HUBBARD HAS WATCH PARTY

Management of Mineral Springs Hotel Sponsors Gala Affair

HUBBARD, Jan. 2.—The Hubbard Mineral Springs hotel was the scene of two gay social events New Year's eve when Mr. and Mrs. H. F. Cutting, the new management, held open houses at a watch party in the new lobby and Mrs. L. A. Beckman and Mrs. Ivan Stewart were hostesses at a 7 o'clock bridge dinner in the old lobby.

The Silverton community orchestra with Hal Campbell, director, furnished the musical part of the program. "Atlantis," a four movement selection was featured by the orchestra. Other musical numbers were a violin solo, "Song of Songs," by J. Small; piccolo solo by Steve Schmidt of Mt. Angel; violin solo "Spanish Rhapsody," by Miss Irene Morley who also played "The Rosary" by request; violin solo, "Gypsy Serenade," by Miss Bertha Alm and a piano solo by Miss G. Russell. Hal Campbell was accompanist for all the solos.

Dr. C. H. Sauve of Mt. Angel, 65 years of age, directed the orchestra when the selection, "Connecticut March" was played. Doctor Sauve was introduced and responded with a talk on "Talent in Small Communities." The doctor was the first violin teacher of Miss Irene Morley, Silverton's violinist.

Other talks were made by "Hy" Everding, Dr. P. O. Riley and Bill Stepp, former sport editor of the Portland Daily News. Dr. A. F. de Lespinaise, cornet and his daughter Miss Marie, saxophone, played with the Silverton orchestra. Dr. de Lespinaise is leader of the Hubbard community band and also of the Hubbard high school orchestra and Miss Marie is a member of both the Hubbard band and the high school orchestra.

At 12 o'clock all joined hands and sang, "Auld Lang Syne." Then whoopee began as everybody was furnished with a noise making device by the management and each vied with the other in making a noise.

The bridge party guests and a few from the Rebekah watch party joined the merry-makers in the new lobby and dancing was enjoyed till 1:00 o'clock when the party broke up. The hotel guests and "Hy" Everding's special guests for the evening, Mr. and Mrs. Bill Stepp, remained till 2:00 o'clock. Refreshments, consisting of punch and wafers, were served.

At the bridge dinner and watch party held in the old lobby of the hotel the season's colors were carried out in the decorations and favors.

Following the dinner, five tables of bridge were in play. High honors were won by Mr. and Mrs. Ed. Erickson. The prizes were a radio log and an embroidered centerpiece.

With noise makers provided by the hostesses, Mrs. Beckman and Mrs. Stewart and also by Mrs. Cutting the bridge guests were able to greatly increase the volume of noise when they joined the

It is to beg Miss Banky's pardon for trying to make her appear in the wrong picture. She is at the Capitol today and tomorrow in "This is Heaven" and the picture has nothing to do with a hysterical night, even though it is one concerning the problems of the immigrant.

"Dynamite" appearing for the last time today is a powerful picture both in tense dramatic situations and from the standpoint of artistic and scientific productions. It is worthy of the man who directed it—Cecil B. DeMille and makes another landmark to his credit as the first talking picture for which he has been responsible. Kay Johnson takes a big part on the screen for the first time in this picture and it is predicted that she has far to go if her ability keeps up to the mark set in "Dynamite."

Tonight is the last night of the Frazier players for another week. They have given a very interesting interpretation of a very funny comedy, "The Town Marshal."

"In Old California," at the Hollywood, is an artistic picture of love and adventure during the early days of this country when romance seemed to thrive with unusual brilliance and beauty.

NEW FORD OWNERS

... this hint may save you trouble:

Your "Model A" will stand up better, run smoother, if you avoid oils that form quantities of hard carbon.

Even the costliest oils form more carbon. A sample of this oil, when burned, left more than three times as much as Shell Motor Oil.

An equal sample of Shell Motor Oil left only this small fraction of carbon—and it is a soft, sooty kind that blows easily away.

It is almost unbelievable what these new Model A Fords will stand. They'll even stand abuse! But you probably didn't buy yours to abuse. You wanted its speed, its economy of upkeep, long life, smooth running.

And it is to help you to get these things that we urge you to watch your lubrication.

Particularly, your motor oil: Many otherwise good oils form layers of hard, gritty carbon inside your motor. This sort of carbon chips off and chafes up and down the cylinder walls. Bits of it get under valves and hold them open to waste power and to burn the valve stems. Hard carbon starts a regular chain of troubles that shorten the life of any car.

To escape hard carbon you simply choose an oil that leaves none. Shell Motor Oil, when it burns, forms only a little soft soot—fluffy and light—a kind of carbon that can blow harmlessly away with the exhaust gases.

Insist that Shell Motor Oil be used to refill your Ford crankcase. You have a right to all the extra miles your car can give—and you'll get them with this fine lubricant that protects you from the hard carbon menace.
