Now is the time to buy men's and boys' overcoats while our stock is complete. Boys' coats \$5 to \$10. Men's \$15, \$17.50 and \$20. Thos. Kay Woolen Mill Co.

Here From Redmond—Mrs. R. M. Morris of Redmond, eastern Oregon, is visiting her daughter, Mrs. Will Gritton and family at 2045 Maple avenue.

Hurry! Hurry! Order your Christmas cards now. Make your selection from our several hundred designs at the Statesman.

Reserve Saturday night, Nov. 23, for Union Hill Grand benefit Basket Social. Good Program. Free coffee, 8 o'clock, Union Hill Hall.

Back From Seattle—Leo Ka-foury is home again after a stay in Seattle where he spent some time on business.

ACCIDENTS FATAL TO FOUR IN WEEK

There were four fatalities due to industrial accidents in Oregon during the week ending November 21, according to a report prepared by the state industrial accident commission Friday.

The victims were A. E. Michaels, Dexter, logger; E. Caffell, Sprague River, logger; M. Knoose, St. Helens, logger; and C. W. Huff-man, Powers, logger.

There were 785 accidents reported to the commission during the week.

Perrydale High Is Very Active

PERRYDALE, Nov. 22—The combined girls and boys basketball teams of Perrydale high gave a "Vooderville Fair" in the high school.

The boys team is coached by Chester Gilliam while Wanda Elliott is directing the girls team.

A health course has been added to the high school course of study.

Seventy-five per cent of the graduates of the high school last year have entered institutions of higher learning and many others are planning to enter later in the year.

NEW COURSE AT DALLAS

DALLAS, Nov. 22—An innovation in the high school classes in Dallas is that of a course of social ethics for the boys and girls. The classes are held after the regular school hours and is optional with the students. So far some 100 girls and 25 boys have signed up. R. R. Turner, superintendent of schools, will have charge of the boys class and Miss Helen Woodward of the girls.

BLAZE DOES DAMAGE

PORTLAND, Ore., Nov. 22.—(AP)—Fire, caused by an overheated pipe, early today damaged the heating plant of the Portland sanatorium to the extent of \$500.

MANY PLANES NOW OWNED

Survey Shows Increasing Use of Aircraft by Private Parties

Evidence of the increasing ownership of airplanes by individuals and of the formation of additional companies for the commercial use of planes in various sections of the state is shown in the list of registered aircraft in Oregon, which has been made by the office of the secretary of state, Hal E. Ross, from registration required by Oregon laws. Of the 63 planes listed about 50 per cent are owned by individuals.

Aircraft belonging to the federal government or its divisions and those used in interstate commerce are not required to register with the state department, as the federal department of commerce regulates their licensing. The secretary of state has charge of aircraft registration while the state board of aeronautics supervises the licensing of pilots.

There are a number of planes owned by Oregon firms for interstate use which are not registered except by the federal government, but for use exclusively within the state, the Rankin Flying Service and the Union Air Lines, both of Portland, lead the list in ownership, each firm having four planes. Other plane owners are:

Bend Flying Service, Bend; Hobbs Airways Company, Eugene; Dr. E. H. Smith, Hillsboro; R. Robt. Crawford, Portland; Mackenzie Morrow Aviation Company, Portland; P. W. Lyndon, Waldport; H. C. Cartwright, Corvallis; E. Bicknell and E. P. Anderson, Eugene; Continental Airways, Portland; A. L. Adams, Silverton; Umpqua Flying Service, Roseburg; Hill Aeronautical School, Portland; Hill-Clemence Air Service, Portland; Hans Mirow, Portland; Rex Brattain, Albany; Jesse Anton Digman, Portland; Norman E. Hansen, Klamath Falls; Klamath Eaglerock Sales Company, Klamath Falls; Valley Air Service, Forest Grove; C. W. Gay, Gladstone; George Pulse, Tiedge; L. W. Hubert, Gresham; George Olive Stanley, Eugene; Shields-Clark Flying Service, Portland; Elbert E. Parmenter, Corvallis; Gorst Air Transport, Inc., Seattle; Wm. Richardson and G. Earl Low, Coquille; Cecil J. Pounder, Troutdale; Ernest L. Rhoades and Maurice Ranger, Oswego; Alexander & Lewis, Portland; George H. Woodruff, Jr., Corvallis; Herman J. Freudenthal, Hillsboro; National Aircraft Corporation, Beaverton; Eickerson Flying Service, Inc., Springfield; Forest Colson Klamath Falls; Portland Airways, Inc., Portland; Waldo Cramer, Portland; David Langmack, Lebanon; C. A. Anderson, Ben Hathaway and H. S. Wilson, Tillamook; Charles Edwin Meers, Portland; Jonas Baas, Bend; George Alvin Fuller, Corvallis; Edward Gardner, Portland; Bert E. Fustin, Trustee, Portland; Roy Down, Portland; Dr. J. C. Rinehart, George Crawford and Charles J. Langmack, Portland.

The selling pressure tended to retard rather than accelerate the pace of trading, and the day's turnover amounted to only \$2,929,239 shares, as compared to \$3,238,239 yesterday. Utilities, rails and several of the specialties generally gave a good account of themselves.

The selling appeared to be primarily profit-taking on the rally steadily since the middle of last week. The realizing was regarded as moderate in view of the extent of the recent advance, and the closing of the market tomorrow.

The day's selling movement carried General Electric, Allied Chemical, and Union Pacific down about 5 to 6 points. U. S. Steel closed at 167, off 1 1/2, and American Telephone, Anaconda, Atchafalpa, American Tobacco, B. Johns Manville, Kennecott and Fox Film A, lost 3 or 4 points. Philadelphia company closed highest, which appears on the tape only once in a moon, traded at 178, off 94 points from the previous sale.

American Machine and Foundry had one of its rapid spurs, touching 199, up 17 points. J. I. Case and Otis Elevator mounted about 13 and 14 points. U. S. Industrial Alcohol and Peoples Gas about 11.

OPERATION GIVEN COW SUCCESSFULLY

A valuable dairy cow in the Oregon State college had recently underwent a successful operation for the removal of a piece of baling wire which she had swallowed. One end of the six inch wire had worked through the stomach and penetrated a heart muscle. Diagnosing the trouble, the college veterinary staff operated and removed the wire.

"This operation is not new, though it is a fairly recent development in veterinary science," explained Dr. B. T. Simms, head of the department here. "Most dairy men, however, are unaware that it is being done by the modern veterinarian, and hence lose valuable animals that could be saved."

"A cow is such a voracious eater that it is not uncommon at all for her to eat nails, pieces of wire or other hard substances carelessly allowed to get in her feed," he continued. "These days, in the stomach sometimes for months and then under some unusual strain, such as calving, work through the stomach walls. Unless relief is given soon the animal will die. About 90 per cent of the cases, taken in time, however, are being saved."

Woodburn to Have Fireman's Dance

WOODBURN, Nov. 22—Members of the Woodburn fire department are busy preparing and selling tickets for their annual Firemen's ball in the armory Thanksgiving night, November 28.

Many old residents of Woodburn who come home or back to visit during the holidays attend this annual function and it is enjoyed, to a great extent, as a family reunion. The armory has been completely remodeled and the new hardwood floor is said to be one of the best around here. Billy Miller's orchestra from Salem has been engaged to furnish the music.

Our shop is on the trunk line to travel satisfaction. Says Shafer's Baggage Boy.

Gladstones, and kithabes—Brief cases, too—if you want to take your work with you on your vacation.

Mourning

Ralph Thompson, city clerk, who died suddenly Friday.

STOCK MARKET REMAINS FIRM

Weekend Selling Movement Hits Normal Stride on Wall Street

NEW YORK, Nov. 22.—(AP)—The stock market presented a fairly firm front to a normal weekend selling movement today, which depressed several of the trading favorites 1 to 6 points.

These losses, however, were largely counterbalanced by gains elsewhere in the list, running from 1 to 17 points.

Selling pressure tended to retard rather than accelerate the pace of trading, and the day's turnover amounted to only \$2,929,239 shares, as compared to \$3,238,239 yesterday. Utilities, rails and several of the specialties generally gave a good account of themselves.

The selling appeared to be primarily profit-taking on the rally steadily since the middle of last week. The realizing was regarded as moderate in view of the extent of the recent advance, and the closing of the market tomorrow.

The day's selling movement carried General Electric, Allied Chemical, and Union Pacific down about 5 to 6 points. U. S. Steel closed at 167, off 1 1/2, and American Telephone, Anaconda, Atchafalpa, American Tobacco, B. Johns Manville, Kennecott and Fox Film A, lost 3 or 4 points. American Machine and Foundry had one of its rapid spurs, touching 199, up 17 points. J. I. Case and Otis Elevator mounted about 13 and 14 points. U. S. Industrial Alcohol and Peoples Gas about 11.

Meet Scheduled For Stimulating Flax Industry

The first of a proposed series of meetings to stimulate interest in the extension of the flax industry in western Oregon, will be held at the Salem chamber of commerce rooms this afternoon at 1:30 o'clock.

The flax and oil flax industries will both be represented, according to plans announced recently, both from the standpoint of the grower and the manufacturer.

The Portland chamber of commerce will be represented, according to word received here Friday. Phil Benedict, assistant manager of Kerr, Gifford and company, will be one of the out-of-town visitors.

A valuable dairy cow in the Oregon State college had recently underwent a successful operation for the removal of a piece of baling wire which she had swallowed. One end of the six inch wire had worked through the stomach and penetrated a heart muscle. Diagnosing the trouble, the college veterinary staff operated and removed the wire.

S. P. OPPOSES NEW RAIL LINE

Strenuous Efforts Made to Prevent Construction By Rival G. N.

SAN FRANCISCO, Nov. 22.—(AP)—Pushing its counter attack forward point by point the Southern Pacific company today reached several disputed strategic objectives in the battle before the Interstate Commerce commission over a 200 mile railroad.

The combat is being waged by the Great Northern and Western Pacific for permission to build from Klamath Falls, Ore., to Keddle, Calif., to connect their track systems.

The contentions raised by the Southern Pacific were:

1—Emergency war demand for coastwise railroad transportation could be served by the Southern Pacific.

2—The proposed line is not needed to open new timber tracts because there is already an over production of lumber.

3—The supply of fruit cars for California would not be increased by the new line.

4—The Southern Pacific is not earning "fair return" on its enormous investment in Oregon and northern California.

5—Highways already serve the territory that would be tributary to the proposed line.

Major J. J. Sullivan of the U. S. army reserve corps and assistant superintendent of the Shasta division of the Southern Pacific, testified that the major troop movement in a Pacific coast war emergency would be from east to west rather than from south to north. He declared that the present lines on the Southern Pacific are adequate to move troops and war supplies and comparatively safe from attack. Therefore, he concluded, the proposed line would not be needed by the army if the west coast were attacked.

Colonel G. H. Canfield, reserve engineer officer of Oakland, Calif., approved Major Sullivan's testimony. Under cross examination by Judge Warren Olney of the Western Pacific he admitted that during the war of 1914 to 1918 opposing armies had to move large

bodies of troops quickly in various directions along the battle front. Major Sullivan admitted that he had no specific knowledge of the war department's plans for handling the movements of men and materials in the event of a major emergency. He also admitted mobilization projects of the army contemplate using as many as possible concentration points and lines of transportation. He also said there might be some delay in transportation over the Southern Pacific's Sacramento valley line should a bridge or tunnel be destroyed. He declared, however, that it would be an accident if an enemy airplane bomber should score a hit on the Southern Pacific tracks along this line.

Major J. J. Sullivan of the U. He declared that the present lines on the Southern Pacific are adequate to move troops and war supplies and comparatively safe from attack. Therefore, he concluded, the proposed line would not be needed by the army if the west coast were attacked.

Obituary

Thompson
Ralph E. Thompson, age 48, died at his home, 1630 South Commercial street, Friday afternoon. Survived by his widow, Mrs. Alma Thompson; three children, Sylvia Thompson of San Francisco; Grace Thompson of Salem, and son Cecil, of San Francisco. He is also survived by three sisters, Mrs. Adda McIntire, Salem; Mrs. E. J. Stull, Long Beach, California; and Mrs. Olive P. Gilson, Lebanon; and by two brothers, Frank S. of Portland, and William of Corvallis. Mr. Thompson was a past master in Masonic lodge No. 4 and past patron of Chadwick chapter, No. 37 of the Order of the Eastern Star. Funeral services will be held at 2 o'clock Monday from the Clough-Taylor funeral parlors.

Watt
John Watt, 80 years old, died Friday at a local hospital. He is survived by his widow, and five children, Mrs. W. A. McClew and Mrs. A. F. Marcus of Salem; Mrs. John D. Barnwell of El Paso, Texas; Dr. Ernest P. Watt of Portland; and Mrs. Thomas B. Watt of Tillamook. He is also survived by 13 grandchildren and one brother, George Watt of Rockaway. He was a member of the Presbyterian church of Portland. Private funeral services will be held Saturday from Clough-Taylor at 2 o'clock. Interment Odd Fellows cemetery.

MARKET ROADS BUILT RAPIDLY

1929 Construction Program In This County Beyond Expectations

Marion county's market road program for 1929 went well over its quota of improved road as based upon the five year program of 160 miles as laid out last year. This year, figures and data compiled by County Engineer Swartz, revealed there has been 37.11 miles graded and 4.78 miles paved. The paved stretch includes 4.13 miles on the Salem-St. Paul market road and .65 of a mile on the Spong road.

The following is a summary of the roads included in the 37.11 miles of graded highway:

Stacyon - West Stacyon road, market road 32, 1.19 miles.
Pacific highway at Brooks to Labish, market road 37, 2.62 miles.
Gervais, Simmons church, Macleay road, market road 51, 3.60 miles.
Livesley, Halls Ferry, Independence road, market road 53, 4.50 miles.
Rosedale, Fairview, Buena Vista road, market road 54, 6.53 miles.
Highway, from school, county line road, market road 57, 1.96 miles.
West Woodburn, Checkerboard, Gervais road, market road 72, .32 mile.
Mt. Angel-Gervais road, market road 73, 4.23 miles.
Monitor, Silverton road, market road 74, 3.61 miles.
Silverton, Northeast, market road 75, 1.41 miles.
Siegmund road, market road 83, 2.84 miles.
Mehama, Taylor's camp road, market road 84, 2.14 miles.
Aumville, Shaw road, market road 85, 2.46 miles.
