An Ailing CHILD

Are you prepared to render first aid and quick comfort the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden relief of colic, or the gentle relief of constipation; to soothe a feverish condition, or to allay a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine Castoria. It is harmless to the smallest infant; doctors will tell you so. You can tell from the recipe on the wrapper how mild it is, and how good for little systems. But continue with Castoria until a child is grown.

The Real Reason at Last!

And if doughnuts, as they made em in those days, were good enough to sway the choice of Priscilla . . . we guarantee our doughnuts to win the heart of anyone who tries them

If most desserts fail to satisfy you—if you're hard to please—try some of our doughnuts. They're made by an entirely new process, distinctively flavored, done "just right" and perfectly balanced for nutrition and health.
