Friday, October 25, as being very Mrs. Earl Pearcy, Mrs. W. successful. Large crowds were present both at noon and also in the evening when supper was served. Proceeds of the day, amounting to about two hundred dollars will be used for church expenses.

Burgoyne and Mrs. Gilstrap were admitted as new members at this meeting.

Following the business session a program was given. At the close of the afternoon Mrs. Pearl Witzel and Mrs. Farris served.

Baby Recovers Hearing SOCIAL CALENDAR When "Grandad" Dies

Scoffers may jeer at miracles and direct answer to prayer, but the Pannone family of Brooklyn, N. Y., reverently exhibited their four-year-old son, Michael, as having been restored to health by a death-bed miracle. o'clock, Miller's Hall, reports

The boy's eyesight is clearing, his power of speech has returned, and his hearing has been restored the family avers, as the result of a prayer by the boy's dying grand-

father, Vincenta Ten months ago, following the death of his mother, Michael was stricken with spinal meningitis, which cost him his sight, hearing and speech. Physicians declared the malady incurable—that he would never be anything but a mute cripple. On September 29 the boy's grandfather lay dying. He prayed devoutly to the "Blessed Virgin" to take away his own speech, sight and hearing and restore those of his grandson. Then he died.

Then, members of the family say, occurred the miracle. Within ten minutes of his grandfather's death the child recovered his voice. Within a short time his hearing was improved, while his vision which had been completely blurred, showed marked improvement.

progress has baffled the doctors.

## ALL SHOULD HAVE

Drink Fresh Milk-Use It and Condensed Milk in Custards and Other Desserts

Two famous nutrition authorities emphasize the need of the human body for the calcium and phosphorus found in milk. Children and expectant or nursing mothers should have from threequarters to one quart of milk a day, according to these authorities, and other adults should have from three-quarters of a pint to a pint of milk a day. These authorities point out that too little calcium in the diet retards bone growth, causes rickets, may result in bone deformities, produces poor quality of teeth and lowers vigor and vitality. Whole milk also is rich in phosphorus.

Unfortunately there are many people who do not like the taste of milk. For all such people, a delicious milk drink should be made.

One mother makes her children eager for milk by giving it to them in milk shakes. "They call one drink a chocolate froth," she says. "I take level teaspoon of cocoa and 11/2 teaspoons of sugar, mix in the bottom of a glass with a few drops of milk until it's smooth, add a drop or two of vanilla flavoring, fill the glass with milk and shake it with an ordinary tin shaker." Another way to increase the enjoyment of milk is to use it in making desserts. Condensed milk makes a delicious, smooth custard.

Sugar is Nature's ideal flavor. 'Help make children drink milk," says an eminent food scientist, "by adding chocolate and sugar." The Sugar Institute.
