## Unusual Program Is Y. M. C. A. Offering

One of the outstanding programs of the year will be that to be presented at the Y. M. C. A. for the regular Friday night program. The idea about which it is built is an international scheme. Numbers of music and songs will be given by representatives of various countries many of which will be in the language of that country and given by a native of that country and in several cases upon instruments of the country represented.

Miss Roberta Morton has had charge of planning the program and getting the numbers together. William McGilchrist, Sr. will preside and introduce the performers.

The program is as follows: England will be represented by W. T. Jenks; Ireland by Mrs. C. L. Bowers who will play Irish jigs on the violin and William McGilchrist, Sr., will sing; Scotland, bagpipe music by John Chargo and a solo by Mrs. Gordon McGilchrist; France by violin numbers played by Roy and Ostin Mack; Scandinavian countries will be represented by a quartet: Mr. and Mrs. J. A. Scholath, George Quesseth and Mr. Johnson.

William Blumensberg will play a zither to represent Germany and there will also be a quartet number; Switzerland will be represented by Otto Schindler in singing and yodelling; Italy by Roberta Morton in costume; Spain by William Wright; and the United States by Eleanor and Bobby Branson and as a concluding number the audience will sing "America."

The public is welcome to attend this program.

The most brilliant afternoon affair of several months will be the formal reception and tea given by Mrs. Seymour Jones and Mrs. Hal Patton at the Patton home Saturday afternoon in compliment to Mrs. A. W. Norblad, wife of Governor Norblad.

Social affairs have been quiet since Governor and Mrs. Norblad have been in Salem due to the mourning that the state has been observing. This is the first formal affair to be given for Mrs. Norblad and it is being given a bit earlier than planned in order to avoid Lent; but now that social affairs have again started there will be several things to follow.

## Oh These Women!

By LEOLA ALLARD

M. A. G. of Montreal writes me "Women who have enough backbone to meet men on their own ground, seldom have to complain about men. Women should never let men know when they are afraid of them or that their happiness depends upon them. Men usually take advantage of that. I'd sooner tell a man to go to the devil than cry if he didn't give me something I wanted. I'm sure it would keep him more interested than tears, tears, TEARS!"

A St. Louis Lassie: "I'm glad you are hitting the bachelors on the beam. I've gone with several of them, that's why I'm still unmarried. They want a good looking girl to take out and the money spent on her is for their own pleasure. Probably keep going with the same one because it's less work than finding another. In the end the girl falls in love and is jilted by him or he just gravitates to another girl to give himself a change of company. Any girl is an idiot to go around with a bachelor for years with any hope that he's going to marry her. If they marry at all it's right off the bat. As soon as they find out that a new one is pretty much like all the others, they get a bachelor quick or abandon hope."

The Spirit of St. Louis! Dead right, too.

Marie of Newark, N. J.: "Sometimes you give the dumbest answers; 'He will come back! (and he never does). 'Forget him, (and you know can't). Please answer my question right, and don't tell me to forget. It's impossible."

"I'd rather have one of his kisses than millions. I never remember to spend money on me, but do men like this better who take, take, take, than those who give, give, give?"

Sometimes I think they do, Marie. If you demand orchids you get at least roses, and certainly not daisies. You want a lover and he wants a pal. You can't demand love like you do right answers. Dear consistent women! (if I'm wrong, write me.)

The rooms were attractively decorated in a color scheme of pink. The table was centered with a beautiful potted plant and pink tapers. Place cards were in the form of nut cups. ## VISITS IN CALIFORNIA

Sinclair Lewis, famed author of "Hobbit," "Main Street," "Elmer Gantry," and other novels, and his wife, the former Dorothy Thompson, noted newspaperwoman, are going to play in California for a month or two before Lewis gets to work on his next novel. They are in San Francisco and are planning on taking a house at Carmel, California's famous art and literary colony. Lewis played prohibition in an interview, declaring he has only met one civilized man who believes in it. The red-headed author predicted a modification of the law, declaring that ten years has shown it to be a failure.

### The Beauty By HELEN FOLLETT BOX

Monotony is a sledge hammer that kills the bloom of youth. No woman who goes through the routine of household duties every day, without some kind of recreation, can keep young and peppy. There should be at least one hour spent out of doors to wash out the lungs with fresh air, to get the benefit of sunshine, to cut loose from the endless small duties of the home. To "live for one's family" may be noble and unselfish but it dulls a woman's wit and beckons on the evidence of the years. Contacts outside the home help to keep a woman on her toes.

Complexion powder should not be rubbed into the skin, but patted on. The old fashioned swan's down pads are better for the skin than those of lamb's wool, though the wool ones are all right if applied lightly. Girls who like to wear their powder thick should remove the surplus fluff with a soft wetted hair brush. Dry rouge should be laid upon a powdered surface, and then powder should be applied over the rouge.

The proper coiffure for the older girls is the softly waved effect which follows the contour of the head, with tress ends turned

## MOTHERS now learn value of MAGNESIA

Because it is so helpful in keeping babies and children healthy and happy, every mother should know about Phillips Milk of Magnesia. This harmless, almost tasteless preparation is most effective in relieving those symptoms of babies and children generally caused by souring food in the little digestive tract, such as sour belchings, frequent vomiting, feverishness, colic. As a mild laxative, it acts gently, but certainly, to open the little bowels in constipation, colds, children's diseases.

A teaspoonful of Phillips Milk of Magnesia does the work of half a pint of lime water in neutralizing cow's milk for infant feeding, and preventing hard curds. Its many uses for mother and child are fully explained in the interesting book "Useful Information." It will be sent you FREE. Write The Phillips Co., 117 Hudson St., New York, N. Y.

In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 50 years.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875.—adv.

## MORE AID PLANNER FOR WAR VETERANS

WASHINGTON, Feb. 26.—(AP)—The 1934 World War veterans act would be radically amended and \$100,000,000 more would be devoted every year to veterans' compensation under the Johnson bill approved today by the house veterans committee.

The measure combines recommendations of the American Legion, disabled American veterans, veterans of foreign wars, and the veterans bureau. It would deny the comptroller general power to reverse a decision of the director of the veterans bureau and would provide that a proper consideration be given to lay evidence and other evidence not of a medical nature in adjudicating veterans' cases.

A section considered of prime importance provides that every man's disability which existed to a ten per cent degree prior to January 1, 1925, should be presumed to be acquired in service. This would affect approximately 84,000 cases, at a cost of \$7,000,000 to the government.

For persons suffering the loss of a foot or hand, the bill would provide \$25 a month additional compensation, a clause which would ease \$1,500,000 expenditure the first year of its operation. Veterans' insurance policies would be made incontestable. Other provisions would safeguard the interests of mentally incompetent veterans; assure recreation for hospitalized veterans; liberalize insurance and compensation rules; repeal time limits for filing evidence and claims; and insure proper burial of veterans of all wars.

A flag to drape the casket of every veteran of all wars would be specifically provided for an item of which would cost the government approximately \$40,000 the first year for flags to be presented to the next of kin.

## SUGAR CONTRACT IS SIGNED BY GROWERS

DENVER, Feb. 26.—(AP)—A contract, essentially like that of 1929, for delivery of the 1930 crop of sugar beets was signed by representatives of the Great Western Sugar company and of the Mountain States Beet Growers' marketing association late today.

The date for unrestricted delivery in the new contract was moved up from October 15 to October 8 to lessen the hazard of frost which last year was reported to have caused a loss of some 400,000 tons of beets to the growers.

The contract provides for a \$7 minimum and a sliding scale which was in effect in the 1929 contract. The board of directors of the marketing association adopted a resolution reciting that they did not believe the sliding scale in effect gave the grower a "just division" of sugar profits, and gave notice that they would later attempt to work out a division of the net returns from the sales of sugar.

**ATTEND RELIGIOUS MEET SUMMIT HILL, Feb. 26**  
James Weathers left Friday morning for Molalla to attend a convention of the Church of God, Mrs. Weathers and sons, Delbert and Wayne, left Sunday morning to be there for the day and Mr. Weathers returned with his family Sunday night.

Before starting the shampoo the scalp should be massaged for three or four minutes. This beauty rite brings the flesh to a glow and helps to loosen any dandruff that may be present. Immediately after the tubbing the scalp should be rubbed briskly again. By friction the blood streams are busied, and it is upon the blood streams that the hair lives and has its being.

A woman of striking appearance can wear dazzling synthetic jewelry and get away with it, but the little white dove of a girl should not be banded and span-gled. Pearls should be her selection.

## Now you can protect her lovely hair!

Millions of men and women know how Danderine helps stop falling hair and dissolves the worst crust of dandruff; how easily it changes dull, lustreless, brittle hair into hair that is soft, sparkling, vigorous.

With Danderine it is so easy to "train" a child's hair; to keep it orderly, sparkling, clean. Danderine accentuates the natural curl of a child's hair. A girl's "waves" look more natural when "set" with it. And they stay in longer.

Use Danderine with children to overcome the evils of frequent washing. It puts back into hair and scalp the natural oils removed by soap and water. Doesn't show. It is no trouble to use. Just put a little on the brush each time the hair is arranged. That will keep the scalp healthy and encourage the growth of long, silky and abundant hair. Five million bottles used a year is proof of Danderine's effectiveness.
