

GRAIN MARKET PLAN DELAYED

National Corporation Not to Be in Position to Work For Another Year

By RAYMOND Z. HENLE
Associated Press Staff Writer
WASHINGTON, Oct. 2.—(AP)—The information that the prospective Farmers' National Grain Marketing corporation will be unable to function effectively to ward the stabilization of wheat prices until next year was given to the senate agricultural committee today by Sam R. McKelvie of Nebraska, wheat's representative on the farm board.

Formal organization of the corporation, is imminent and as soon as this is accomplished, planning of policies will begin. Irrespective of whether all cooperatives and pools are represented, the board members said the corporation would be in the field in the attempt to demonstrate that conditions can be improved by orderly marketing.

Brookhart Challenges Right to Loan Money
During the examination of McKelvie, the board's right to loan money to the corporation was challenged by Senator Brookhart, republican, Iowa.

Informed by McKelvie that counsel had assured the board it was acting within the law, Brookhart said he thought the board had started out on an illegal basis and that "maybe some of us will have to bring an injunction to test the right of your counsel to advise that."

The Nebraska said "adequate provision" would be made in the corporation's charter to prevent "wheat gamblers" from obtaining the farmers stock holdings. He said the agency would be entirely controlled by cooperatives and the profits would go directly to the farmer.

Agency Will Function in Next Few Days
Coincident with the testimony of McKelvie, announcement was made in Chicago by William Settle, chairman of the grain corporation's organization committee, that the agency may be a working reality in a week. Several members of the farm board have left for Chicago to arrange final details of organization.

McKelvie told the committee the board had disagreed with the organization committee of some phases of its charter but that these differences were not serious and a solution was expected.

Except for supervision of the board, McKelvie said the marketing corporation was expected to give farmers themselves the opportunity of controlling the disposition of their crops. The board intends to finance the corporation, he said, so that it can obtain adequate storage facilities.
Senator Wheeler, democrat, Montana, contended that the cooperatives which will form the marketing corporation are not farmer-owned but are controlled by a lot of people who are exploiting the farmer just like the grain gamblers are.

HEARING DATE SET IN PROBATE COURT

Tuesday, November 5th was the date set for the hearing of final account in the estate of Sarah Bleakney, Winifred Evans, administratrix.

Madeleine W. Dyer was appointed executrix in the estate of Georgiana D. Walker, deceased. The petition reported real property of probable value of \$10,000 and personal property of probable value of \$19,000.

In the estate of Nicholas J. Haas, Emily R. Haas was named administratrix and Ray L. Smith, Robin D. Day and K. C. Gearin were appointed appraisers. The reported estimate of the personal property was \$1500.

Fredrick Lamport filed final report as administrator of the estate of Edward S. Lamport, deceased and hearing was set for November 4.

Charlotte G. Lally-Hunt was authorized to mortgage the estate of John C. Lally \$500. She is the administratrix.

Henry A. Morrison was appointed administrator of the estate of Myrtle Buffe Morrison, the estimated value of whose estate was reported at \$5000.

SMALLPOX IS NOT ON WANE, REPORT

Smallpox is not becoming a rare or unknown disease nor are fatalities therefrom growing less, says the current bulletin of the state board of health which tells why smallpox vaccination is necessary. In Marion county, the general statement of the state board does not hold, because of the intensive vaccination program which the child health demonstration has sponsored among the school children of the county.

The bulletin says: "In Oregon there were 1168 cases and five deaths from smallpox reported in 1927 and 1974 cases and five deaths in 1928. Recent reports indicate that deaths from smallpox in the United States have shown a very large increase. The smallpox case-rate in the United States is at present the highest of any civilized country in the world. Much of the disease, it is true, is of a mild type with a low death rate, but more and more epidemics of the

Stimson Probes Charges

Authorization of Branches For National Banks Cited As Present Day Necessity

SAN FRANCISCO, Oct. 2.—(AP)—Extension of branch banking by national banks was advocated today by John W. Pole, comptroller of the currency, who urged revision of existing law to make this possible.

Speaking before the American Bankers association, he suggested that national banks be permitted to establish branches within their federal reserve districts or within areas prescribed by Congress. This, he asserted, would make the national banking system more attractive to state banks and cure what he described as a fundamental weakness in the country's banking system.

The comptroller said such an extension, however, must be made under adequate safeguards, such as intensified government supervision and the requirement of parent banks to be capitalized sufficiently to meet the responsibility of its branches. Further, he added, the comptroller should have authority over establishment and removal of branches.

Pole reviewed the growth of group banking, through which large financial corporations control many small banks. This form of banking, he said, had grown without authority of law in recent years until it might eventually displace the present system of country unit banks and be offered his branch banking plan as an alternative. Group banking, the comptroller said, was more cumbersome and expensive than branch banking.

Study of an outbreak at any time and anywhere will convince any reasoning being that vaccination and vaccination only will suppress, modify and prevent smallpox.

"In isolation hospitals where all attendants have been properly vaccinated twice a year, no attendant has ever been infected although they are constantly exposed to the infection. On the other hand millions of persons, by refusing or neglecting vaccination, have died of smallpox in the 130 years since Jenner's discovery. No milder how serious conditions become as a result of neglect, proper enforcement of vaccination will quickly bring about normal conditions.

"Every child should be vaccinated before or soon after it is six months old. There is only one way to prevent smallpox and that is through vaccination. The method is logical, specific, sensible and satisfactory. Isolation and disinfection are only secondary."

Reception Date Changed Due to Football Game

WOODBURN, Oct. 2.—(Special)—The senior-freshman reception which was scheduled for the evening of October 4 has been postponed until October 11 because of a conflicting football game.

The football team will play at Tillamook October 4 and it will be impossible for the team to get back to Woodburn within sufficient time to attend the reception. Because many of the boys who will go to Tillamook are seniors the latter date was chosen.

It will also be convenient for the committees in charge of the affair to have the change in date as the organization of classes took place last Thursday and the seniors have been rather busy getting first place in the sale of student body tickets.

of course women dictate to men . . . about styles and other things . . . and it's rightly so . . . because they know much about their, says "holly" huntington.

STOCK MARKET IS RECOVERING

Drop in Call Money Rate Has Tendency to Relieve Situation

NEW YORK, Oct. 2.—(AP)—Lowering of call money rates, marking the end of the credit strain incidental to the quarterly settlements, provided the background for an irregular recovery in today's stock market, but traders received another unpleasant surprise after the close when the New York stock exchange reported member loans had increased \$667,764,553 last month to a new high record at \$8,549,383,979.

The market opened irregularly higher, turned extremely spotty when fresh liquidation developed in some of the recent speculative favorites and then witnessed a brisk rally which was checked in the last hour by the heavy selling of radio which dropped 4 1/2 points. The day's sales fell well below 4,000,000 shares, indicating both the absence of any extensive liquidation and the lack of any heavy accumulation on the part of investment trusts and large individual operators. Most market observers were agreed that the market was entitled to at least a technical rally, but there was still a wide divergence of opinion as to whether the current recovery marked the end of the selling movement which started nearly three weeks ago.

Thirty or more stocks sagged to new low levels for the year in the intermittent waves of selling which swept over the market during the day. The list included Studebaker, Jordan and Reo Motors, International Combustion, Richfield Oil, National Bell Hese, National Tea, Jewel Tea, Park and Tilford, American Zinc and American Woolen Preferred. Only a handful of stocks went to new highs, among them Columbian Carbon, Remington Ram Myer and Bros., Timken Roller Bearing and General American Tank Car.

U. S. Steel common ran up to 226 and then fell back to 223 for a net gain of only 1/4. General Electric closed 3 3/4 points higher at \$63 3/4 after selling 3 points above that figure. Westinghouse Electric retained only 2 points of its early gain of 6 3/4. Standard Gas and Electric ran up 13 and fell back 5. And so on through the list.

INVESTIGATION OF LOBBY NEXT

Senate Inquiry to Take Up Activities of Various Organizations

WASHINGTON, Oct. 2.—(AP)—Senate investigation of Washington lobbyists will probably be directed first at these persons and associations seeking to influence the tariff legislation now before the senate.

Senator Caraway, democrat, Arkansas, author of the inquiry ordered yesterday by the senate, today named those he had in mind for investigation. The list included the southern tariff league and Joseph R. Grundy, president of the Pennsylvania Manufacturers' association, who has been in Washington representing also the American tariff league during the tariff making.

Muscle Shoals Lobby Specifically Mentioned
The Arkansas senator is likely to be a member of the investigating committee. He wants to inquire into the nature of the organizations which have been interested before congress in the Muscle Shoals, Alabama, power plant disposal, and in the proposed repeal of the federal estate tax.

The investigation will be undertaken next week by some members of the judiciary committee, headed by Senator Norris, Republican, Nebraska.

There were indications tonight that the senate investigators would not go into the Washington activities of church organizations and wet and dry associations. Some committee members contended these organizations were engaged principally in election activities and that they have submitted reports of their expenditures to congress.

Stating he had no complaint with those who were legitimately interested in legislation, Senator Caraway said today he wanted "the public to know that the government is not for sale and that these parasites have no more influence at Washington than the janitors in the city halls of the nation have with their governments."

The inquiry is the first of its kind in Washington in a decade, despite many threats in both branches of congress. Interest in such a course was generated in the senate last week by disclosures that American shipbuilders had raised and spent in Washington \$143,000 a year ago at the time the Jones-White merchant marine act was in the making.

A full accounting of that fund was given and Laurence R. Wilder, president of the trans-oceanic corporation promoting the four-day trans-Atlantic project, testified that he spent about half of the fund. He insisted it was not used for lobbying.

POLICE COURT FINES \$1317 LAST MONTH

Moving a house without a permit brought about a fine of \$10 out of a total of \$1317 in police court for September. Of this total \$684 was for violations of the liquor laws and \$613 for violations of traffic laws. The total for August was \$1251.50.

Possession of liquor cost \$336 to be outshaded by overtime parking violations by \$40 which totaled \$381. Passing in an intersection cost \$2.50 for the least amount charged to any one violation.

Important Values On Smart New Fall Merchandise! Save Now!

Men's and Young Men's Overcoats \$14.75 to \$24.75

Styled for Smart Appearance and Priced for Thrift

Come join the army of well dressed men. Slip into one of these new Overcoats and step into style. A fine selection awaits you here, in the newest and smartest fabrics of the season.

Men's Vests Of Horsehide \$9.90

Fine black horsehide vests 30-inches long. Belted back, 2 side pockets, warm shoddy lining and adjustable button cuffs. Just as illustrated. A very fine value.

Men's Union Suits of Warm Wool Mixtures

In Medium and Heavy Weights

Warm underwear that may be had in wool-mixed and worsted mixtures. Made of ribbed knit in medium and heavy weights.

Every garment made to fit comfortably, wear well and keep its shape. All sizes. Buy now at these very low prices!

\$1.98 and \$2.98

Slip over Sweater

A fine sweater for sports and all-around wear. Made of pure yarn, in a selection of fancy patterns.

\$1.98 to \$3.98

Men's Khaki Shirts

Of Genuine U. S. Army Flannel (Part Wool)

Shirts of real quality for outdoor men. Made with double elbows that add much wear. Cut full, yet not baggy. Two flap pockets, large and securely sewn. Here's a shirt that will repay you many times its price.

\$1.98 to \$3.98

Wool Mixed Sweaters

Heavy quality sweaters of a fine jumbo stitch. Made with big shawl collar in coat style. Carefully knit of 50 per cent wool yarn. Two pockets. Sketched.

\$1.98

Lumberjacks

Of All Weal

Men's good quality lumberjacks . . . warm and good looking. Made with knitted bottom, 8 pockets, and open collar. All wool mackinaw cloth in fancy patterns.

\$3.98

Excellent Quality in Men's Boots

Sturdily made . . . of chocolate roscite which resists rain, slush, or soil and barnyard acids, therefore fine for any boot need. Leather heel.

12 inch \$7.50
16 inch \$8.50

Men's Drawers

Also Shirts

Ribbed cotton. Light force lined. Heavy weight. Save!

Each 69c

Men's Pants

Of Heavy MoleSkin

Strong work pants that are made of heavy-weight moleskin. Black and white stripes with cuff bottoms, belt loops and five pockets. Cut full and well made.
