

FRUITLAND IS ON WARPATH

People Are Tired of Promises Better Road; Community Club to Act

FRUITLAND, Jan. 4.—The Fruitland Community club had a very successful meeting Friday evening and started the new year off with a bang. The people of the community decided that in order to have anything accomplished they must all work together and when they plan to do something—do it. They have decided to get electric lights and to get the road paved.

About two years ago the people in this district drew up a petition, which was signed by all tax payers, and given to the county officials in the expectation of getting the road paved. The county court readily saw that it was necessary to do something to quiet them down.

Instead of doing as they should they tried an experiment road, which has not proven successful, as can be very well witnessed by the many people who have to travel it several times daily. The people are now going to see that the road is paved before they stop their investigation.

The county court acted on the petition as they wanted to and now have failed. The people of the community decided Friday evening that they would go to any extent in order to get the paved road requested in the first petition.

Mrs. W. S. Snyder has returned from a week's visit at Pendleton. She reports the weather fine in that section, except that snow was falling at Cascade Locks as she returned.

Rickey

RICKEY, Jan. 4.—The sympathy of the community is extended to the L. Dickman family in their recent bereavement in the death of Mrs. Dickman's mother, Grandma Gaski. Grandma was past 83 years old and has held the honor of being the oldest member of the community for several years. Grandma was especially interested in the children of the neighborhood and after she was unable to get around much used to sit by the window and watch for the children as they went and came from school.

WESTERN Mother's Experience shows what can be done with children

HARSH corrective measures are seldom necessary with a child. Most modern parents recognize this. That's the reason so many agree on this gentler means of putting a child in order when had breath, coated tongue, headaches, biliousness or upset tummy of a clogged digestive tract.

When used at the first sign of bad breath or feverishness, a spoonful of California Fig Syrup often does the work! Sometimes several doses are necessary. Always you can depend on its use to clear the system harmoniously and in a hurry; to give the child

a new start by regulating and strengthening the stomach and bowels.

Mothers by thousands praise the gentle effectiveness of this rich, fruity product which all children love. Mrs. D. H. Keating, 1818 Hays St., San Antonio, says: "Nothing I know can take the place of California Fig Syrup in my home. It has been a blessing to my little girl during colds and upset spells. It always has her right in a jiffy."

Worries like these and sales of four million bottles a year show how mothers depend on California Fig Syrup. One caution. The name "California" on the carton marks the genuine, in-makes for 50 years.
