A tastefully lighted doorway says "welcome." The archway or doorway may be outlined with lights twisted about strands of evergreen boughs. White or yellow lamps are suggested for this purpose. Small evergreens placed on either side of the door and illuminated with colored lights make a very attractive entrance.

Where the doorway is outlined as suggested above one star is the top, perhaps supplemented by two smaller ones on each side, adds to the effect. Lighted wreaths in the windows

are perhaps the easiest and best of the simple decorations. Colored flood lights are often used to enhance the effectiveness and beauty of certain types of displays.

Many special decorative lighting devices such as wreaths, candles, and luminous stars add to the variety of effects that can be obtained.
