Constitution Adopted at First Regular Meeting of Local Organization

CENTRAL HOWELL, January 13.—The newly organized Central Howell community club had their first regular meeting Friday evening and a very good crowd was present in spite of the cold weather.

The committee on constitution reported and the constitution as drawn up by them was adopted. Plans were made to purchase new curtains for the stage as they will be needed when the play which is being practiced is given.

Program Committee Named

Verna Van Cleave, Jake Kaufman and M. J. Tweed were appointed as program committee for the next meeting which will be February 11. Mrs. Kuenzi and Mrs. Wilcox will have charge of the lunch.

Following the business meeting a program was given and lunch was served after that. The program was: song, "The Star Spangled Banner" by community; song by Irene Nafziger; recitation by Donald Steffen; instrumental music by the Tweed orchestra; solos by Harry Gwin of Salem; reading by Jeane Lauderback.

DALLAS HIGH PLAY IS WELL STAGED

DALLAS, Jan. 13.—"The Palsy," a three act comedy, was presented by the senior class at the high school auditorium Friday night. The play was very good but there was only a fair crowd out to see it. The weather was so cold that many people didn't want to venture out and those that did were divided between the play and the show down town.

The play deals with the ups and downs of a modern family. It shows all the petty quarrels that arise and gives a very amusing picture as to how Patricia Harrington gets her man and how Mr. Harrington gets control over his wife.

Between the second and third acts, Leander Quiring presented Miss Margaret Coshun with a floral gift, in appreciation of the work done by her in directing the play and making it a success.

The cast of the play was: Mrs. Harrington, Ethel Eberling; Mr. Harrington, Fred Teats; Grace Harrington, Minnie Sanders; Patricia Harrington, Louise Fletcher; Billy Caldwell, Norman Classen; Tony Anderson, Abel Uglow; Sadie Buchanan, Gladys Lynn; Dietrich Eisenbach, David Peters; "Trip" Busty, Ervin Pielt.

The production staff: Director, Miss Margaret Coshun; business manager, Leander Quiring; stage manager, Harry Kerr; property managers, Muriel Kelley, Gladys Uglow.

The Christian Endeavor will meet at 7:30 Sunday, Jan. 19. There will be a report given of the Institute at Salem.

Miss Carolyn Johnson of Seattle was a week-end guest of her brothers, Albert and F. O. Johnson.

INDEPENDENCE HAS BUSY GIRLS' LEAGUE

INDEPENDENCE, Jan. 13.—Two songs opened the Girls' League meeting Friday. In the absence of the president, Marjorie Winder, the vice president, Celesta Cutbert, called the meeting to order.

The Mothers' tea was discussed and it was finally decided to hold it January 18. The girls are going to give a tea for their mothers to give them a chance to become better acquainted, not only with the other mothers but with the girls too. Another object is to give the women a chance to know what the league is like. Gladys Murphy was appointed chairman of the tea.

Plans for the program that will be given later, were discussed and it was decided to carry out a private idea as nearly as possible and to present the new league song at that time.

WHEAT AND OATS DAMAGED BY FREEZE

PRATUM, Jan. 13.—Where land is extremely wet it is feared that a lot of damage has been done already to oats and wheat, but the total amount of damage as a result of the cold spell will

largely depend on the amount of alternate thawing and freezing weather before the next rain.

Mr. and Mrs. George Kleen attended church at Liberal last Sunday.

The play given at the schoolhouse Friday evening by West Salem young folks was well attended under the circumstances.

G. H. Thompson and Mrs. Henry Schroeder are on the sick list.

About the usual amount of pipes will need to be repaired again when the cold spell is over.

If we had more cold weather, pipes would be protected but since we live in the Willamette valley with its mild climate we go through the same routine every five or ten years of fixing water systems. Some day we may learn to have our water pipes protected.
