Varicose Veins Rapidly Reduced

Simple Home Treatment That is Giving Amazing Results

If you have varicose veins or bunches you can start today to bring them back to normal size, and if you are wise you will do so. Just get an original bottle of Moore's Emerald Oil (full strength) at any drug store and apply it night and morning to the enlarged veins. It is very powerful and penetrating and only a little is required.

After a few days' treatment the veins will begin to grow smaller and by regular use will soon reduce to normal size. Moore's Emerald Oil is also a marvelous healing agent. One application for instance stops the itching of eczema and a few applications causes the eruptions to dry up, scale off and completely disappear. It is equally effective in barber's itch, salt rheum, redness and inflammatory skin troubles.

People who want to reduce varicose veins, or get rid of eczema, ulcers, or piles in a few days, should not hesitate to get a bottle at once. It is so powerful that a small bottle lasts a long time. Perry's Drug Store, 105 S. Com'l. St., an leading drug stores sell lots of it.—Adv.

ART OF SEASONING FOODS TAKES NEW TURN

The Idea Appeals to Cooks With Imagination

The trend in present-day cooking is to emphasize the distinctive flavor of the food rather than change it. Sugar plays an important role in this new departure in cookery. The value of sugar in heightening flavor is most apparent in cooking familiar vegetables such as string beans, carrots, peas, beets, cabbage and spinach. In addition to improving the flavor, the sugar maintains the garden-fresh color of the vegetable.

A dash of sugar to a pinch of salt is a general rule to follow. Some cooks keep a mixture of sugar and salt on hand—equal parts of each, or two parts sugar to one part salt depending upon the taste preferences of the family. For a pleasant surprise try this combination in making French dressing.

Doctors and dietitians are in favor of favoring vegetables and fruit with sugar because it makes them essential foods with their vitamins, mineral salts and roughage more palatable and enjoyable, especially to children. Most foods are more delicious and nourishing with sugar. The Sugar Institute.
