The Beauty By HELEN FOLLETT

Keep active, beauty-seeker. Keep busy. You can throw away the rouge compact if you exercise. The capillaries which give color to the cheeks are so tiny that their walls are transparent; they allow the passage of a single corpuscle at a time. Muscular activity stimulates the capillary system, cheeks get rosy, blue lips redden, wan complexions lose their waxy whiteness. No woman can be lazy and enjoy the vivid beauty that comes from vitality and health.

No woman should frown with rouge and lipstick unless she learns something about playing the make-up game properly. Some young ladies who would have lips like the hearts of red cherries ply the lipstick without the aid of mirror, with results that throw the human phis into a color riot, paint smearing the white skin surface around the mouth, even putting a counterfeited blush upon the teeth. Liquid rouge particularly requires the steady hand and the discriminating eye.

To discourage frowns between the eyes, anoint with a heavy cream, place the thumb at the lower end, the first finger at the upper; hold thumb stationary, iron and smooth with the finger. Lines traveling straight across the forehead should be treated to a light tapping and a rotary movement. The massage cream should remain on over night; the skin laps it up and loves it.

The whoopee coiffure with many fussy curls has been tried and found wanting. It is condemned to die. For why? Because women haven't time to arrange the elaborate hair-do, nor time to have it done often at the beauty parlor.

When the gums recede, break and bleed there is a possibility that pus pockets are forming and dental attention is required. Dip the fingers in tooth paste and massage the gums gently. Circulation is sluggish and the gums need toning.

Women need the muscular exercise as much as men. Mrs. Cave dweller scaled the rocks up to her one-room apartment as briskly as her old man, who probably never thought of giving her a hand or a boost. Movement creates energy; energy builds strength and strength is necessary for endurance. Daily calisthenics, gym work, walking are all helpful and to young women are a guarantee against the middle-age spread. They set one up and chase dull care away.

Correct sitting posture is a matter about which few individuals give a thought, yet it is important for the preservation of the youthful figure and proper functioning of the internal organs. The chair should be of such a height that the feet rest firmly on the floor. Three-fourths of the length of the thighs should rest upon the chair seat. The chair back should be curved, coming forward to give support to the waistline.

Ammonia should never be added to the shampoo suds. It not only destroys the structure of the hair shaft, but changes the color. Borax is a safer water-softening, but even that must be used with discretion, as it is drying. Pure castile soap makes a good shampoo medium, but does the work more quickly if it is melted and allowed to stand for a few days before it is used.

Are you a snatch-and-run eater? Do you know that that bad habit will produce all manner of complexion ills? Rapid eating

Monday evening Mrs. George Hubbs and Mrs. L. C. Eastman were hostesses at a charming bridge party at the home of the former. Mrs. T. P. Risteigen of Portland, and Mrs. Earl Crow and Mrs. J. W. Members of the Nebraska club and other residents of, or visitors to Salem are invited to attend the "no host" dinner to be served at 6 o'clock in the parlors of the Leslie Methodist church Friday evening. Each family is to bring its own table utensils.

The officers for this year for the Woman's Relief corps will take their places in regular meeting for the first time Saturday at 2:30 o'clock at McCormack hall. It is urged that all members be present.

ANOTHER MERGER IS URGED AT HEARING

WASHINGTON, Jan. 15. — (AP) — Consolidation of telegraph companies and telegraph and radio companies was advocated before the senate Interstate Commerce committee today by Clarence H. Mackay, chairman of the board of the Postal Telegraph and Cable corporation, with a prediction that lower rates and better service would result.

Testifying before the committee on the bill of Chairman Cawzen to establish a communications commission, Mackay said he was satisfied with the present control of his business by the Interstate Commerce commission. He pledged support for the legislation if it were enacted, however.

The head of the postal telegraph discussed at length the desire of the International Telephone and Telegraph corporation, with which his companies are affiliated, to acquire the radio communications organization of the Radio Corporation of America.

He said that no unified trans-oceanic service was sought by the merger but explained that if the consolidation were permitted, it would afford his company a better opportunity for competition with the Western Union.

A recipe that you would use if you were to bake bread

SPENDING a half day in the kitchen toiling over a batch of bread isn't necessary any more. But, supposing you wanted to do it, what would you provide for the task? Wouldn't you want a sack of the best western-milled flour you could buy, milk for vitamins, pure shortening, first quality salt and sugar, and Fleischmann's yeast...all thoroughly mixed and leavened and baked to a rich, golden perfection.

Of course you would! You believe there is nothing too good for the health and enjoyment of your family. And you'd give a lot of care to the baking of that batch of bread. Well, that's exactly the recipe for Hillman's Snowflake Butter-Nut Bread. Results speak for themselves. In a full pound and a half loaf, it's just the right, economical size for the average family. Ask your grocer for it today!

Mrs. W. R. Tomison Woman's Club Hostess

SILVERTON — Of outstanding interest to Silverton society folk was the meeting of the Woman's club Monday afternoon at the home of Mrs. W. R. Tomison on McClaine street.

About the rooms were many beautiful and interesting relics which Mrs. Tomison has brought to her home here from Scotland. Beautiful Scotch shawls, bagpipes, a Breidae chair made in the Orkney Islands were among the things displayed. At the pretty appointed tea table where tea was served at an interesting program cozies covered the table-top just as they do in far away Scotland. Mrs. J. Ballentyne presided at the tea table while Mrs. Glenn McDonald, Mrs. Henry Waldner and Mrs. E. V. Johns assisted Mrs. Tomison in serving.

During the program Prof. R. Gretz, superintendent of Silverton schools, gave an interesting and instructive talk on the "Reorganization of the School System in Oregon." He spoke at length on the various changes to be offered at legislation and following his talk a lively discussion was held. Dr. A. J. McCannet, recently returned from several months' stay in Europe, then took the members on a trip through Scotland.

Musical numbers were played by Miss Beryl Ottoway on the violin, accompanied by Miss Blanche Young; and two piano numbers were given by Violet Herregstad. Mrs. G. B. Bentson was in charge of the program.

At the February meeting, patriotism will be the subject. But instead of treating of general patriotism the club will take the subject from the thought that "Patriotism Begins At Home," and will touch on the beauties and benefits of Oregon.

Woman's Alliance Plans Luncheon

Members of the Woman's Alliance plan to have the regular monthly luncheon meeting for the group at 1 o'clock Friday afternoon in the social rooms of the church.

Hostesses for this occasion will be Mrs. Thelma, Mrs. Maude Covington, and Mrs. George Goodrich. Following the luncheon hour a program will be presented.

Mrs. V. J. Minkiewicz will have charge of the music and Mrs. Virginia Bacon will make the feature address of the afternoon. Her topic will be "Adult Education in Oregon." Before coming to Salem as the state librarian of Oregon, Mrs. Bacon had charge of the adult education department of the Portland city library and is particularly qualified to speak on this subject.
