What Do You See?

You will see only what comes within the range of your vision. If you eyesight is defective that range may be reduced to such a dangerous limit that the "CROSSING SAFETY SIGNAL" may convey no message to you. All because you cannot see it quick enough.

Defective eyesight is responsible for many ills of humanity. Many accidents that result in death could be avoided if the eyes were performing their proper function.

People have learned, and are learning, that it is dangerous to gamble with their eyesight. You cannot afford to take a chance. Why should you?

Your eyesight is one of the greatest blessings God has bestowed upon you. A gift you cannot replace. You should neglect no warning which nature gives to you. The danger signals which she flashes—but go at once to a competent Optometrist.

A safe driver should consider it part of his efficiency to have his eyes examined by a competent Optometrist.

It is to the intelligence of the public, the press and the educators that we must look for the elimination of fifty per cent of all motor accidents.

The moment you feel the slightest distress in your eyes, or notice a dimming of your vision you are being warned that something is wrong and that your eyes are being used under improper conditions.

You should give your eyes the benefit of the best eyesight service science and skill can offer. That's Optometric Service, as practiced by the competent Optometrist.

Dr. W. B. Caldwell's SYRUP PEPSIN A Doctor's Family Laxative

Old doctor's idea still helping Elderly People conquer constipation

DR. CALDWELL made a startling discovery shortly after he graduated from medical school back in 1875. He found great numbers—especially older men and women—suffering from constipation, who were taking harsh laxatives and purgatives. So he concluded that many things people take for constipation do more harm than good, and physicians of today are of the same opinion. This thought made Dr. Caldwell conduct a search, and out of it came the prescription which made him famous. Over and over he wrote it, when he found people bilious, headachy, out-of-sorts, weak or feverish; with coated tongues, bad breath, no appetite or energy. Its action was so thorough even in the most obstinate cases, and yet so gentle with women and children. The product you get from your drug store, today, when you ask for Dr. Caldwell's Syrup Pepsin is put up exactly in accordance with this prescription. It has become the world's most popular laxative. It is a pleasant tasting mixture of fresh herbs and other pure ingredients; it is a real corrective for constipation for men, women and children.
