MOTHERS ARE LEARNING USES OF MAGNESIA

From the beginning of expectancy until baby is weaned, that's the time Phillips Milk of Magnesia performs the greatest service for many women.

It relieves the expectant mother's nausea, heartburn, "morning sickness," inclination to vomit, helps her digestion. Its mild but effective laxative action assures regular bowel movement.

Phillips Milk of Magnesia is better than lime water for neutralizing cow's milk for infant feeding. A teaspoonful of it does the work of a half pint of lime water. It is a mild laxative; harmless, almost tasteless.

All drug stores have Phillips Milk of Magnesia in generous 25c and 50c bottles. Always insist on the genuine, endorsed by physicians for 50 years.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of the Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875.

Beautiful hair!

Modern hair dressers arrange the hair so beautifully that it's bound to attract attention. That's why it's so important to guard its color and lustre; keep it in perfect condition.

There is no surer, simpler way to do this than with Danderine. Each time you use your brush, just moisten it with this delicate, fragrant liquid. Then as you draw it through your hair, it removes the excess oil; brings out the natural color; makes the hair fairly sparkle with new life and lustre.

How much easier it is to arrange the hair afterwards. How it stays in place. And try "setting" the waves with Danderine. They stay in so much longer.

Danderine quickly dissolves the crust of dandruff; puts the scalp in the pink of condition; helps the hair to grow long, silky and abundant!

It is a perfect pleasure to serve this fragrant delicious blend.
