## PLANE MISSING ON GOOD WILL JAUNT

BROWNSVILLE, Tex., Sept. 21 .--- (AP)-Fear that a Lockheed plane, participant in the Fort Worth good will aerocade flying to the south, and carrying four prominent Fort Worth men besides the pilot, was down and in trouble somewhere between here and Corpus Christi, was expressed tonight.

The ship was one of four which feelined to turn back to Corpus Christi this morning when 15 others of the aerocade did so because of rains. The three other planes which braved the elements landed here safely.

Local airport officials believed that the plane must have been forced down since no word had been heard from it. They considered that the craft's occupants would be mindful of the alarm their failure to appear would eccasion and would have advised had they alighted safely.
