**Goitre Not A Disease**  
**Milwaukee Doctor Makes Remarkable Discovery**

MILWAUKEE, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. E53, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 24 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention, no matter how small the growth may appear. He strongly opposes needless operations. Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today.—Adv.

## GIRL DISAPPEARS FROM MARSHFIELD

MARSHFIELD, Ore., Feb. 15.—(AP)—The second girl disappearance case in Coos county this week was reported here today by Sheriff H. E. Hess.

Florence Woodruff, 15 year old grade school girl of Coquille disappeared from her home last Sunday and no clue as to her whereabouts has been discovered. Authorities said the girl may be with an uncle who resides near Eugene.

However, Eugene authorities said neither the girl nor the uncle, for whom it was reported an insane commitment had been issued, could be found and a statewide search for both has been instituted. Police said the uncle, 65, was fond of the girl and is said to have corresponded with her for some time.

The first disappearance case was sold this week when Bernice Watson, who left her home at Empire, returned and was placed in custody of juvenile authorities.

**In women's hands**

IN THE FREEDOM of women's hands is to be read much of the story of this modern day. Hands that press electric buttons, that lift telephone receivers, that turn the pages of newspapers. Hands no longer fettered by the endless household labors of a generation ago.

In women's hands today are the advertisements in the daily paper. They speak to every woman's judgment. They appeal to her sense of efficiency. They answer her desire for a life unhampered by needless difficulties and restraints.

By helping her in the intelligent management of her household, advertisements free her hands for direction, for pleasure, for the graces of giving. They tell her of products and appliances that lighten her work. They tell her of foods, clothing and equipment that can be advantageously bought. They tell her of countless ways in which she can manage her home more economically and with more success.

In women's hands advertisements are symbols of a new power in a new day. They are eloquent of progress, of comfort, of accomplishment. They serve well. Read them.

Read the advertisements . . . they tell you of the best that comes in; with cargoes for every use
