A Religious Experiment

EUGENE is to be the scene of an experiment in religion starting with the new year, when Rev. Fred J. Clark of that city will initiate what he calls a "Symbiosis" service, susing the Colonial theatre there on Sunday afternoons. Rev. Clark was for a number of years pastor of the First Congregational church of Eugene. Some months ago he resigned to carry on lecture and mission work; recently he has been engaged in the service station business for self-support.

Rev. Clark declares his independence of denominationalism on the ground that the church as it is now enchains one's personal God; and what religion needs is greater freedom. For his services he plans increased variety and flexibility. "No fixed order of worship. Brilliant music; we will robably use several trumpets beside organ and voices. The message will be brought largely in story-form-dramatic book-sermons, using well known and popular novels, poems and the like, as well as magazine articles."

The type of his organization promises to be unique. By renting a theatre he will get away from heavy financial burdens. People may come only out of desire and not from a

sense of duty. He is quoted: "The most dramatic difference is in the method of financing the enterprise. There will be no begging, no 'collections lifted with laughter,' no financial appeals. There will be no financial control by large givers. Neither will there be any religious spongers, for people will pay a moderate price at the door, thus saving self-respect. There will be no prominent members' fingers around the windpipe of the

The personal credo of Rev. Clark does not take him into the camp of the "liberal" or humanist churches. He says: Like them I accept the findings of modern science applied to the Bible and everything else. But the liberal is busy searching for a buman Jesus and a naturalistic explanation of religious experience, and putting an ice-pack on every religious emotion. I admit that the figure of the Christ in the Bible may be largely symbolical. But I am not interested in searching out some human rabbi of 1900 years ago who may be behind that figure.

"The New Testament Jesus is God: and I am convinced that it is a valid, authentic and authoritative revelation of God. It is God who forms the center of my interest and worship; not a man. Only is so great that men ought to get excited about it, and be happy in it."

Rev. Clark is known as an able preacher, a sincere thinker and of the highest personal repute. His venture is singular; and there may be enough folk in Eugene who are discontented with organized churches that they will be attracted to this theatre-service in numbers that may assure its continuance. The Clark experiment's freedom from commercialism and from vagaries about healing and such practices are all too rare among modern cults.

With all the trend toward "church unity" there is going on at the same time the process of division. Despite the 220 divisions of the Christian church some folk do not find the groove in which they fit, so they nucleate new groups in their effort to find satisfying religious expression.

Oregon folk feel very badly if the visit of their youth cree of Caesar Augustus. Matthew proved so disconcerting to the social customs of the southern city. The Eugene Register describes Portland as something of a "cantankerous old maid." Not far wrong, at that,
