### Rocket Plane Soars in Uncanny Flight

The first flight of the German Rocket Plane in which Fritz Von Opel crashed at Frankfort, Germany, proved that this type of aeroplane may be practical in the near future. Successfully leaving the ground the ship attained a speed of 1 1/4 miles in 75 seconds, which would indicate that when minor corrections are made in construction, it can truly live up to its name. Von Opel is seen at the controls just before a previous test was made.

## When Caesar was a boy

The Forum was the common market-place for all of ancient Rome. Today a few crumbling columns stand as mute reminders of its former grandeur.

In our present-day complex civilization, marketplaces have become scattered. It is no longer possible to visit them all in a morning—or even in a day.

Advertising, instead, has become the convenient Forum of modern buyers and sellers. If you are considering the purchase of a new car, you scrutinize the automobile advertising. Or if it's a razor or a talking machine that you want, you turn again to the advertising. Here is the national market-place for merchandise.

Furthermore, as you leaf over those same pages of products, your mind is storing away for tomorrow a compact and valuable fund of information. Instinctively, you will remember those facts when you make your future purchases. Increase your store of knowledge by reading the advertisements regularly.

Advertising has become the common market-place of this twentieth century
