

ESPEE READY FOR CROWDS

Trainmaster Arrives Here to Take Charge of Traffic During 1929 Fair

Ten million, five hundred thousand anti-tuberculosis Christmas seals, nearly two times the number sold last year, are being prepared for distribution throughout the state at the office of Mrs. Saldie Orr Dunbar, secretary of the Oregon tuberculosis, in Portland. Mrs. Dunbar has just returned to her office after spending five weeks convalescing from an operation.

This year the seal is one of the most beautiful ever used, according to health workers, representing a cheery, happy bell-ringer ringing in health for everyone. Mrs. Dunbar says: "If all the seals we have just received are purchased by the people of the state during the Christmas holidays we will be able to 'ring in health' for many more people in Oregon through the proceeds which support our preventive program throughout the year."

This preventive program has been one of the chief factors in cutting the death rate from tuberculosis in Oregon in the past 10 years from 90 persons per 100,000 of the population, to 58 on the same basis. The seals will be placed on sale in Oregon the day following Thanksgiving.

V. L. BUMP ARRIVES WILLIAMS, ARIZONA

KINGS VALLEY, Sept. 21.—Word has been received from Victor L. Bump of this community that he had arrived safely in Williams, Arizona, where he again takes up his work of teaching manual arts in the high school. The last leg of his journey he drove 576 miles, without sleep or rest that he might cross the Mohave desert at night to avoid the excessive heat of the daytime. Mr. Bump taught in Williams last year, but came home this summer to do graduate work at O. S. C. to apply on his master's degree.

Rickreall High To Open Monday

RICKREALL, September 21.—High school will start at Rickreall September 23rd. The grade school the 7th of October. Rickreall will run two school buses this year. Jesse Ragdale will have the bus going out north, and Harry Dempsey will have charge of the school bus going east to Eola.

MISS WILSON HURT SILVERTON, September 21.—Viola Wilson was painfully cut and bruised in an accident early Thursday morning when the car she was driving collided with a

DALLAS SENDS BARK Only Place in State To Supply Quantity HORSE SHOWS NEED IT

DALLAS, Sept. 21.—Few people who attend the horse show at either the state fair or the Pacific International show at Portland may give a thought to the source of the tan bark usually to be found in the show ring. In some instances saw dust is used, but to the horse show manager, who wants things just right, tan bark is the only ground covering wanted. Tan bark is the refuse from the fir bark used in tanning leather after it has been steamed or cooked to extract the tannic acid. The Dallas tannery is practically the only one in the state that can supply it in any quantity, and this year they are shipping two car loads to Se-

attle for their horse show, two carloads to Portland for the International show, and one carload to Salem for the State fair. The Dallas Tannery is the oldest business in Dallas having been established in 1863, and was taken over by A. B. Muir, and D. S. McDonald in 1870 who have operated it continuously except for one year when it was leased. Walter S. Muir is also actively associated in the management of the business. The capacity of the plant is 60 finished hides per week, nearly all of which are shipped to the middle west and some of the southern states. Where the tan bark is not shipped out it is used for fuel.

loose horse on East Hill. The light touring car which Miss Wilson was driving was badly wrecked. No other occupants of the car were injured.

S. P. Employee Ill At Jefferson

JEFFERSON, September 21.—Fred Seehale, former Jefferson resident, but now living in Portland, employed by the S. P. R. company, became ill suddenly Tuesday and is under the care of a physician. If he does not improve satisfactorily, he will be taken to the

railroad hospital in San Francisco.

Hitsman Rites To Be Monday

SILVERTON, September 21.—Funeral services will be held here at Miller cemetery Monday afternoon at 3:30 for Arthur E. Hitsman, 41, of Portland.

The deceased is survived by his widow, a son, Arthur Jr., a sister Myrtle Hitsman all of Portland; a brother, Peter Hitsman of Scotts Mills and a second sister, Mrs. Rose Hentze of Los Angeles, California.

BANK TAX QUESTION NEARS SETTLEMENT

Solution of the aggravated bank tax situation is now in sight, according to Earl Fisher, state tax commissioner, who has returned to Salem after attending the annual conference of the National Tax association in Washington. Recent court decisions have deprived many of the states of any adequate means of taxing national bank stock, Mr. Fisher said. The loss of taxes in Oregon on this account has been estimated at \$600,000 a year. It was said that continued effort on the part of some of the states to amend the federal statutes to afford a greater freedom in the taxation of national banks has encountered effective resistance from the American Bankers association.

Recent conferences of a small committee of tax men and a committee of bankers representing the national association brought the warring bankers together, and resulted in the drafting of a proposed amendment which would permit the imposition of a tax on national bank stock proportionate to the burden imposed upon mercantile manufacturing or business corporations without regard to money capital in the hands of individuals. Mr. Fisher said this proposal was accepted by both committees and, if approved by the American Bankers association in San Francisco late this month, it will likely

receive the support of congress. Mr. Fisher was a member of the committee of tax men who conferred with the bankers' committee and arrived at the favorable decision.

GERMANS AGITATE TRADE WITH EAST

DUESSELDORF, German, Sept. 21.—(AP)—The center of the world's commercial interest in shifting to the Pacific from the Atlantic and Germany in order to hold her place in the commercial sun must emulate America's example of going after the trade of the far east. This theory was forcibly brought home today to several thousand delegates at the opening session of the ninth national convention of the league of German

industrialists by the president, Dr. Carl Duisenberg, who spent the greater part of the past year on a world tour. "America has become the first power of the Pacific, outstripping both England and Japan. Surely this is not solely as a result of the World war, but largely on account of the enterprise and energy innate in this pioneer race, which called the Pacific at a time when other countries had not even thought about it. "slowly but surely there is a shifting of the economic center of gravity of the world from the Atlantic to the Pacific."

Dog Bites Boy At Talbot Home

JEFFERSON, Sept. 21.—Loren, small son of Mr. and Mrs. David Turnidge of Talbot, met with an unusual mishap the first of the week, when a neighbor, with his little dog, was visiting them.

TALKIES WILL COME TO SILVERTON FOLK

SILVERTON, September 21.—The Palace theater, Silvertown's lone motion picture house, will install talking pictures, says Alfred Adams, manager of the theater.

The equipment will be installed in sufficient time to run the first of the sound pictures here the second week in October. A Fox representative, who called at Silvertown this week, said that he knew of no other town the size of Silvertown which had talking picture equipment in its theaters.
