Brixnut Proving One Of Best Western Filberts

GERVAIS, November 23.—A new nut in the filbert family, the Brixnut, is becoming quite widely known and at present is receiving much favorable comment. C. T. Bixey, whose home is two and one-half miles south of Gervais, is the instigator of this new nut and he has been working six years to bring it to its present state of perfection. This new filbert is self-hulling; it is larger in size, the shell is thinner and softer and easier to crack, it is richer in flavor and there is not so much of the brown pellicle which adheres to the kernel of other filberts. In the years it has been under observation it has never missed a crop and no crop has ever contained more than one per cent of blanks.

The Brixnut has sold for a higher price, as in the Portland market they have retailed at 60 cents per pound. About 25,000 trees have been planted during the last eight years and a Brixnut club, which is known as the Pacific Coast Brixnut association has been organized. At the meeting in McMinnville last May, Mr. Bixey was made a life member of the association. Before coming to Oregon Mr. Bixey was foreman of the Stark nurseries in Missouri. A prominent horticulturist has advised those planting orchards to plant only the best in order to be able to compete with foreign trade and suggests the Brixnut and Hall's Giant as the best two for this purpose.

Property loss to be over million ST. JOHN'S, N. F., Nov. 23.—(AP)—First reliable estimates of the damage caused along the southern coast of the Durling Peninsula Monday night by the tidal wave which followed upon the earthquake began trickling in today.

The property loss will not be less than a million dollars, George Bartlett, a merchant in the town of Burin, said today. He came here heading a delegation of citizens seeking government aid for the stricken fishing villages of the waveswept districts.

Bartlett said he was on board a boat tied at the Birin dock when the wall of water rushed down the narrow rockbound inlet. There was a mighty roar, a swish of spray and suddenly the vessel was lifted high into the air.

Bartlett ran out on deck and saw that the boat had then been carried several feet above the dock. A store he conducted alongside the wharf was washed away and carried into a field yards away from the waterfront. Screams and cries for help came out of the night from all sides of him.

For a SORE throat

A sore throat may be eased by gargling just once, with quarter of a glass of water in which you have dissolved two tablets of Bayer Aspirin.

You may have to repeat the treatment for a deep-seated inflammation like tonsillitis, but Bayer Aspirin is the one thing that reduces the infection.

Don't forget this most sensible of all treatments for sore throat. The one the nurses all know; the one which all doctors concede to be effective. And remember its quick relief of neuralgia, neuritis, rheumatism, lumbago and the like. Use it to break-up any cold, or to dispel a headache. It does not depress the heart. Aspirin is the trade mark of Bayer manufacture of monosodiumascitater of salicylicacid.
