SLIM FIGURE NOW UNFASHIONABLE

Women and Girls Can Now Be Healthy as Well as Stylish

That excessive and unnatural thinness that ruined the health of thousands of women and young girls is no longer fashionable. Paris couturiers are developing clothes for the rounded figure. Musical comedy producers are searching for healthy, normal figures for the stage. All the world is getting health-wise where the human figure is concerned.

This means that women and girls will be encouraged to eat enough varied foods at regular meals to supply the requirements of health. It means that tuberculosis, anemia and other dangerous results of undernourishment may be more easily averted. And to the eyes of discerning men and health experts, it means that women will be more natural and more beautiful.

Eat cereals, milk, fruits, vegetables and meats daily. Do not gorge or overeat, but eat variety. Remember that flavor is the one important factor in causing people to eat varieties of foods, and that sugar is nature's supreme condiment for developing the flavors of nearly every healthful food.

The necessity of a dash of sugar for making cereals, fruits and milk desserts delicious is well known. Women cooking experts recently discovered that a dash of sugar in vegetables while they are cooking revolutionizes their freshness and natural vegetable flavors. Most foods are more delicious and nourishing with sugar. The Sugar Institute.
