

HI-JINKS TO OCCUR FRIDAY

Each Class Contributes Part Of Entertainment at Annual Event

Complete plans for the A. S. B. Hi-Jinks, all school event to be held at the high school next Friday night beginning at 7:30 o'clock, have been announced by Ruth Pick, general chairman. Assisting Miss Pick are members of the social committee: Ruthita Hoffnell, Margaret Wilson, Margaret Wagner, Helen Olson, Eleanor Wright and Kathryn Corey.

Each class is contributing a special stunt, with class chairmen as follows: Claudine Gillespie, senior; Pauline Routh, junior; and Billy Dyer, sophomore.

A travelogue idea is being worked out for the Hi-Jinks and will give all-student affairs of the year more unity than characterized the first one a year ago. Various nations, each depicted in their characteristic costumes, ideas and manners, will be found about the school; in fact a regular world tour will be enjoyed in the few hours' entertainment.

As a grand finale, a vaudeville will be held in the gymnasium. Yvonne Smith, Wilda Ferguson and Carl Collins are in charge of this, which the students will pretend is the return to America. June Estridge will direct a special feature, fortune telling, and police supervision will be in charge of Irving Hale.

CLARA BOW AGAIN IS BOOKED HERE

"The Saturday Night Kid"—and what a kid, comes to the Fox Elsinore for a four day run starting Tuesday. It is Clara Bow's latest all-talking picture and it is far and away the best vehicle ever provided for the versatile girl with the red hair and the full complement of what Elinor Glyn calls "it".

The picture runs the scale of emotions and provides the proper balance of rib-tickling comedy coupled with musical interpolations. Miss Bow, as we would expect, runs away with the picture. She is all over the place with her zip-bang, knockout manners and her contrasting moments of serene blandishments.

The play is established on the doings of the boys and girls who work as sales persons and clerks in the big department stores of the Metropolitan cities. Miss Bow is a hard working sales girl deeply in love with James Hall, clerk, who has ambitions to rise higher on the store's staff.

Laurel and Hardy the greatest comedy team on the talking screen will appear in a two reel talking comedy "They Go Boom" and James Barton appears in a one reel talking act in "It Happened to Him" Paramount's "Eye of the World" rounds out the program.

HOOVER'S BUDGET IS \$3,830,000,000

WASHINGTON, Nov. 9.—(AP)—The first budget of the Hoover administration will call for \$3,830,000,000 to cover government expenditures during the 1929 fiscal year, when it is submitted to congress next month.

President Hoover announced that today the total was \$111,600,000 less than the total government expenditures for the present—1929—fiscal year, during which \$3,941,000,000 has been appropriated by congress. Both figures, however, do not include the appropriations for the farm board, which this year received \$150,000,000, and whose requirements for next year have not been ascertained.

The first Hoover budget will call for \$158,000,000 more than was asked of congress when the final Coolidge budget was submitted last December. That called for \$3,672,000,000, and deficiency appropriations made during the year increased the expenditures by nearly \$300,000,000.

FREE TEXTBOOKS TO BE TALKED AT MEET

Arthur Brock, foreman of the state printing department, left here last night for Sacramento, Calif., where he will join a delegation from Oregon to Washington, in an investigation of the proposal to adopt free textbooks in the public schools of several northwest states.

Brock is a member of the interim committee authorized by the 1929 legislature to conduct an investigation of the free textbook proposal. The committee has held two meetings, and has gathered a large amount of data from states which furnish free textbooks to the children.

In case free textbooks are adopted in Oregon they will be printed in the state printing department. Most states which have adopted free textbooks, purchase mats instead of setting the type. This has proved a material saving in the printing of textbooks, Brock said.
