

Senate Coalition Braces Up After Defeat on Sugar Tariff

PARTY LEADERS GET TOGETHER

Majority Again Sought After Ranks Thinned in Recent Bouts

By D. HAROLD OLIVER
Associated Press Staff Writer
WASHINGTON, March 6.—(AP)—Undismayed by their defeat on the sugar tariff, leaders of the democratic-republican independent coalition braced themselves today in preparation for the effort to stay further possible upsets of victories already won on important levies in the tariff bill.

Despite three further secondary overturns in votes during the day on the chemicals, oil and a paints schedule, the coalition chiefs believed they had a majority again to prevent the voting of rates on cement, oil and lumber and to retain reductions they won on aluminum and pig iron.

Reconsideration May Be Requested
Reports were heard of threats to seek a reconsideration of yesterday's vote whereby the duty on sugar was increased. If the senate reversed itself and approved a tariff on cement, but there also were expressions that not enough votes to overturn the sugar decision were available. The senate recessed late today until tomorrow in respect to Rep. James P. Glynn of Connecticut, who dies today.

The republican independents, four of whom left that group to vote for a higher sugar tariff were regarding prospective votes on cement and other commodities as a test of whether any "trading agreements" on rates actually existed. On the other hand, republicans regular clung to their stand that no vote-juggling was being indulged in, although some were inclined to be not any too anxious for further important reverses lest the "trading" charges be renewed.

How of Separate Ballots Are Taken
Of the more than 100 requests for separate votes only half a dozen had been taken up to late in the day and the remainder embraced all the major contests. This led leaders to express doubt of passage of the bill this week.

Of the six votes taken up to 4 o'clock, three were against the coalition. The present rates on litharge and red lead pigments used in paints were restored, whereas the coalition had cut these respectively from 2 1/2 to 2 1-8 cents a pound and from 2 3-4 to 2 1-8 cents.

Sodium, potassium, lithium, beryllium and caesium, which previously were restored to the free list, were given a rate of 25 per cent.

Senators Develop Difference of Opinion
Spirited debate preceded this vote. Senator Howard, republican independent, Nebraska, contended for the 8-cent rate as an aid to the dairy industry. Senator Blaine, another independent, from Wisconsin, argued 5 1/2 cents was the difference in American and Argentine production costs and that a higher levy would benefit only the processors.

After lengthy debate, Senator Hawser, republican, Oregon, won approval of an amendment to place on the free list sodium chlorate, dutiable at 1 1/2 cents a pound. This chemical is used to eradicate weeds and farms and railroad rights of way.

HOME IS DESTROYED BY FIRE THIS WEEK

MILL CITY, March 5.—Fire destroyed the farm home of Mr. and Mrs. Thomas Barnes early Sunday morning. The building was completely destroyed as was the greater part of the contents. It is presumed that the fire was started from a defective flue. Mr. Barnes had arisen rather early and had then gone to the barn to do the chores. Mrs. Barnes has been quite ill for some time and was confined to her bed. She heard the fire and getting to the kitchen endeavored to attract Mr. Barnes' attention. This was quite difficult as the wind was blowing and in the opposite direction from the barn. He finally heard or saw the fire and hastened to the house but too late to save anything except two pillows and a trunk.

Little Chats About Your Health

In his book "Roughing It" Mark Twain tells of being lost in a storm and—without knowing it—of traveling for hours in a circle and finally learning that all the while he had been but a very short distance from camp and friends.

People who rely on self diagnosis and self medication also very often travel in circles in that they make no headway until their course is properly directed by a physician.

You can best travel the road to health when your doctor acts as your guide.

As we specialize in prescription work we are always prepared and ready to give real service in that respect.
