# Throughout the Year RICHFIELD wins AGAIN and AGAIN!

**S**MASHING speedway victories. Magnificent flying achievements. Sensational triumphs on water. World's speed records. World's endurance records. International trophies. Victory following victory month after month throughout the year. The greatest competitive record ever established by any gasoline. Richfield in the past decade, has won more speedway victories and world's records than all other gasolines combined. Its impressive list of achievements during 1929 points the way to an even more brilliant performance for the coming year.

**IN THE AIR**  
The "Question Mark" army flight, first of the great endurance flights breaking all previous distance and duration records was made with Richfield. Bobbie Trout used Richfield gasoline when she brought back to the West the World's endurance record for Women. The solo endurance record of Herbert J. Fahy was another triumph for Richfield as was the sensational "Angeleno" endurance flight made a few weeks later. When Tex

Rankin completed the first official Canada to Mexico flight he made a fuel economy record of 18 1/2 miles per gallon with Richfield. Norman Goddard also made a unique record with the "Gasoline of Power" by winning 26 events in local air meets throughout California. Among Richfield's most famous achievements in the air are its records during the National Air Races; in the spectacular transcontinental non-stop flights of Art Goebel and Captain Wilkins 2300-mile dash across the North Pole, perhaps the most hazardous flight in the annals of aviation.

**ON WATER**  
Richfield piled up an impressive list of victories in the racing regattas this season. Palm Beach and Sarasota saw two triumphs for the "Gasoline of Power"; at Mt. Dora, new world's records with Richfield gasoline in both the limited and unlimited class 151 hydroplanes. At Southampton, England, Ralph Snoddy, using Rich-

field gasoline, won the famous Duke of York trophy and followed this triumph with a new world's record for 1 1/2 litre hydroplanes at Balboa, California. In the Outboard class, Richfield won new laurels when H. G. Ferguson established a new world's record of 49.165 m.p.h., the fastest time ever made by an outboard motor.

**ON LAND**  
Here are a few of the Speedway stars in the Richfield firmament for 1929:—Lou Meyer—1928-1929 National A.A.A. Speedway Champion and winner at Altoona, Pa.
