Cunningham was requested to examine the dam to determine its condition, and the cost of necessary repairs. His report indicated that the dam could be rebuilt at a reasonable cost and made serviceable for a period of 20 years.

SWEETEN ACID STOMACH THIS PLEASANT WAY

When people experience distress two hours after eating—suffer from heartburn, gas, indigestion—nine times out of ten it's excess acid that's causing their trouble.

The best way—the quickest way to correct this is with an alkali. And Phillips Milk of Magnesia is an alkali, in the harmless, most pleasant and palatable form, it's the form physicians prescribe; which the hospitals use; which millions have come to depend upon in over 50 years of steadily increasing use.

A spoonful of Phillips Milk of Magnesia in a glass of water neutralizes many times its volume in excess acid; and does it at once. In five minutes, the symptoms of excess acid disappear. To know this perfect way is to be through with crude methods forever.

Be sure to get genuine Phillips Milk of Magnesia. A less perfect product may not act the same. All drug stores have the generous 25c and 50c bottles. Full directions for its many uses are always in the package.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of the Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875.

COMIC OPERETTA TO BE PRESENTED SOON

The most interesting musical entertainment to be presented this month in Salem will be the comic operetta, "Fire Prince," to be given at the high school auditorium, January 17.

The advanced chorus class of Lena Belle Tartar, head of the high school music department, has been rehearsing for a month in preparation for the event and the orchestra has had the manuscript scores for two weeks.

The "Fire Prince" is one of the most interesting compositions written for high schools, coming from the pen of Henry Hadley, present conductor of the Manhattan orchestra of New York City. The story is a mythical one which involves an imaginary fire drake and interwoven is the usual pretty little story of romance. Scenes are Spanish and the characterizations include royalty, servants, attendants, Spanish ladies and fairies.
