

# Neighborhood Grocery Store Opens Today

## MARR'S NEW STORE WILL OPEN TODAY

One of Salem's most attractive suburban groceries will open this morning when the Marr Grocery at 17 and Market street will make its formal bow to Salem. The store building has been entirely made over, both inside and out. The materials used were furnished by the Spaulding Logging company and are of excellent quality. The store presents an attractive appearance and is so arranged as to present the stock to the best advantage and to give the best of service to customers.

John G. Marr, the proprietor is an experienced grocer and has devoted much time and expense to preparing the new store to serve the people of Salem. Up to date equipment, attractive stock and the best of accommodations in the way of efficient clerks and delivery service are promised.

The Marr Grocery will feature Preferred Stock canned goods and Hillman Butter and Snowflake bread, manufactured by Salem's own Cherry City Bakery.

Food, including the meats from Midget Market will be kept in perfect condition by the Electro Kold refrigeration system installed by Hamilton Furniture company. Wiring and electric work was done by the Eoff Electric Co.

That Mr. Marr is a real business man is demonstrated by the

fact that he has protected his business against both fire and theft, the policies being with the Northwestern Mutual Fire and Northwest Casualty Insurance companies.

The kiddies are not forgotten in this store either because school supplies will be a part of the

stock. Also, each youngster who visits the store today, accompanied by a parent, will receive a free bag of candy.

French railways will relieve the monotony of travel by installing regular radio service on the principal Paris-Havre expresses.

**CHICKEN POX APPEARS SILVERTON,** December 10—A number of cases of chickenpox have been reported at Silverton recently among the school children. A number of the children were sent home from school who showed indications of having chickenpox, it was reported. All

of the children who are affected have the disease in a light form, it is said.

The Kansas state board of health estimates that more than 75 per cent of all Kansas children between five and 14 have physical defects of some nature.
