SALEM ON INCREASE

Soundness of industry and business in general, in Salem, is reflected by the fact that the total of deposits in the three local banks is slightly greater than the figures of a year ago, although reductions in deposits are being reported in numerous other communities throughout the United States.

The increase amounts to only \$5,741.02, but that is a much better showing than is being made by most communities. The total at the close of 1929 was \$11.745,273.79 as compared to \$11,739,532.77 just a year pre-

vious. Bank resources were increased more markedly, the rise amounting to \$145.757.71. The total resources of the three banks now amounts to \$13,300,742.95.
