

# 4 H CLUBS OF POLK ACTIVE

DALLAS, Feb. 13—Boys and girls are rapidly taking up the organization of 4-H clubs in agriculture and home economics for the present year. Several clubs have already been organized and others are being organized each week according to the county superintendent and county agent who handle this work jointly.

Quite a few of the home economics clubs are well along with their work and livestock projects are getting under way.

Saturday morning of this week a group of the Jersey calf club members of the county have been called to meet in conjunction with the county Jersey cattle club in the late theater in Independence for the purpose of reorganizing for the new year. In the afternoon County Agent Beck states that he plans or reorganizing the Monmouth Angora Goat club which has been so successful during recent years. This meeting will be at the James Riddell farm north of Monmouth.

Last year the club projects of the young folks of this county amounted to a gross valuation of \$10,671.95 with records taken from the 269 boys and girls that completed their projects. Half of this valuation is in the calf club project alone. Fifteen of the clubs completed their work 100 per cent. Club work has become well established in Polk county and each year sees some new achievement hung up by the young folks in competition with the rest of club members of the state. What will 1930 bring?

# A cold does 3 things "Pape's" stop them all

A cold always affects you in at least three ways. Air passages are inflamed and irritated. Perspiration is checked. Bowels are clogged with acid wastes from the mucous discharge. So doctors say you must do three things to be rid of a cold. Pape's Cold Compound does all three! It reduces inflammation and swelling of the mucous membrane; it induces perspiration; opens the bowels. Chew one of these pleasant tablets and see how quickly nasal discharge stops; head clears; breathing becomes easy. See how that achy, feverish, weak feeling disappears. And "Pape's" doesn't stop with killing cold germs. It activates bowels and removes germs and acid wastes from the system. All drug stores—35c. Just remember "Pape's."
