to return tonight to their respective capitals.

Mr. Smeets says he wants value returned. Foreign Minister Gustav Stresemann of Germany yesterday said he was willing to cooperate but that if Germany gives up anything it must get something in exchange.

He had been asked to contribute a considerable slice of the benefit that Germany would obtain from the overlapping of the Dawes and Young plans. The former, with its larger scale of payments, would not expire until Sept. 1, where the experts in Paris agreed to apply the Young scale as of last April.

The German stand, if persisted in, would of course throw out the entire agreement between the creditor powers, which Tuesday night appeared as the chief fruit of three weeks of strenuous meetings. The problem of distribution of the reparations annuities would then have to be tackled all over again.

On the other hand, if agreement is reached later today, on the main points, the details will undoubtedly be left in the hands of committees of experts who will report either to the governments or to a reconvened conference in September or October.

Recent claims totaling \$131,570 have been paid to holders of Oregon Statesman, North American Accident Insurance Co. policies.

PHYLIS HAVER IS STAR OF NEW FILM

PHYLIS HAVER takes to talking pictures like a duckling to a puddle. The proof is to be seen at Bligh's Capitol Theatre where her new talking picture "The Office Scandal" is the current attraction.

Miss Haver has a perfect "talkie" voice and she plays a "sob sister" in this newspaper murder mystery story and while the entire picture is not in dialogue, the tremendous climax, synchronized with voices, gives the blonde star one of the finest opportunities of her screen career.

With Margaret Livingston, Raymond Hutton and Leslie Fenton, Miss Haver plays a scene in which the murderer is revealed so powerfully that it will remain in your memory for days.

As the girl newspaper reporter Miss Haver essays a role that is unlike anything she has thus far done on the screen. It is as colorful as her in "What Price Glory" and as hectic as Rozia Hart in "Chicago." Raymond Hutton, Leslie Fenton and Margaret Livingston share honors with the star.

As an added attraction the Capitol will present on this same bill a Mack-Sennett all-talking comedy, and a number of Vitaphone vaudeville presentations, as well as the Fox Movietone which is always a feature at the Capitol.

LAD SHOTS FATHER IN FAMILY QUARREL

PENDLETON, Ore., Aug. 28.—(AP)—Pending an investigation of his father's death, Glenn Moore, 14, was held in the city jail here today after telling deputy sheriffs that "his shot him because he was drunk and beat my mother."

Heald Moore, eastern Oregon rancher, died soon after the boy was said to have fired the contents of two buckshot shells into his body last night. The shooting was said to have occurred on the Moore-Jordan ranch south of Hermiston.

That Glenn might have been inspired to the shooting by accounts of a similar murder in Los Angeles recently was indicated by deputy sheriffs, who quoted Mrs. Moore as having said that Glenn read the accounts to her from a newspaper.

Mrs. Bogynski Passes Tuesday 71 Years of Age

Mrs. Margaret Bogynski, mother of Mrs. C. E. Kimer, Mrs. Grete Cox and D. A. Larmer, all of Salem, died at a local hospital Tuesday afternoon after an illness stretching over a period of years. She was 71 years of age. Mrs. Bogynski had lived in Salem the past three years, prior to which she had lived for 35 years in Dallas. No funeral arrangement have been made. Remains are in care of the Clough-Huston mortuary.

Besides the son and daughters living here, the following children survive: William and John Bogynski of Oregon City and Henry and Jake Bogynski of California.

Illiteracy in Syria is estimated at 80 per cent.

Loganberry Men Hold Session at Hall in Liberty

There was a well attended meeting at the hall at Liberty night, called by the Loganberry growers of that section. There was a representative of the O. S. C. present. The object of the meeting was to organize a cooperative marketing association. A number of growers had consented to pool their crops, and more signed up last evening.

Frank Krubetz, John Fabry and Rollin Jery, and two others, were named as a committee of fire, to continue the organizing work, and to call a second meeting, which will be held in Salem.

Pratum - Macley Road Work Pushed

Doubling of crews at work on the Pratum-Macley market road was announced by Roadmaster Frank Johnson Wednesday. One mile of three to be built this summer has already been finished and the work is to be hurried to completion.

L. M. Cleave moved his crew from the Silverton district Wednesday to go to work on the Pratum road. He will work with the crew managed by W. W. Westinghouse who has already been at work.

Murder Laid to Youthful Spouse

LOS ANGELES, Aug. 28.—(AP)—Mrs. Josephine Valette, 19, went to trial today on charges of murder growing out of the death of her 3 months old child in a blaze which consumed the baby's carriage. The state alleged the woman deliberately fired the crib to spite her husband.

Mrs. Valette pleaded not guilty by reason of insanity. Selection of a jury progressed slowly, several veniremen being excused by the state for objection to the death penalty.

MORE CREDIT GIVEN BY U. S. FARM BODY

(Continued from Page 1.)

board will be junior and subordinate to the lien of the federal intermediate credit bank received as security for its loan.

"Further, if grain received by a given cooperative has been hedged through a sale of future delivery at a definite price, the federal farm board will make an advance, bringing the total loan up to 90 per cent of the sale price of the grain. The board will also make a similar advance in cases where grain has not been sold through an exchange but definitely contracted for to a reputable buyer."

This action of the farm board was hailed by grain men attending the organization meeting of
