No use telling women to walk five miles a day. Few women have time to walk even two miles. Yet they must manage it. If something isn't done pretty soon, legs will shrivel into mere stumps from lack of exercise. Walking inspires good appetite, good appetite means good digestion, good digestion means clear eyes, skin of fine texture, healthy hair growth and amiability.

## The Beauty Box

In time far gone moles were regarded as the marks of Satan. The prehistoric dame who was thus afflicted was shunned by the social elite. In the reign of Louis XV a mole became a beauty spot, and lovely creatures who didn't have them, painted them on their cheeks. Now nobody wants them. They can be removed by means of the electric needle or by carbon dioxide snow. The X-ray is also used with satisfactory results. Wrinkles touched with castor oil every night for two weeks will pack up and vanish.

Hangnails are self-inflicted. They are the result of neglect. By applying cream at night the cuticle at the base and sides of the finger nails will be kept soft, pliant and detached. When the fine edge adheres to the nail it is carried upward as it grows out of the matrix. In time it can go no further, so it tears. There is an abrasion, the raw flesh is exposed and a hangnail results.

Too rapid reducing won't do. Dieting results from underfeeding and comes on so insidiously that it is often far advanced before the condition is discovered. The spirits decline. Small daily tasks become nightmares. While dieting, there must be sufficient food taken into the system to protect it from tissue loss. No plump individual should delete more than one pound a week when reducing.

The afternoon was spent in visiting, music and games. Mrs. Frink won the prize in the Memory Test.

Mrs. Gilliam was assisted in serving the lovely birthday cake and ices by Mrs. Sieleath and Mrs. Stewart.

There is this to be said in favor of longer hair: it offers greater opportunities for designing the distinctive hair-do. Yet, there are many women who refuse to extend their short ends into Godiva strands. Mainly because the short shock is easier to shampoo and less trouble than coils anchored with hairpins. It is with hair as it is with skirts; short or long, you take your choice.

Charming manners are expressions of a thoughtful mind and a kindly heart, and are a necessary element of the composition of beauty. Some girls mistake mannerisms for manners. Mannerisms are affectations and gestures and are usually irritating to the onlooker. To be reasonable, tolerant and amiable is to avoid social pitfalls and misunderstandings.

The McDowell program, which has some colorful offerings, will be presented in Waller hall, Thursday evening, January 23.
