"WARM FOR WINTER DAYS"
Pattern 7666
Statesman 15c Practical Pattern
Isn't this a smart little top coat for a smart little girl? It features raglan shoulders, so much in favor this season with both grown-up and miniature fashionables. The snug collar, cuffs and pocket trimmings are developed in fur. Attractive buttons fasten the garment at the left front. Many fabrics suggest themselves for Design 7666—velour, chin-chilla cloth, heavy tweed or velvet. If jersey is used for the lining, additional warmth will be given. Becoming furs for the small top include beaver, nutria, squirrel and seal.
May be obtained only in sizes 2, 4 and 6. Size 4 requires 1 1/2 yards of 54 inch material.
No dressmaking experience is necessary to make this model. The pattern has ample and exact instructions. Yardsage is given for every size. A perfect fit is guaranteed.

The Beauty Follett Box

Regularly shampooed hair, polished finger nails, shoes a-shimmer, stockings immaculate, hanky fresh and clean, complexion without a blemish, garments well brushed—these are the requirements of a civilized existence. To call women vain because they take an interest in these matters is to do them an injustice. A good appearance is necessary to health, because of its effect upon the spirit, and it is an essential prop to self-respect and an optimistic view of life.

The slump of the shingle broke the flapper market. When the gals started to grow rear hair fashion took a step forward, or maybe backward, we haven't found out yet. At any rate, skirts lengthened, ruffles, bushed out skirts, waist, lines rise, the curly-duricles let their ambrosial locks dangle round their necks and there was a rumor of bustles flying round the globe. All because the shearing ceased! What do you make of that, Watson?

Sage tea acts as a mild coloring agent for the hair and performs its presto change act best upon hair that is light or medium brown. Steep one-half ounce of the leaves in a pint of water, strain, cool and add a tablespoonful of rubbing alcohol. Apply to the hair with a toothbrush. Applications must be repeated every six weeks or so.

Under garments should be loose enough to give freedom of movement, but they should be cut to fit the figure precisely and exactly. Plump ladies especially must see that there is no excess waste material in their under duds to bunch up in folds and spoil the fit of a frock.

It is very la-la to have one's hat made to order. "Raw" hats are trotted out, the desired color is selected and the chapeau is carved, snipped and folded to provide those precise lines that are necessary if the cash-corn-customer is to "look like that!" The hat is the most important detail of the sartorial composition.

"Bad teeth, uncaared for teeth, discolored teeth put the candidate for good looks out of the running. No sense in not having good teeth, unless there is an inherited deficiency of dentine materials, these calcified substances of which teeth are composed. Brushing twice a day, rinsing with a mouth wash twice a day (immediately following the brushing), proper use of dental floss and the habit of chewing hard food for the sake of polishing one's little pearls aren't tasks that make heavy inroads upon the day's time and activity. Oh, yes! and don't forget the visit to the dentist every six months.

First Bottle Helped Her
Keeps On Taking Lydia E. Pinkham's Vegetable Compound
Philadelphia, Pa.—"I always use Lydia E. Pinkham's Vegetable Compound before and after childbirth. I am a mother of three children—two little girls and a baby boy. I would get run-down, nervous, dizzy and weak sometimes. I had to lie in bed. I would take the Vegetable Compound as a tonic and I always saw an improvement after taking the first bottle. I found it to be a good tonic. I always recommend my medicine to my friends and I cannot speak too highly of them."—Mrs. ANNA LOUWERBACK, 1007 S. Front Street, Phila., Pa.
