Adams to Medford—O. D. Adams, director of the state board of vocational education, left last night for Medford, where he will spend the week making a survey in the trade, industrial, agricultural and educational fields there in an attempt to set up a model vocational program in the schools there. Some preliminary work has already been done. He will be assisted by James R. Cozen, representing the federal board of vocational education from Washington, D. C., J. W. Kelly, Washington state supervisor of industrial education; and two members of his own office: Miss Frances Wright, supervisor of home economics and Earl R. Cooley, state supervisor of agriculture.

School Schedule Given—With adoption of the new six one-hour period schedule at the two junior high schools, time schedule has been slightly changed. Both schools will convene at 8:45 o'clock in the morning this semester, to run through three hours, dismissing for noon at 11:45 o'clock. The noon hour at Parrish will end at 1:40 o'clock, school to be dismissed at 3:40 for the day. At Leslie, only 45 minutes will be allowed for noon, school to take up again at 12:30 o'clock and to end for the day at 3:30 o'clock. In each school, a rotating schedule will be adopted for assemblies.

MILK PRICES HELD TOO LOW IN SALEM

While Salem consumers are complainant over the reduction in milk prices farmers are faced with the question of how to hang on when milk is selling below cost of production.

The following letter to The Statesman from a local dairyman tells the farmers' side of the story:

"To the Editor:

"The present prices of market milk are below cost of production, and the drop of bottled milk prices is unparallel for. We have promised better prices for our milk when we were asked to make various improvements in line with Salem's present milk ordinance. We know the city dairies claim they are paying a premium over butterfat prices for their milk supply, but analysis will show this to be but an empty dream.

"As nearly as we can find out they are paying 13c over butterfat prices for whole milk. This means if butterfat is 37c, they pay 50c for fat, or \$2.00 a hundred for 4 per cent milk. When a farmer has his cream hauled, the usual charge is 1c per lb. fat. For hauling milk he is charged 25c per cwt. or on a 4 per cent basis 64c per lb. fat. One hundred pounds of 4 per cent milk if separated will yield 10 lbs. of 40 per cent cream and 90 lbs. of skimmed. The latter is worth at least 50c per cwt., 90 lbs. then would be worth 45c, or 113c per lb. fat. So the boosted 13c premium dissolves itself into a 4½c deficit.

"Why does Eugene pay its farmers \$3.00 per cwt. for market milk and retails for 12c? Why does Medford raise its price from 11c to 12c, on the same day that Salem drops her price? If lower prices on churning cream affect the prices of market milk in one place, why do they not in another? Is the lower price of butterfat really the cause of the drop in retail milk? With all regulations to produce better milk why do we have to sell it for as low or lower prices than he who just milks and separates?" "Gopatis."

Circuit Court

Judge Percy R. Kelly will be in his own court, department No. 1, today to hear the case of Aumsville State Bank vs. Ruth Larsen. No jury will be required, the regular jury term being scheduled for February 10. Yesterday, Judge Kelly dismissed two cases which have been before the court for several months. The case of Vetter vs. Boone, which was filed in 1921, was dismissed for want of prosecution as was the case of Griner vs. Powell Motor company.

State vs. Frank Johnson—Johnson, who has been in jail for the past several days, was released upon \$1500 bail. He has been held on a charge of rape involving a young girl from the Donald district.

Brown Speaks at Y.—Dr. John Brown, nationally known authority on athletics will be the principal speaker at the membership dinner at the Y. M. C. A. tonight. He is a member of the national volleyball and basketball rules committees and the Olympic games committee. His topic will be "Olympic Games as Physical Education in Modern Life."

Released on Bail—Frank Johnson, Portland longshoreman, was released from the county jail when he posted \$1500 bail Monday afternoon. Johnson had been held in jail here since his arraignment on a charge of rape preferred against him by a young girl in the Donald vicinity.

Girl Born Here—Mr. and Mrs. Roger McVey, 1145 Norway, are parents of a baby girl, Ruth, born January 31 at the home.

Wallace A. Jenkins vs. H. E. Jenkins—An order of default entered against the defendant was filed with the county clerk Monday.

J. L. Nation vs. Myrtle H. Nation—Defendant's answer and cross complaint filed Monday. She alleges plaintiff is heir to a \$10,000 portion of an estate and is filing a suit for divorce against her in order to rid himself of her. It also claimed that plaintiff was a "loafer" and did not work to support their family. A demand for a divorce with alimony is asked in the cross complaint.

H. A. Taylor vs. B. G. Davidson—A motion to have this case placed upon the trial docket was filed in the county clerk's office.

Bessie Yarnall vs. Wilbur Yarnall—A decree of divorce and custody of a child with a \$15 monthly support fee was granted to the plaintiff Monday.

Peter Stevens vs. William Ballard—Complaint to collect on a past due note and to foreclose upon property. Filed Monday.

More adequate protection for investors in securities, though careful and painstaking examination of offerings by the state corporation department, was advocated by Governor Norblad in a statement here Monday.

Although Governor Norblad did not mention the name of any particular company or security, he indicated that his statement was inspired by the recent failure of the W. B. Fosby company, operated in Oregon, under a permit issued by the corporation

department.

"Interlocking corporations or controlling companies," said Governor Norblad, "acting with one treasurer, have opportunity to resort to dangerous manipulations. It is my opinion that holding com-

panies and other organizations controlling two or more industries of the same character should not be permitted to float securities in Oregon unless it can be proved that each industry has an individual treasurer."

Governor Norblad said he had no complaint to make of the state corporation department, but thought that more frequent and searching examinations might prove beneficial.

AVOID THAT FUTURE SHADOW*

By refraining from over-indulgence, if you would maintain the modern figure of fashion

Women who prize the modern figure with its subtle, seductive curves—men who would keep that trim, proper figure, eat healthfully but not immoderately. Banish excessiveness—eliminate abuses. Be moderate—be moderate in all things, even in smoking. When tempted to excess, when your eyes are bigger than your stomach, reach for a Lucky instead. Coming events cast their shadows before. Avoid that future shadow by avoiding over-indulgence if you would maintain the lithe, youthful, modern figure.

Lucky Strike, the finest Cigarette a man ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Everyone knows that heat purifies and so "TOASTING" not only removes impurities but adds to the flavor and improves the taste.

"Coming events cast their shadows before"

"It's toasted"
Your Throat Protection against irritation—against cough.

Be Moderate!... Don't jeopardize the modern form by drastic diets, harmful reducing girdles, fake reducing tablets or other quack "anti-fat" remedies condemned by the Medical profession! Millions of dollars each year are wasted on these ridiculous and dangerous nostrums. Be Sensible! Be Moderate! We do not represent that smoking Lucky Strike Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a Lucky" instead, you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.
