

Local News Briefs

Page Mr. Lundstrom—Adam M. Reedé, box 743, East Lansing, Mich., writes to the "head of the census department, Salem, Oregon," as follows: "Would it be possible for you to tell me if you have in your last census any one by the name of Lundstrom? And if so, where such person or persons may be found. It is asking quite an accommodation of you, but I am very anxious to get in touch with some one by the name of Lundstrom." Mr. Reedé has been referred to the bureau of the census, Washington, D. C., where the names of the 100,000-000 to 110,000,000 people of the United States are on file, and gathered in the 1920 and 1921 census counts, and on back. The 1920 count will begin April 1. Mr. Reedé has given a large order. There are perhaps a good many thousands of Lundstroms in the country, and a sprinkling of them in Oregon. There is no Lundstrom in the last Salem city directory, but there are some Lundstroms here.

PROPER CARE IS GIVEN MOTHERS

Prenatal Health Service Results in Reduction of Infant Deaths

(Continued from Page 1.)

service and statistics derived therefrom. Of the 465 births supervised by the public health nurses, only three were still births. Among the other 2,895 births, 108 of the babies were born dead. These figures, reduced to rate per thousand live births, show a still birth death rate of only 6.4 in the case under care, as compared to 37.8 for the case not guided by the health nurse. In other words, at this rate 12 more deaths would have occurred at birth if mothers had not availed themselves of the privileges of the modern health service open to all in the county.

And in still other words, or placing it in terms of life instead of death, the nursing service saved the lives of 12 babies. Significance of the demonstration takes firm root when such facts can be shown. Though, to be sure, just which 12 sets of Marion county parents were saved the misery and heartache of a stillborn child, none shall know.

Only Eight Babies Die While Under Nursing Care

For this four-year period, of the deaths which occurred under one month of age, only eight were of babies under nursing care, as compared to 37 among babies not under the eye of the demonstration's nurses.

Congenital causes, that is, prematurity and debility, were in the ascendency by far in the case of stillbirths of babies which were not nurtured with the aid of the public nursing service. Seventy seven of the still births not under the nursing service were due to these causes, and none of the three stillbirths which occurred in the instance of mothers under supervision of the demonstration was due to these causes.

Figures recorded for the maternal deaths for the five-year period to the coming of the demonstration, that is from 1920 to the end of 1924, show 30 women were advised as the result of child birth. That is in the five years prior to 1925, six maternity deaths occurred every year, as an average. For the four-year period which the demonstration has been functioning in this field, an average of not quite two and a half deaths a year has resulted in maternity cases. That is in the five years prior to 1925, the above figures should mean that it does pay in actual life and death of the mother and the infant, have some agency in the county which is able to instruct the mother in the prenatal life and care of her child and further to have this same agency or demonstration carry from the home or the mother to the attending physician any findings which might be indicative of complications in the birth of the child.

MATERNAL MORTALITY PER 1000 LIVE BIRTHS

Through health education and prenatal care the Marion county health demonstration has brought about a decided downward trend in the maternal death rate. In the four years the demonstration has operated not a single maternal death has resulted in cases under the demonstration nurses' supervision.

State Facing Deficit of More Than Million When Figures All Worked Out

be required to obtain from the Portland banks additional funds of between \$250,000 and \$500,000. Arrangements for such temporary borrowing have already been made at an interest rate of 5 1/2 per cent per annum.

Loans Not to Run More Than Month

As the last half of the state taxes is payable out of the first moneys over which the counties have control and must be paid in full before December 1, the loans should not run for more than 20 to 30 days. During the past year ending September 30, 1924, the state has reduced its bonded indebtedness in the amount of \$2,300,000. The bond principal payments consisted of \$1,800,000 state highway bonds and \$500,000 Oregon veterans state aid bonds. On October 1, 1924, an additional amount of \$82,500 of highway bonds was retired.

The next bond principal payments will be \$250,000 Oregon veterans state aid bonds on January 1, 1925, and \$87,500 of state highway bonds on April 1, 1925.

Oregon Bonded Debt Briefly Summarized

TWELVE ENTER MAJESTIC RACE

Trip to Hollywood, California Awaits Winner Of Contest

Twelve young ladies of Salem have entered the Miss Majestic contest in the race for that big trip to Hollywood, California, which is being given to the popular girl who accumulates the greatest number of votes between now and November 27th the closing date of the contest.

According to Frank Litweller of the Imperial Furniture company, chairman of the contest committee, this is the greatest radio contest ever held in the Willamette valley, and is of such an unusual type in it snapeup that it commands the attention of better type girls who would like to vie in constructive competition for the fine prize being given. Of course in addition to the trip several other very attractive prizes are to be given.

The contest is based largely on the sale of radio sets however the contestants have no actual sales work to do. Names of prospects are secured by them and turned in to the radio department of the local Majestic dealer sponsoring them and when the sale is made they get credit for a large block of votes.

Entrants to date include Betty Ross, the first contestant to enter, Mildred Sexauer, Rose Krauger, Mrs. Herbert Lane, Frances Walker, Miss P. A. King, Roberta Everson, Arilla Gell, Mrs. Ralph Davis, Marcus Fuestman, Ruth Wilson and Madys Schaefer.

The Imperial Furniture company and Vibbert & Todd are sponsoring the contest. Salem girls seeking further information about or entry into the contest should visit the radio department of either store and an interview will be arranged.

The Kennell Ellis Studios in the Oregon building will take without charge photographs of all contestants for mounting, and arrangement in dealer's stores and the girls who have entered should make immediate appointment for this work.

WESTERN mother proves her idea is right...

"MY little son, Newell, was bilious and upset," says Mrs. C. F. Jenkins, wife of the Methodist pastor at Lyndon, Kansas. "He had no appetite, his breath was bad, his tongue was coated, and he was nearly always tired and sleepy."

"He seemed to have trouble with his stomach, and bowels and I had an idea California Fig Syrup would help him. He brightened up marvelously with the first few doses. At the end of a week, he was a different boy. I have used California Fig Syrup with both my boys every time they have had a cold or upset, and give it a lot of credit for their wonderful condition."

California Fig Syrup never fails to cleanse the system of bilious, headachy, feverish or constipated children, quickly and gently. It never grips or sickens. Children love its flavor. A pure vegetable product with the highest endorsement of doctors. It helps Nature give tone and strength to the stomach and bowels.

All drug stores have the generous bottles. The name "California" marks the genuine.
