CAULIFLOWER FIELD IS HIGHLY PRAISED

By MADALENE L. CALLIN
"The best field of cauliflower in Oregon," was the verdict of one buyer who saw the one belonging to Ed Clark, West Stayton.

The growing of cauliflower is an experiment in the West Stayton irrigation district and is being watched with interest by both growers and buyers. Nearly 100 acres have been planted in the district this year and so far the experiment seems to be a decided success.

The quality and quantity of the crop is very good and if satisfactory market is found this year there will no doubt be much larger acreage next year.

Mr. Clark expects to harvest about 475 crates with an average of 10 to 12 heads to the crate. The West Stayton cauliflower growers' association was formed this year with Mr. Clarke as president. All of the first grade crop is contracted and there seems to be a ready market for the product.

The irrigation district in West Stayton has been aptly named "The Imperial Valley of Oregon" and with the present success of the first year of cauliflower growing another product has been added to the long list of fine quality vegetables grown in the district.

Stray Dogs Are Serious Problem In Stayton Area

STAYTON, Oct. 7.—Shirley, the four year old daughter of Mr. and Mrs. Glen E. Fox was considerably frightened the first of the week, when a dog, thought to be a stray, bit her on the end of her nose.

The matter was reported to the local officer and it is hoped the animal will be disposed of before it attacks others.

There are too many dogs running at large without licenses in the community to suit the sheep men, who each week are reporting valuable sheep killed.

In some cases the dogs eat only a part of an animal leaving it to suffer until death comes or it is found and put out of its misery.

A large number of games were played during the evening. Several contests were held and other enjoyments. In the latter part of the evening cafeteria luncheon was served which everyone enjoyed.

Those who attended the party were the Misses Lois Smith, Ruth Engelhorn, Charlotte Smith, Helen Bliss, Adah Clark, Evelyn Thomas, Marie Sebern, Elissa Petraso, Jeanette Sebern, Molly Fox, Willa Sampson, Edna Riffy, Eva Arnold, Charlotte La Due, Mildred Simmons, La Verne Hewitt, Helen Gosser, Margaret Smart, Mabel Thomas and Mrs. Grace Bliss. The old corps of help was replaced by help brought by the new managers.

Mr. Cutting comes highly recommended as an experienced resort manager, having spent many years in the work. Visitors find grounds and buildings and it is the wish of the management that many from far and near accept the invitation cordially extended to visit the resort, inspect the

grounds and buildings and taste of the mineral water that continually flows from the spring located at the foot of the hill just below the building.
