## MAKE VEGETABLE FOODS DELICIOUS

Few Things Are More Important Than Balanced Diet in Promoting Health

Cooking experts are using their ingenuity to develop delicious methods of preparing vegetables. A well-known expert furnishes us this recipe for Polish Beets:

Peel 12 small cooked beets and mince fine with a fork. Put in a saucepan and sprinkle with a tablespoon of sugar. Add a tablespoon of vinegar, 1 tablespoon of salt and pepper and heat. Melt 2 tablespoons of butter and blend with it 1 tablespoon of flour. Stir this into the mixture. Add 1/4 cup sour cream and heat.

Whatever recipe you are using and whatever vegetable you are cooking, try adding a dash of sugar for a new, enjoyable flavor. It is not the purpose of the sugar to make the vegetables taste sweet. Sugar brings out the delicate flavors of the foods and blends these with the seasonings used. Sugar is the master blender and the supreme condiment. It is the right hand of successful cookery.

Serve a varied, balanced diet. Serve at least two cooked vegetables daily. Serve at least two fruits daily. See that each member of your family drinks milk and eats milk desserts. Make meats appetizing by adding a dash of sugar while the meats are cooking. Use a dash of sugar to improve gravy, sauces and soups. Learn the art of serving colorful and satisfying desserts. A bit of sweet makes the meal complete. The Sugar Institute. Adv.
