A. A. U. W. Meeting Is Delightful Event

The afternoon meeting of the A. A. U. W. at the home of A. N. Bush Saturday afternoon was one of the outstanding meetings of the year. Prof. M. E. Peck of Willamette university gave an extremely interesting lecture on the subject, "Supper-air craft or the flight of birds," discussing in a fascinating manner the origin of bird life from the lowest forms of creeping animal life and with this origin he contrasted the present state of flying in the life of man in regard to airplanes.

Mrs. Alice H. Doid spoke most interestingly concerning several art treasures of the Bush home.

At the business meeting Mrs. A. A. Fisher explained the newest project of the A. A. U. W. of Oregon. This organization has had made through the efforts of Oregon and Oregon publishers, and Oregon authors a United Map of Oregon suitable for fire-places, schools, or any other place where a map of Oregon would be needed. These maps will be sold by the A. A. U. W. organizations for the purpose of swelling the quota of Oregon for the one million dollar scholarship fund which the national organization is sponsoring.

Tea was served at a late hour in the afternoon. Miss Alice Brown presided at the tea urns.

Let our doughnuts help you travel the road to good health. They are a perfectly balanced food, brimful of nutrition and energy . . . a distinctly different flavor and a royal treat when your appetite needs a little coaxing.
